Abstract

Abstract Title

Theory of Matter Creation effect on the modern innovations

The Author

Gerges FrancisTawdrous

The Affiliation

Former 2nd Course Student – Faculty of Physics and Mathematics – Peoples' Friendship University of Russia – Moscow

ABSTRACT (not more than 300 words)

How the matter is created?

If a particle moves with light velocity, some changes be may occurred to it, such as …

- Length Contraction
- Time Dilation
- Mass Increase

Also

Special Theory of Relativity tells us, if 2 observers between both there's a difference in velocity = light Velocity… so each observer will see the other as light beam….

i.e., if 2 observers move with light velocity, each of them will see the other as a particle …

The question is ….why these changes are occurred?!

Some physicists tell us that there's no change is occurred for the particle (because the particle has independent existence) but the changes are occurred for our vision (as we see the mirage and know it's untrue)…

Others tell us, there are changes occurred in the particle nature…!!

How the matter is created?

The Main Idea

1- The human mind contains electromagnetic waves (travel by c velocity in vacuum)
2- I suppose The Realization Process in human mind depends on c velocity
3- In Young Experiment (Double Slit Experiment), the light coherence produces bright fringes and dark fringes
4- I claim that, the solar group is created by a coherence of 2 light beams
5- We see the bright fringes as matters (because our bodies are created from bright fringes) (That's why we have body… because our mind

realization process depends on c velocity, so our body which is made of bright fringes we see as matter)

6- We see the dark fringes as distance or space (that's why the space is Energy)
7- This explains the planet diameter and orbital distance relationship.
8- This also explain why the planet move by a physical law and not in chaos… because the matter in the universe is created as AN EFFECT OF THE HUMAN MIND ON THE UNIVERSE and the human logic is the basic mirror between the observer and the universe.

The Conclusion

Based on the theory of Matter Creation, the modern innovations Concept can be changed because we have a new method to produce the matter from the light beam

Professional Biography (100-150 words)

- During (2013-2019) I have studied The Solar Group Geometry (non-official Study)
- (2010-2013) Faculty Of Physics And Mathematics – Peoples' Friendship University Of Russia - Moscow –Russia - Physics Department (2nd Course)
- (2007-2008) Russian Language Training Course - Nizhniy Novgorod – Russia
- (2000) Bachelor Degree of Commerce – Ain Shams University – Cairo-Egypt
- IELTS TEST (October 2016) – British Council –Cairo- Egypt
  (Language Level B2- Reading Section C1)
- More Courses: 2005-2006 German Language Course – Goethe Institute-Cairo – Egypt (Language Level B2)
- 2010 study 1st year in institute of theology – orthodox Cathedral in Cairo – Egypt (Theology Department)

- A Former Student - Faculty Of Physics And Mathematics – Peoples' Friendship University Of Russia - Moscow –Russia - Physics Department (2nd Course)
- During 2013-2019 I have studied The Solar System Geometry by analyzing the solar planets data
