EuroSciCon

7th Edition of International Conference and Exhibition on

Separation Techniques

July 5 - 7 2018

Berlin, Germany

Day 1, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break @ Foyer

	HALL 01	HALL 02	HALL 03
11:00 AM	Talks On: **Novel Separation Techniques in Chemistry**	Talks On: **Bio-separation Techniques**	Talks On: **Separation Techniques in Biochemistry**
	Talks On: **Advancements in Sample Preparation Techniques**	Talks On: **Biomarker and Biosensors Analysis - Regulations**	Talks On: **Analytical Chemistry**
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Recent advances in Separation Techniques**	Panel Over: **Future of Biomarkers**	Panel Over: **Instrumental Chemistry**
	Workshop On: **HPLC-ESI-MS / HPLC-CE-MS - mass spectrometry**	Workshop On: **Spectroscopic Imaging**	Workshop On: **Mass Spectrometry Configurations and Separation Techniques**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **Separation Techniques in Mass Spectrometry**	Talks On: **Spectroscopic Methods in Separation Techniques**	Talks On: **Hyphenated Techniques**
	Lectures on: **Advancements of Electrophoresis**	Lectures on: **Spectroscopic analysis of Biomolecules**	Lectures on: **Emerging Imaging Techniques**
06:00 PM	Session On: **Cytometry**	Session On: **Nuclear Magnetic Resonance Imaging techniques**	Session On: **Novel researches using Analytical Techniques**
	NETWORKING	**NETWORKING**	**NETWORKING**

Day 2, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break @ Foyer

	HALL 01	HALL 02	HALL 03
11:00 AM	Talks On: **Chromatography as a Separation Technique**	Talks On: **Separation techniques in Organic Chemistry**	Talks On: **Separation Techniques in Environmental chemistry**
	Talks On: **Membrane Separation Techniques**	Talks On: **Separations in Inorganic Chemistry**	Talks On: **Wastewater Treatment and Purification Techniques**
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Chiral Separation Techniques**	Panel Over: **Separations using Adsorbents**	Panel Over: **Modern separation techniques in Inorganic analysis**
	Workshop On: **Solvent Extraction and Ion Exchange separations**	Workshop On: **Applications of Icp ms in Chemical Analysis of Forensic Evidence**	Workshop On: **Membrane Development and Characterization**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **Separation Process in Chemical Engineering**	Talks On: **Separation Techniques used in Nanotechnology**	Talks On: **Separation Techniques in Radiochemistry**
	Lectures on: **Separation Techniques inherited for air/water/soil pollution**	Lectures on: **Organic pollutants separation process**	Lectures on: **Recent advances of Membrane Separation Technology**
06:00 PM	Session On: **Future trends of Separation Techniques**	Session On: **Novel separations employed in Nano Science**	Session On: **Separation and Purification by Nano-particles**
	NETWORKING	**NETWORKING**	**NETWORKING**

Day 3, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break @ Foyer

	HALL 01	HALL 02	HALL 03
11:00 AM	**Talks On:** Separation techniques in Clinical / Pharmaceutical Chemistry	**Talks On:** New instrumentation and Multidimensional Separations	**Talks On:** Applications of Separation Techniques
	Talks On: Separation Techniques used in Geology / Mineralogy	**Talks On:** Market analysis of Separation Techniques	**Talks On:** Fractionation & Magnetism as a separation Technique
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	**Panel Over:** Separation and Purification of Radioactive materials	**Panel Over:** Analysis of drugs with Chromatography, Mass Spectrometry methods	**Panel Over:** Process Analytical Technologies for pharmaceutical processes
	Workshop On: Column / Matrix development	**Workshop On:** Hybrid Techniques - MALDI TOF/ TOF	**Workshop On:** Chromatography
	Lunch Break @ Restaurant	*Lunch Break @ Restaurant*	*Lunch Break @ Restaurant*
04:00 PM	**Talks On:** Analytical techniques used in geochemistry	**Talks On:** Future trends in Analytical Instruments	**Talks On:** Microfluidic techniques.
	Lectures on: Analytical Techniques for purification of minerals	**Lectures on:** Innovations in separation and analytical instruments.	**Lectures on:** Separation Techniques used in Industries
06:00 PM	**Session On:** Electromagnetic Separations	**Session On:** Future market of Separation Techniques	**Session On:** Bio-membrane & Biotechnology
	NETWORKING	**NETWORKING**	**NETWORKING**

