Criminal Justice System is an important part of the judicial system in the contemporary world. In today´s affairs, it ranks at higher platform, especially in the field of social sciences and humanities. It traces the origin, reason and rapid growth of crimes in society. It measures to control the crimes by enforcing the devices at local & international level. In the last one-and-half decade, terrorism has destroyed the world peace and is still emerging in different shapes & styles which is no doubt causing damage to lives & properties of people. The criminal justice system is not only restores the victim's complaints but it reduces valuable services to cure & reform the criminals. According to psychiatrists and social sciences experts, criminals are patients who become sick by different reasons. Of which the dominant cause is the prevalent injustices of the society, despite they would have been born pious and noble human beings. The aim of this study is to explain the concept of Islam about forensics, crimes, terrorism and criminal justice system. Islam which is a religion of peace, purity, submission and obedience. It sheds light on the above every word and strictly bans crimes and terrorism.

Keywords: Forensics, Crimes, Terrorism, Criminal Justic System, Islam.
