

EuroSciCon

11th Edition of International Conference on

Structural Biology

March 07-08, 2019
Berlin, Germany

Theme:
Gearing up for the Futuristic Innovations & Researches in Structural Biology

EuroSciCon

Structural Biology

2019

Invitation

Dear Attendees,

After the successful completion of Structural Biology 2018 meet held on March 15-16, 2018 Barcelona, Spain, we are glad to announce the **"11th Edition of International Conference on Structural Biology"** organized by EuroSciCon, held during March 07-08, 2019 at the beautiful, dazzling city having a great history known as "Brain city" "Berlin". Berlin is a diversified city with the congregation of many cultures & historical heritage. Berlin, has been known for numerous Industries, offices, business centers, economic and service sectors.

The Structural biology 2019 conference implicates the opportunities for all the researchers, scientists in an incomparable international platform for all the stake holders of the System like Academicians, Industrialists, Researchers, Scientists, Innovators, Regulators presenting together and discussing on the current trends in Structural Biology, Molecular Biology, Protein Engineering Bioinformatics, Drug Designing, Computational Biology, Structural virology and Biophysics. This meet will be a realistic mark in your professional research. Attend this Structural Biology 2019 Conference to network with your peers, exchanging your ideas, researches, expertise's, experiences, developments in the field of Structural Biology reaching yourself to the next level.

We look forward to in personal welcoming you to **Berlin, March 2019.**

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

EuroStructural Biology, 2019 is the most felicitous platform for the Researchers, Academicians, Industry professionals, biomedical research companies, technology experts in this emerging field of science and technology. Besides having networking with peers, eminence of the research and the researcher is what we entrust to our Speakers and Committee Members for best outreach of work and profile.

Euro Structural Biology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

March 07-08, 2019
Berlin, Germany

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

2019

Who'd be attending?

Directors/Managers & Business Delegates, Founders, Director of Laboratories, Universities, Industries, Investigators, Post-Doctoral Fellows, Research and Diagnostic Laboratories, Clinical Fellows, Research Scholars, Students, Technology Experts, Biomedical Research companies.

Rise in the number of clinical trials, toxicological studies, and health awareness for nutritional products, rapid growth of structural biology analytical instruments, software and solutions, and use of structural biology as a base for drug designing will propel the growth of pharmaceuticals market.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Structural Biology
- Analytical Techniques
- 3D Structure Determination
- Computational Methods & Biology
- Hybrid Approaches for Structural Prediction
- Structural Biology Complexity Arena
- Frontiers in Structural Biology
- Structural Virology
- Multiscale Modeling, Simulation & Molecular Graphics
- Sequence Analysis
- Databases
- Cell Signaling Biology
- Genome Informatics
- Structural Bioinformatics
- Advancements in Structural Biology

About Destination Berlin

Berlin is a diversified city with the congregation of many cultures & historical heritage. Berlin, has been known for numerous Industries, offices, business centers, economic and service sectors.

Berlin is one of the largest and most diverse science locations in Europe. Research and development have a great significance for the city with the euro zone, Berlin has become a center for business relocation.

In addition, some of the biggest German companies have their headquarters in Berlin, such as Siemens, Deutsche Bahn, Deutsche Telekom, and Axel Springer. Daimler manufactures cars in the city, and BMW builds motorcycles. In the chemical sector, Bayer Health Care and Berlin Chemie are headquartered in Berlin. The city is also the headquarters of foreign rail technology leaders, Bombardier Transportation, Thales, and Stadler Rail.

The city has established itself as a popular entertainment center in Europe. Berlin is also considered as the home for numerous international, regional television and radio stations. Berlin's nightlife is one of the most diverse and vibrant in Europe. Berlin is currently at the leading edge of the global contemporary art scene. There are over 600 art galleries and 53 museums in the city. This has been started in Berlin since 1990s. In 1995, a Berlin art fair, Art Forum Berlin, was first held. Berlin has evolved and earned its reputation as a leading European city with its high art scene and dynamic, cutting-edge performances.

Emblematic of Berlin, the Brandenburg Gate is a renowned landmark in the city. Berlin is known for its numerous beach bars along the river Spree. Together with the countless cafés, restaurants and green spaces in all districts, they create an important source of recreation and leisure time.

Register Now!

Wish to Amalgamate in the paramounts of Structural Biology Event 2019?

Choose your Category:

Academic:

Speaker Registration **$549**

Package-A (Registration + 2 night's accommodation) **$899**

Package-B (Registration + 3 night's accommodation) **$1099**

Business:

Business Speaker **$649**

Business Speaker Package A (Registration + 2 night's accommodation) **$999**

Business Speaker Package B (Registration + 3 night's accommodation) **$1299**

Student:

Student Oral: **$349**

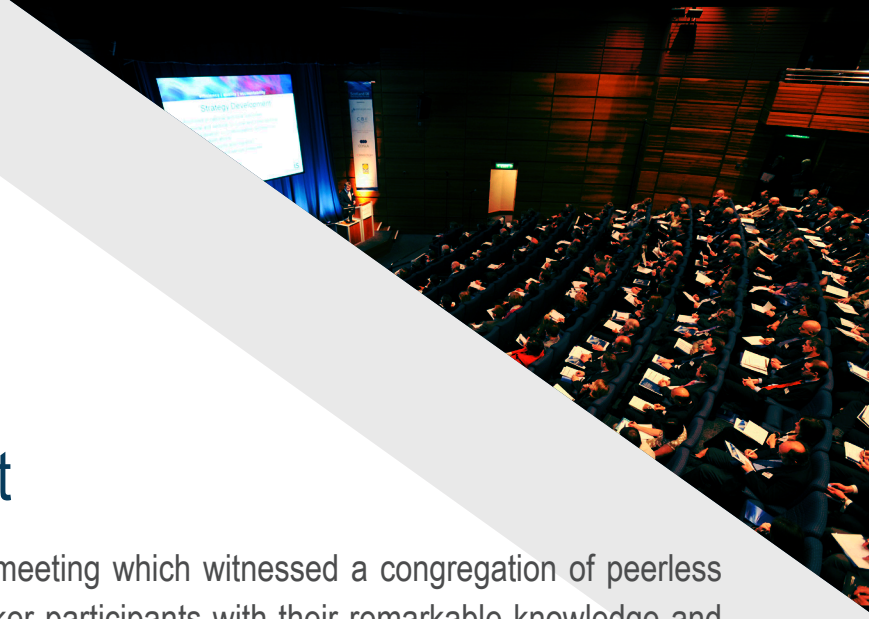

Young Researchers Forum: **$399**

Student Delegate: **$249**

Package Registrations

Package Valid through: **August 30, 2018**

EuroSciCon

Past Conference Report

Structural Biology 2018 was a successful meeting which witnessed a congregation of peerless global speakers who enlightened the speaker participants with their remarkable knowledge and conversed on various topics related to the field of Structural Biology, Molecular Biology, Analytical Techniques, Biomarkers, Structural Virology, Computational Chemistry, Computational Biology and Biophysics. This idealistic conference organized by EuroSciCon marked the presence of renowned and brilliant researchers and talented student communities representing more than 20 countries around the world. The conference has presented a platform bringing every aspect related to Structural Biology and Biophysics, covering all the possible research areas.