ORGANIZING COMMITTEE MEMBERS

Martin Schimpf
Boise State University
USA

Vaneet K. Sharma
International AIDS Vaccine Initiative, USA

Paul Eggerstedt
Consulting Engineer
USA

Alireza Heidari
California South University
USA

Hector Alvarez-Vazquez
Specialized Water Systems Inc
Canada

M. Angela A. Meireles
University of Campinas
Brazil

Yi (Harvey) Huang
Universirty of Edinburgh
UK

Lidietta Giorno
Institute on Membrane Technology
Italy

Jorge Costa Pereira
Univeridade de Coimbra
Portugal

Mikhail A. Bolshov
Institute of Spectroscopy
Russia

Abbas Amini
Western Sydney University
Australia

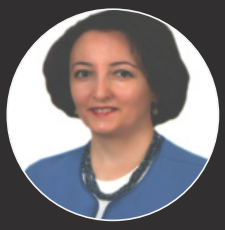

Fawzi Banat
The Petroleum Institute
UAE

Ghazi Ozair
AcwaPower International IWPP O&M Co NOMAC, Saudi Arabia

Mustafa Tuzen
Gaziosmanpasa University
Turkey

Hayrunnisa Nadaroğlu
Ataturk University, Turkey

Ebrahim Abouzari-Lotf
University Technology
Malaysia, Malaysia

ORGANIZING COMMITTEE MEMBERS

Kamyar Shameli
University Technology Malaysia, Malaysia

Liang An
Hong Kong Polytechnic University, Hong Kong

Elsayed Ahmed Elnashar
Kaferelsheikh University
Egypt

Abdelkrim Abourriche
University of Cadi Ayyad
Morocco

Idress Hamad Attitalla
Omar Al-Mukhtar University
Libya

For detailed sessions, please visit:

Submit your abstract online at:

https://separationtechniques.euroscicon.com/abstract-submission

Register online:

