3rd Edition of World Congress & Exhibition on

Vascular Surgery

May 24-25, 2018 | London, UK

Day 1

24-May-18

08:00-08:30	**Registration**
Meeting Room: Johnson	
08:30-08:55	**Opening Ceremony**
Keynote Forum	
08:55-09:00	**Introduction**
09:00-09:25	**Title: A single center experience revising previous abdominal and thoracic aortic aneurysm repairs with a visceral manifold stent graft.**
	Patrick Kelly, SanfordHealth, USA
09:25-09:50	**Title: Comparison of results between carotid endarterectomy versus carotid artery stenting using propensity score matching analysis**
	Dong-Ik Kim, Sungkyunkwan University School of Medicine, Korea
09:50-10:15	**Title: A combination of penile venous stripping, corporoplasty and varicocelectomy for patients with erectile dysfunction, penile dysmorphology and varicocele under acupuncture-aided ambulatory local anesthesia**
	Geng-Long Hsu, Hsu's Andrology, Taiwan
****3 Keynote Slots Available****	
Tracks: Abdominal Aortic Aneurysms | Techniques of Open Vascular Surgery | Thoracic Aortic Vascular Surgery |Anesthesia For Vascular Surgery	
Chair: Geng-Long Hsu, Hsu's Andrology, Taiwan **Co-Chair:** Wei-liang Chen, Sun Yat-sen University, China	
10:15-10:35	**Title: Acupuncture aided local anesthesia for penile vascular surgeries**
	Chun-Kai Hsu, Taipei Tzu chi Hospital, Taiwan
Coffee Break 10:35-10:50 @ Breakout Area	
10:50-11:10	**Title: Venous insufficiency is the pivotal contributor in erectile dysfunction in males younger than 30 years**
	Geng-Long Hsu, Hsu's Andrology, Taiwan
11:10-11:30	**Title: Salvage surgery for patients with recurrent oral and oropharyngeal squamous cell carcinoma involving the carotid artery**
	Wei-liang Chen, Sun Yat-sen University, China
11:30-11:50	**Title: Lack of transcriptional activity of Nrf2 affects TGFb1 expression and alters collagen I and III localization within mice aortic aneurysm**
	Witold Nowak, Jagiellonian University, Poland
11:50-12:10	**Title: Insight into single-nucleotide polymorphisms of toll-like receptors and the risk of abdominal aortic aneurysm formation**
	Agnieszka Jabłońska, Polish Academy of Sciences, Poland
12:10-12:30	**Title: Computational fluid dynamic approach to mimic changes of blood hemodynamic in patients with acute type IIIb aortic dissection treated with TEVAR**
	Andrzej Polanczyk, Medical University Vienna, Austria

