

EuroSciCon

10th Edition of International Conference on

Structural Biology

March 15-17
Barcelona, Spain

Theme:

Clustered Science Technologies for emerging & advancements in Structural Biology

EuroSciCon

Structural Biology

2018

Invitation

Welcome to Barcelona, the relished and enchanted seaside city with loads of culture, education, architectures, history and get involved in Structural Biology as unprecedented. EuroSciCon is proud to host the Structural Biology conference, March15-17,2018 in Barcelona, Spain.The theme for the conference is Clustered Science Technologies for emerging & advancements in Structural Biology. The Euro Structural Biology 2018, emphasizes unprecedently immense opportunities for the biologists in various streams to discuss, share the researches and debate on the advancements in the field of structural biology on this platform.We welcome the biologists, scholars, scientist's, Post-Doctoral Fellows, Technology Experts, Diagnostic Laboratories, Clinical Fellows, Research Scholars, Students, Biomedical Research companies' and interdisciplinary researchers to congregate and interact. With the wide novel key note presentations, panel discussions, workshops and poster presentations, the Structural Biology conference will be the ideal platform to thrive your interests, network with peers and expand the scope of your interest. There are 14 tracks specified to the subject Structural biology as analytical techniques, computational chemistry, computational methods, multiscale modeling, simulation & molecular graphics, molecular graphics & modelling, molecular engineering, molecular design software, 3 D protein structure predictions, structural bio-informatics, drug designing, biomarkers & proteomics, database, chemical biology, biophysics, genome informatics and cancer immunotherapy.

EuroSciCon

A Transformational Learning Experience

- An unpredictable learning experience:
- Be inspired by some of the world's most renowned figures
- Solicit the new strategies of business sessions on structural biology and the drug designing which has an enormous & explicit growth in pharmaceutical industries.
- The conference focuses on the Analytical techniques of structural elucidations through NMR, X-ray crystallography, cryo-EM, drug designing by computational methods and techniques, bioinformatics; Multiscale Modeling, Simulation & Molecular Graphics; Thus, providing the networking for industrial entrepreneurs dealing with the analytical instruments and the software's useful in these industries.

March 15-17
Barcelona, Spain

EuroSciCon

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

EuroStructural Biology, 2018 is the most felicitous platform for the Researchers, Academicians, Industry professionals, biomedical research companies, technology experts in this emerging field of science and technology. Besides having networking with peers, eminence of the research and the researcher is what we entrust to our Speakers and Committee Members for best outreach of work and profile.

Euro Structural Biology 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

March 15-17
Barcelona, Spain

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

2018

Who'd be attending?

Directors/Managers & Business Delegates, Founders, Director of Laboratories, Universities, Industries, Investigators, Post-Doctoral Fellows, Research and Diagnostic Laboratories, Clinical Fellows, Research Scholars, Students, Technology Experts, Biomedical Research companies.

Rise in the number of clinical trials, toxicological studies, and health awareness for nutritional products, rapid growth of structural biology analytical instruments, software and solutions, and use of structural biology as a base for drug designing will propel the growth of pharmaceuticals market.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of

Scientific Sessions:

- Analytical Techniques
- Computational Chemistry
- Computational Methods and Biology
- Molecular Modeling, Simulation & Molecular Graphics
- Molecular Engineering
- Molecular Design Software
- 3D Protein Structure Predictions
- Structural Bio-informatics
- Drug Designing, Biomarkers & Proteomics
- Databases
- Chemical Biology
- Biophysics
- Genome Informatics
- Cancer Immunotherapy

About Destination Barcelona

Barcelona is a dazzling seaside city with boundless culture, sited between the Mediterranean Sea and the mountains, has found a formidable balance, a foot in the traditional things, fabled architecture, educational and industrial center and a world-class drinking and dining scene and the other in the avant-garde.

It's the capital city of the Catalonia in the Kingdom of Spain. Barcelona's architectural treasures span 2000-plus years with a history among the oldest in Europe, a capital, Barcelona, which never sleeps and an inland full of charm not to forget beautiful beaches in La Costa Brava.

Sun-drenched beaches make a fine backdrop to a jog, bike ride or long leisurely stroll along the seaside – followed by a refreshing dip. The night holds limitless possibilities in Barcelona.