https://separationtechniques.euroscicon.com/registration

Renowned Speakers

Tracy Bantegui
Cerahelix Inc
United States

Aaron Parker
SepSolve Analytical
UK

Abdeen Omer
University of Nottingham
UK

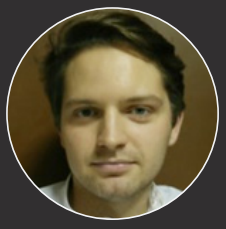

Yi Harvey Huang
University of Edinburgh
UK

Dietmar Schwahn
Technische Universität München
Germany

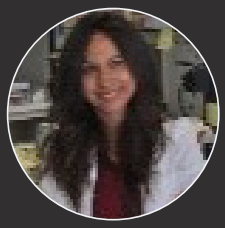

Jorge Costa Pereira
University of Coimbra
Portugal

Elson D. Gomes
University of Porto
Portugal

Axel Vansteene
Université Pierre et Marie Curie
France

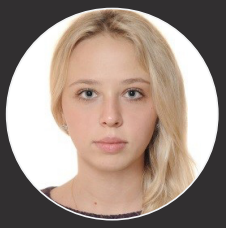

María Ramos Payán
University of Sevilla
Spain

Anne Marie Mahon
Galway-Mayo Institute of Technology
Ireland

Miloš Netopilík
Institute of Macromolecular Chemistry, Czech Republic

Vasilina V. Eskina
National University of Science and Technology
Russia

Artem V. Pripakhaylo
Russian Academy of Sciences
Russia

Olga A. Dalnova
National University of Science and Technology MISIS, Russia

Junsheng Yuan
Quanzhou Normal University
China

Yingying Zhao
Hebei University of Technology, China

Renowned Speakers

Ting Hu
Chinese Academy of Medical Sciences, China

Su Xu
National Tsing Hua University, China

Ruoling Guan
Hainan Tropical Ocean University, China

Zhang Jinlan
Chinese Academy of Medical Sciences, China

Menglin Li
Chinese Academy of Medical Sciences China

Yu Tian
Harbin Institute of Technology China

Zhe Wang
Chinese Academy of Medical Sciences, China

David Ewusi-Mensah
Hohai University China

Ji Won Ha
University of Ulsan South Korea

Hilal Mete
Yıldız Technical University Turkey

Hayrunnisa Nadaroglu
Ataturk University Turkey

Mustafa Tuzen
Gaziosmanpasa University Turkey

Yoram Oren
Ben-Gurion University of the Negev, Isreal

Mogolodi Dimpe
University of Johannesburg South Africa

Elsayed Ahmed Elnashar
Kaferelsheikh University Egypt

Hytham Ahmed
Damanhour University Eygpt

Renowned Speakers

Shaimaa Abdelsattar Refat
Menoufia University
Egypt

Naveen.B.P
Amity University
India

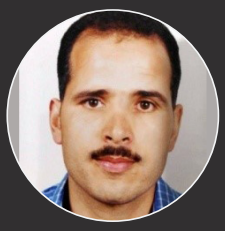

D. T. Seshadri
Indofil Industries Limited
India

N. H. Petha
Jaipur National University
India

Saoula Nacereddine
AURES GAS, Algeria

Mahmoud Bali
University of Gabès
Tunisia

Saoussen Hammami
Monastir University
Tunisia

Abdelkrim Abourriche
University of Cadi Ayyad
Morocco

Muhammad Zeeshan
University of Engineering and Technology
Pakistan

Featured Speaker Presentations

Enabling innovative process solutions with tight nanofiltration ceramic membranes
Tracy Bantegui, Cerahelix Inc, United States

Aroma profiling of pet food using high-capacity sorptive extraction and TD–GC×GC–TOF MS
Aaron Parker, SepSolve Analytical, UK

Demand for Biogas: State of the Art and Future Perspective"
Abdeen Omer, University of Nottingham, UK

Dual-channel GC×GC-FID for routine TPH analyses
Aaron Parker, SepSolve Analytical, UK

Nanostructure Engineering of Porous Materials for Efficient Separation
Yi Harvey Huang, University of Edinburgh, UK

In-situ studies of thin-film composite reverse osmosis membranes with small-angle neutron scattering during the process of desalination
Dietmar Schwahn, Technische Universität München, Germany

A microfluidic tool for the investigation of liquid-liquid extraction kinetics
Axel Vansteene, Université Pierre et Marie Curie, France

Microfluidic devices: Electromembrane extraction or liquid phase microextraction
María Ramos Payán, University of Sevilla, Spain

On-line and off-line analysus using a microfluidic-chip as sample treatment miniaturization
María Ramos Payán, University of Sevilla, Spain

Study of the efficiency of the electrode applied to Electromembrane extraction as sample pre-treatment
María Ramos Payán, University of Sevilla, Spain

Fractionation of acids, ketones and aldehydes from alkaline lignin oxidation solution with SP700 resin
Elson D. Gomes, University of Porto, Portugal

Unsupervised Contribution Analysis: revealing and resolving objects
Jorge Costa Pereira, University of Coimbra, Portugal

The role of equilibrium in separation of polymers by SEC
Miloš Netopilík, Institute of Macromolecular Chemistry, Czech Republic

Sources and Pathways of Microplastics in Freshwater and Terrestrial Environments
Anne Marie Mahon, Galway-Mayo Institute of Technology, Ireland