12:30-12:50	**Title: Novel pilot films providing indispensable information in pharmaco-cavernosography**
	Chi Can Huynh, The Male Clinic, Australia
12:50-13:10	**Title: An improved diagnostic score for abdominal aortic aneurysms based on a comprehensive analysis of myeloid cell parameters**
	Christoph Neumayer, Medical University of Vienna, Austria
Lunch Break 13:10-13:50 @ RBG	
13:50-14:10	**Title: Histone citrullination of neutrophil extracellular traps is a novel biomarker and target to inhibit progression of abdominal aortic aneurysms**
	Christoph Neumayer, Medical University of Vienna, Austria
14:10-14:30	**Title: Bovine pericardial grafts for the management of aortic graft injections: Single centerexperience**
	Ihor huk, Medical University Vienna, Austria
14:30-14:50	**Title: A comparison of major amputation rates and outcomes for indigenous and non-indigenous Australians in a major tertiary hospital**
	Tejas P. Singh, James Cook University, Australia
14:50-15:10	**Title: Locked temporary vascular shunt**
	Haibo Lu, Hospital to the People's Liberation Army Hong Kong Garrison, China
15:10-15:30	**Title: Critical appraisal of international guidelines for the screening and treatment of asymptomatic periphery artery disease: who decides the non-evidence corner**
	Qinchang Chen, Sun Yat-sen University, China
15:30-15:50	**Title: Does duplex surveillance after femoro-popliteal bypass grafting affect long term graft patency?**
	Sanjay Singh, Heart of England NHS Foundation Trust, UK
Coffee Break 15:50-16:05 @ Breakout Area	
16:05-16:25	**Title: Affecting factors of residual stenosis after carotid artery stenting**
	Lingyun Jia, Xuanwu Hospital of Capital Medical University, China
16:25-16:45	**Title: The aXurge© project. Feasibility of a mathematical platform for abdominal aortic aneurism (AAA) sizing, risk assessment and surgical planning**
	Domanin M, University of Milan, Italy
16:45-17:05	**Title: Structured resistance exercise and remote ischemic preconditioning for moderate intermittent claudication**
	Shannon Hernon, National University of Ireland, Galway
17:05-17:25	**Title: New developments in the treatment of carotid body tumors from Ecuador where they are common. What is the etiology and the best treatment tricks**
	Oscar Ojeda, Hospital Eugenio Espejo, Ecuador
17:25-17:45	**Title: Post-PTA dissection repair above and below the knee**
	Luboš Kubíček, Masaryk University, Czech Republic
Panel Discussion	
****7 Speaker Slots Available****	
Day 2	
25-May-18	
Registrations	
Meeting Room: Johnson	
Keynote Forum	
09:00:09:25	**Title: From chemical elements through micromolecules to endothelial cells**
	Ihor Huk, Medical University Vienna, Austria
09:25-09:50	**Title: The role of neutrophils in abdominal aortic aneurysms**
	Christoph Neumayer, Medical Uiniversity Vienna, Austria
****3 Keynote Slots Available****	
Tracks: Endovascular Surgery | Carotid Artery Diseases | Venous Surgery | Vascular Imaging | Vascular Bypass Grafting	
Session Introduction	

Chair: Ihor Huk, Medical University Vienna, Austria	
09:50-10:10	**Title: Endovascular treatment of peripheral arterial disease in 2018: Which technology to use, and why**
	Martin A Funovics, Medical University of Vienna, Austria
10:10-10:30	**Title: Deep venous thrombosis: From acute to chronic pharmaco-mechanic thrombectomy process**
	Ahmet Akgul, Istanbul University, Turkey
Coffee Break 10:30-10:45 @ Breakout Area	
10:45-11:05	**Title: Drop of ankle brachial index predicting outcome in treatment of popliteal artery entrapment syndrome**
	Hussien Rabee, Countess of Chester Hospital, UK
11:05-11:25	**Title: Good results of management of varicose veins through endoscopic assisted surgery**
	Sin-Daw Lin, Kaohsiung Municipal Siaogang Hospital, Taiwan
11:25-11:45	**Title: State-of-the-art imaging of the peripheral vasculature**
	Ruediger E. Schernthaner, Medical University of Vienna, Austria
11:45-12:05	**Title: A physiological approach of penile venous stripping for patients with erectile dysfunction on ambulatory basis**
	Geng-Long Hsu, Hsu's Andrology, Taiwan
12:05-12:25	**Title: Analysis of the latest method of penile venous stripping surgery in patient with veno-occlusive dysfunction**
	Chun-Kai Hsu, Taipei Tzu chi Hospital, Taiwan
12:25-12:45	**Title: A Strategy for glans enhancement and negating glans coldness in patient with penile prosthesis implantation**
	Chi Can Huynh, The Male Clinic, Australia
****2 Speaker Slots Available****	
12:45-13:05	**Title: Comparison of presenting characteristics and cardiovascular outcome between indigenous and non-indigenous patients with peripheral artery disease.**
	Tejas P. Singh, The Townsville Hospital, Australia
Lunch Break 13:05-13:45 @ RBG	
13:45-14:05	**Title: Different caveolin-1 and eNOS expression in simvastatin-treated patients with abdominal aortic aneurysm**
	Witold Nowak, Jagiellonian University, Poland
14:05-14:25	**Title: Is coil embolization effectively and minimally invasive in the young man suffering from veno-occlusive dysfunction?**
	Chi Can Huynh, The Male Clinic, Australia
14:25-14:45	**Title: Marfan syndrome presented as asymmetrical aortic root aneurysm and spontaneous isolated aortic abdominal dissection**
	Jin-Lin Wu, Fuwai Hospital, China
14:45-15:05	**Title: Hybrid repair of aortic pathology involving aortic arch**
	Yu-guo Xue, Beijing Aortic Diseases Center, China
15:05-15:25	**Title: Management of venous ulcers of primary varicose veins through endoscopic assisted surgery**
	Yun-Nan Lin, Kaohsiung Municipal Siaogang Hospital, Taiwan
15:25-15:45	**Title: Optimal ultrasound criteria for grading stenosis of the superficial femoral artery**
	Mingjie Gao, Xuanwu Hospital of Capital Medical University, China
15:45-16:05	**Title: Increased galectin-3 levels are associated with abdominal aortic aneurysm progression and inhibition of galectin-3-decrease elastase-induced AAA development**
	Mónica M. Torres Fonseca, FIIS-Fundacion Jimenez Diaz-Autonoma University, Spain
Coffee Break 16:05-16:20 @ Breakout Area	
16:20-16:40	**Title: Double aortic arch with TOF: Single stage approach via median sternotomy.**
	Soumya Guha, PGIMER, India

