

EuroSciCon

8th Edition of International Conference and Exhibition on

Separation Techniques

July 29-30, 2019
Dublin, Ireland

Theme:
Exploring new trends in Separation Techniques and its related fields

EuroSciCon

Separation Techniques

2019

Invitation

Welcome to Dublin, the City of Arts and Science, and experience the trends of Separation Techniques illuminated as never before. EuroSciCon is proud to host the "8th Edition of International Conference and Exhibition on Separation Techniques" during July 29-30, 2019 at Dublin, Ireland. This year's theme is Exploring new trends in Separation Techniques and its related fields will provide an unprecedented opportunity for Chemists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite chemists, pharmacologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals, principal investigators, scholars and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, symposiums and poster sessions, the separation techniques Conference is the perfect venue not only to dive into your instrumentation interests but also to expand the scope of your knowledge. 21 tracks are devoted to subjects such as the Advancements in Separation Techniques, Emerging Sample Preparation Process, Analytical Chemistry, Bioanalytical Techniques, Mass Spectrometry, Electrophoresis, Spectroscopic Methods in Separation Techniques, Hyphenated Techniques, Chromatography, Separation Techniques in Organic & Inorganic Chemistry, Separation Techniques in Environmental Science, Separation Science in Green Chemistry, Polymer & Biopolymer chemistry, Desalination & Water Treatment, Pollution Separation Techniques & Sewage Treatment Process, Membrane Separation Techniques, Separation Techniques in clinical / Pharmaceutical Chemistry, Separation Techniques in Chemical Engineering & Nanotechnology, Industrial Separation & Chemical Separation Technologies, Market analysis of Separation Techniques & Instrumentation, Applications of Separation Techniques. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

July 29-30, 2019

Separation Techniques

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 analytical chemists accessing the website, Separation Techniques 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Separation Techniques 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

July 29-30, 2019
Dublin, Ireland

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Separation Techniques

2019

Who'd be attending?

8th Edition of International Conference and Exhibition on Separation Techniques plays host for the Multinational organizations, entrepreneurs across the globe & keenly focuses on the Eminent Scientists who work with separation instrument Directors / Head of Analytical chemistry Principal Investigators, Research lab Scientists, Research Scholars Professors & Associate Professors of Analytical / organic / Geochemistry / Refining Chemistry Directors/ Scientists of Analytical Instruments companies Experts in Chromatography, Mass Spectrometer, Spectroscopy, NMR etc. Theoretical Scientists working on deriving analytical hypotheses Experts from Pharmaceutical, Forensic Scientists, Environmental Scientists, Desalination Experts, Wastewater Treatment Experts, Water Chemists, Chemical Industries Industrial Experts related to Separation Instruments. Research lab scientists, scholars working with separation Instruments. Relevant Post-graduates, Graduates, Technicians, Students.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Advancements in Separation Techniques
- Emerging Sample Preparation Process
- Analytical Chemistry
- Bioanalytical Techniques
- Mass Spectrometry
- Electrophoresis
- Spectroscopic Methods in Separation Techniques
- Hyphenated Techniques
- Chromatography
- Separation Techniques in Organic & Inorganic Chemistry
- Separation Techniques in Environmental Science
- Separation Science in Green Chemistry
- Polymer & Biopolymer chemistry
- Desalination & Water Treatment
- Pollution Separation Techniques & Sewage Treatment Process
- Membrane Separation Techniques
- Separation Techniques in clinical / Pharmaceutical Chemistry
- Separation Techniques in Chemical Engineering & Nanotechnology
- Industrial Separation & Chemical Separation Technologies
- Market analysis of Separation Techniques & Instrumentation
- Applications of Separation Techniques

EuroSciCon

See your work Published
in one of our related journals

- Archives in Chemical Research
- Der Chemica Sinica
- International Journal of Drug Development and Research

About Destination Dublin

Dublin is the capital and largest city in Ireland. Dublin is in the province of Leinster on the east coast of Ireland, at the mouth of the River Liffey and bordered on the south by the Wicklow Mountains. Dublin was as a global city, with a ranking of “Alpha-”, which places it amongst the top thirty cities in the world. It is a historical and contemporary Centre for education, the art, industry, administration, and economy. There are many historical monuments and landmarks in the great city of Dublin some of the area include Dublin Castle, Guinness Storehouse, the Spire of Dublin and many public parks like Phoenix Park, Dublin Zoo (Panda Zoo) & Ashtown Castle. Dublin was also referred as “Tech Capital of Europe” & “European Capital of Science” along with that this great city of Dublin has the title “UNESCO City of Literature”. So, this great city has been considered as an educational hub of Ireland where about three fourth of Scientists are doing their research in Dublin. Research activity is not constrained to colleges and expansive research organizations. By seeing the wonders this great city Dublin it has been twinned in 4 countries around the world as San Jose - United States, Liverpool - United Kingdom, Barcelona - Spain, Beijing - China, Emmetsburg, Iowa - United States