Featured Speaker Presentations

Determination and Excrete of Precious and Ecotoxical Elements in Metal Wastes. Approach and Implementation for the Areal Control

Vasilina V. Eskina, National University of Science and Technology, Russia

Separation and preconcentration of Au and Ag from waste electrical and electronic equipment in HR CS ETAAS analysis

Olga A. Dalnova, National University of Science and Technology MISIS, Russia

Characterizing fractions of heavy oil by supercritical fluid extraction and fractionation using CO2-based solvent

Artem V. Pripakhaylo, Russian Academy of Sciences, Russia

A approach for Untarget to target Metabolomics for dofferent Bio-samples

Zhang Jinlan, Chinese Academy of Medical Sciences, China

Integrated MFC-MBR system for wastewater treatment and membrane fouling mitigation

Yu Tian, Harbin Institute of Technology, China

A novel strategy to rapid characterization and quantification of commercial polysorbate 80 by high performance liquid chromatography with quadrupole time-of-flight mass spectrometry and computer-aided data analysis

Zhe Wang, Chinese Academy of Medical Sciences, China

New bioactive metabolites from Daucus virgatus (Apiaceae) growing in Tunisia

Saoussen Hammami, Monastir University, Tunisia

Trash to treasure: Seawater pretreatment by CO2 mineral carbonation using brine pretreatment waste of soda ash plant as alkali source

Yingying Zhao, Hebei University of Technology, China

Trash to treasure: Seawater pretreatment by CO2 mineral carbonation using brine pretreatment waste of soda ash plant as alkali source

Junsheng Yuan, Quanzhou Normal University, China

MnO2 Structure Induced Surface Charge Effect on the Performance of Capacitive Deionization in Different pH

Su Xu, National Tsing Hua University, China

A novel UPLC/MS/MS method for comprehensive profiling and quantification of fatty acid esters of hydroxy fatty acids in white adipose tissue

Ting Hu, Chinese Academy of Medical Sciences, China

Featured Speaker Presentations

Homogeneous polyethersulfone composite membrane and its application of bromine from aqueous solution

Ruoling Guan, Hainan Tropical Ocean University, China

Profile proteins/peptides composition in zein excipient by silver staining SDS-PAGE and LC-MS/MS

Menglin Li, Chinese Academy of Medical Sciences China

Using Photosynthetic Microbial Desalination Cell (PMDC) to pre-treat high COD and salt concentration in landfill leachate

David Ewusi-Mensah, Hohai University, China

Acupuncture Sample Injection for Microchip Capillary Electrophoresis and Electrokinetic Chromatography

Ji Won Ha, University of Ulsan, South Korea

Purification of Pectin Lyase enzyme from Pseudomonas putida Using Three Phase Partitioning (TPP), Preparation of Self-Assembled Enzyme-Inorganic Hybrid Nanoflowers and Their Application to Fruit Juice Clarification

Hayrunnisa Nadaroglu, Ataturk University, Turkey

Using Phosphonium Based Ionic Liquid for Recovery of Acetic Acid by Reactive Extraction

Hilal Mete, Yıldız Technical University, Turkey

Green extraction techniques for separation and enrichment of traces analyte ions in water, food and environmental samples

Mustafa Tuzen, Gaziosmanpasa University, Turkey

Scaling of Calcium and Barium Sulfates on Ion Exchange Membranes during Donnan Exchange and Electrodialysis

Yoram Oren, Ben-Gurion University of the Negev, Isreal

stereoselective high-performance liquid chromatographic (HPLC) method

Aymen K Al- Suwailem, King Saud University, Saudi Arabia

Application of activated carbon decorated polyacrylonitrile nanofibers as an adsorbent in dispersive solid phase extraction of flouroquinolones in wastewater

Mogolodi Dimpe, University of Johannesburg, South Africa

Metabolomic quantitative analysis of blood and urine by LC- MS/MS and GC-MS for differential diagnosis of Hyperammonemia in children