16:40:17:00	**Title: Congenital absence of inferior vena cava associated with lower limb and pelvic venous thrombosis.**
	Sanjay Singh, United Lincolnshire Hospitals NHS Trust, UK
17:00-17:20	**Title: Admission glucose and ICU mortality in abdominal aortic aneurysm patients: a retrospective analysis of the MIMIC-III clinical database**
	Qinchang Chen, Sun Yat-sen University, China
****3 Speaker Slots Available****	
Poster Presentations @ Foyer	
P1	**Title: Estimation of hemodynamics in human and artificial vessels with artificial circulatory model**
	Andrzej Polanczyk, Medical University Vienna, Austria
P2	**Title: Internal Carotid Artery Aneurysm open repair without mandibular subluxation: a case report**
	Amanda Rezende, Ipiranga Hospital, Brazil
P3	**Title: Endovascular treatment of intracranial aneurysms associated with arteriovenous malformations**
	Dmytro V. Shchehlov, Scientific-Practical Center of Endovascular Neuroradiology NAMS, Ukraine
P4	**Title: Possible predictors of aortic dissection at a diameter less than 55mm**
	Jin-Lin Wu, Fuwai Hospital, China
P5	**Title: Atorvastatin enhances paracrine proangiogenic activity of hematopoietic stem/progenitor derived cells *in vitro* but not *in vivo***
	Witold N. Nowak, Jagiellonian University, Poland
P6	**Title: Carotid endarterectomy under local anaesthesia: review of practice and peri-operative outcomes**
	Sanjay Singh, United Lincolnshire Hospitals NHS Trust, UK
P7	**Title: Evaluation of the utility of endovascular sealing for aortic aneurysmal disease**
	Augustine MA, University of Southampton, UK
e-poster	
e-P1	**Title: Femoral tunnelled hemodialysis catheter as a permanent access for hemodialysis patients**
	Herzallah AM, Matarya Teaching Hospital, Egypt
e-P2	**Title: Endovascular management of mycotic abdominal aortic aneurysm secondary to streptococcal pneumoniae**
	Sanjay Singh, United Lincolnshire Hospitals NHS Trust, UK
Panel Discussion	
Closing Ceremony	
NOTE: Program Schedule is subject to change with final allocation of speaker slots
