

EuroSciCon

14th Global Summit on

Veterinary and Animal Sciences

September 12-13, 2019
Sydney, Australia

Theme:

Bridging excellence in Veterinary Research and Animal Health

Invitation

Welcome to Edinburgh, the City of Arts and Science, and experience the science of veterinary illuminated as never before. EuroSciCon is proud to host the 14th Global Summit onVeterinary and Animal Sciences, September 12-13, 2019 in Sydney, Australia. This year's theme is Bridging excellence in Veterinary Research and Animal Health Veterinary 2019 will provide an unprecedented opportunity for veterinarian and animal scientists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite veterinarians, animal scientist, and researchers in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the veterinary Conference is the perfect venue not only to dive into your particular research interests but also to expand the scope of your knowledge. Tracks are devoted to very upcoming and challenging parts of veterinary and animal sciences

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant research forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ veterinarians and animal scientists accessing the website, Veterinary Science 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Veterinary Science 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

September 12-13, 2019
Sydney, Australia

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

2019

Who'd be attending?

14th Global Summit on Veterinary and Animal Sciences plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Veterinary Consultants, Veterinary Medicine Specialists, Veterinary Professionals, Laboratory Directors and Chemists, Forensic Scientists and Veterinary Industry Professionals and others who stay plunged in learning and practice of the science of Veterinary and Animal science.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Veterinary
- Veterinary Medicine
- Animal Nutrition
- Animal Biotechnology
- Veterinary Epidemiology
- Animal Reproduction
- Veterinary Research
- Livestock Production & Management
- Animal Welfare
- Poultry Production
- Dairy Technology
- Veterinary Care & Management
- Veterinary Nursing
- Veterinary Surgery

2019

About Destination Sydney

Sydney, capital of New South Wales and one of Australia's largest cities, is best known for its harbourfront Sydney Opera House, with a distinctive sail-like design. Massive Darling Harbour and the smaller Circular Quay port are hubs of waterside life, with the arched Harbour Bridge and esteemed Royal Botanic Garden nearby. Sydney Tower's outdoor platform, the Skywalk, offers 360-degree views of the city and suburbs. One of the world's great icons, the Sydney Opera House is a UNESCO World Heritage Site and the star attraction on the glittering harbor. This graceful building, shaped like shells or billowing sails, perches on a finger of land surrounded by water.

Indigenous Australians have inhabited the Sydney area for at least 30,000 years, and it remains one of the richest in Australia in terms of Aboriginal archaeological sites, with thousands of engravings located throughout the region. In 1770, during his first Pacific voyage, Lieutenant James Cook landed at Sydney, where he claimed possession of the east coast of Australia for the British Crown, naming it "New South Wales". In 1788, the First Fleet of convicts, led by Arthur Phillip, arrived in Botany Bay to found Sydney as a British penal colony, the first European settlement in Australia. Phillip named the city "Sydney" in recognition of Thomas Townshend, 1st Viscount Sydney. Penal transportation to New South Wales ended soon after Sydney was incorporated as a city in 1842. A gold rush occurred in the colony in 1851, and over the next century, Sydney transformed from a colonial outpost into a major global cultural and economic centre. After World War II, it experienced mass migration and became one of the most multicultural cities in the world. At the time of the 2011 census, more than 250 different languages were spoken in Sydney and about 40 percent of residents spoke a language other than English at home. Furthermore, 36% of the population reported having been born overseas.

Sydney has hosted major international sporting events such as the 2000 Summer Olympics. The city is among the top fifteen most-visited cities in the world,with millions of tourists coming each year to see the city's landmarks.