Shaimaa Abdelsattar Refat, Menoufia University, Egypt

Featured Speaker Presentations

Theoretical Analyses of Laser-Jet Technology for Cutting 3d Velvets Fabrics on Weaving Machine

Elsayed Ahmed Elnashar,Kaferelsheikh University, Egypt

CZE and HPTLC Methods for Simultaneous Determination of Candesartan in binary mixtures with Amlodipine and Hydrochlorothiazide

Hytham Ahmed, Damanhour University, Eygpt

A simple pre-column derivatization method for the determination of Mancozeb technical (fungicide) by Reverse Phase HPLC-UV.

N. H. Petha, Jaipur National University, India

A simple pre-column derivatization method for the determination of Mancozeb technical (fungicide) by Reverse Phase HPLC-UV.

D. T. Seshadri, Indofil Industries Limited, India

Challenges and opportunities associated with waste management in Bangalore, India

Naveen.B.P, Amity University, India

Air separation used a cryogenic system

Saoula Nacereddine, AURES GAS, Algeria

Production of a new materials from Moroccan oil shale

Abdelkrim Abourriche, University of Cadi Ayyad, Morocco

Magnetic treatment of hard waters

Mahmoud Bali, University of Gabès, Tunisia

Electromembrane extraction combined with capillary electrophoresis for the determination of Organophosphorus in wastewater samples and food samples.

Ehsan Sadeghi, Shahid Beheshti University, Iran

Optimization and design of a continuous biosorption process using brown algae and Chitosan/PVA nano-fiber membrane for removal of nickel by a new biosorbent

Akbar Esmaeili, Islamic Azad University,Iran

Effect of Chemical backwashing on membrane fouling in membrane bioreactor

Muhammad Zeeshan, University of Engineering and Technology, Pakistan

Past Affiliates

Dušan Berek
Polymer Institute of the Slovak, Slovakia

Catia Algieri
Institute on Membrane Technology ITM-CNR, Italy

Sofia Nikolaou
University of São Paulo, Brazil

Rafael Lucena Rodríguez
University of Córdoba, Spain

Yongjae Lee
Food Protein R&D Center at Texas A&M University, USA

Roger M. Leblanc
University of Miami, USA

Adolfo Iulianelli
Institute on Membrane Technology of the Italian National Research Council, Italy

Marek Trojanowicz
Institute of Nuclear |Chemistry and Technology, Poland

Renat Khatmullin
Middle Georgia State University, USA

Anne Jonquieres
Université de Lorraine, France

Solich Petr
Charles University, Czech Republic

Jaya Vejayan
Universiti Malaysia Pahang, Malaysia

Eduard Rogatsky
Albert Einstein College of Medicine Yeshiva University, USA

Maw-Rong Lee
National Chung Hsing University, Taiwan

Jacek Namiesnik
Gdansk University of Technology, Poland

Norman Dovichi
University of Notre Dame, USA

G. Abedi
Alzahra University, Iran

Alberto Chisvert
University of Valencia, Spain

Jin Seok HUR
Novasep, USA

Mirtes Midori
Tanae Universidade Federal de São Paulo, Brazil

Paul Haddad
Pfizer Analytical Research Centre, Australia

Zoltan Takats
Imperial College London, United Kingdom

Gaelle Coussot
Université de Montpellier, France

Albert van den Berg
The BIOS Lab-on-a-chip group University of Twente, Netherlands

Petr Mikulasek
University of Pardubice, Czech Republic

Mostafa El-Sayed
Georgia Institute of Technology, USA

Gui-bin Jiang
Chinese Academy of Sciences, China

Hayrunnisa Nadaroglu
Ataturk University, Turkey

Ronghu Wu
Georgia Institute of Technology, USA

King-Chuen Lin
National Taiwan University, Taiwan

Aleksandra Tubić
University of Novi Sad, Republic of Serbia

Povinec Pavel
Comenius University, Slovakia

Bruno C. Janegitz
Federal University of Santa Catarina, Brazil

Past Affiliates

Bahtiyar Osturuk
Ondokuz Mayis University, Turkey

Yuhui (Henry) Zhao
Epcor Water, Canada

Solhe F. Alshahateet
Mutah University, Jordan

Xiwang Zhang
Monash University, Australia

Makhapa Makhafola
MINTEK, South Africa

Celina Nazareth
PES's Rajaram and Tarabai Bandekar College of Pharmacy, India

Snezana Maletic
University of Novi Sad, Republic of Serbia

Luigi Silvestro
3S-Pharmacological Consultation & Res. GmbH, Germany

Yuyoung Shin
University of Manchester, UK

Pongsak Rattanachaikunsopon
Ubon Ratchathani University, Thailand

Jalal Uddin
University of Padova, Italy

Santerre Cyrille
ISIPCA, France

Parichat Phumkhachorn
Ubon Ratchathani University, Thailand

Shobini Jayaraman
Boston University School of Medicine, Boston

Johannes Carolus Jansen
CNR-ITM, Italy

Jasmina Agbaba
University of Novi Sad, Republic of Serbia

Elliot R. Bernstein
Colorado State University, United States

Iakovos Yakoumis
Monolithos Catalysts and Recycling Ltd, Greece

Pranjal Chandra
Indian Institute of Technology Guwahati , India

Lianming Wu
Scientist GlaxoSmithKline, United States

Rafael Lucena
Rodriguez University of Cordoba, Spain

O. Dapremont
AMPAC Fine Chemicals LLC, USA

Lilian Regina Barros Mariutti
University of Campinas, Brazil

Morten Lykkegaard Christensen
Aalborg University, Denmark

Gerhard Kratz
abcr GmbH Im Schlehert Karlsruhe Area, Germany

Harika Vemula
Merck MSD Missouri USA, United States

Robert van Ling
Thermo Fisher Scientific, Netherlands

Gaetane Lespes
University of Pau and Pays de l'Adour, France

Shie Wang
Director Cleveland Clinic, USA

Conidi Carmela
University of Calabria, Italy

Past Affiliates

(Neal) Tai-Shung Chung
University of Singapore, Singapore

Zhenhua GONG
Shanghai Jiaotong University, China

Kai Wilkner
Forschungszentrum Julich, Germany

Andrew Shalliker
University of Western Sydney, Australia.

Marek M Kowalczuk
University of Wolverhampton, UK

Chun-Yi Chen
Tokyo Institute of Technology, Japan

Hiroshi Uyama
Osaka University Graduate School of Engineering, Japan

Shawn R Campagna
University of Tennessee, USA

Sladjana Tomic-Skrbic

Plan a Trip to Berlin, Germany

Germany's location at the heart of Europe has shaped its history both for good and bad. It is the fifth largest country in Europe and shares its border with nine neighbor countries. Germany's central and southern regions have forested hills and mountains cut through by the Danube, Main, and Rhine river valleys. In the north, the landscape flattens out to a wide plain that stretches to the North Sea. Between these extremes, Germany is a country of incredible variety. Germany is the land of cultural heritage where it is known for its famous historical spots and world class institutions. It has been called the Land of Poets and Thinkers." Germans are famous in all forms of art, but particularly classical music. Germany's famous composers include Bach, Brahms, Schumann, Wagner, and Beethoven and some of the world's greatest philosophers include Kant, Hegel, Schopenhauer, Nietzsche, and Heidegger are from Germany. This country boasts some of the world's most famous inventions like the light bulb, insulin, the automated calculator, and the automobile. Germany has more cultural activities and places than any other country – it's a cultured place, with 6,200 museums, 820 theaters, 130 professional orchestras and 8,800 libraries. Berlin is the capital of Germany featured with art museums, and other historic places. A feature of Berlin, aside from its exuberance, is the way it continuously reinvents itself. It also called as greener city of Germany by its forests, lakes and sprawling parks.
