LONGDOM
CONFERENCES

9TH GLOBAL SUMMIT ON

RENEWABLE ENERGY AND RESOURCES

December 14-15, 2023 | Dubai, UAE

Invitation

Renewable energy is an important source of power generation and we can use these resources repeatedly. The main goal of green energy is to reduce greenhouse gas emissions. To stay updated with the current research, Longdom Conferences welcome all the global participants to the 9th Global Summit on Renewable Energy and Resources will be hosted on December 14-15, 2023 in Dubai, UAE. The panel of speakers will be delivering their presentations on their recent research related to renewable energy and make it a perfect platform for knowledge sharing and networking between experts around the world and aims in accelerating scientific discovery. We believe your presence would be a source of inspiration for the upcoming scientists, students, academicians, and business delegates for taking the technological aspects related to this topic to next level.

Thanks and Best Regards,
Renewable Energy 2023
Organizing Committee Members

Scientific Sessions:

- Bioenergy
- Geothermal Energy
- Green Energy
- Solar Energy
- Wind Energy
- Waste-to-Energy
- Biomass Energy
- Sustainable Developments & Environmental Science
- Impact on Agriculture
- Market Trends, R&D on Renewable Energy

Renewable Energy 2023

Venue & Accommodation
Dubai, UAE

About Dubai, UAE

The UAE is the third-richest country in the world, below Luxembourg at number two and Qatar at number one, with a GDP per capita of $57,744. The bulk of its money comes from the production of goods and provision of services related to petroleum, petrochemicals, aluminum, and cement. Some people believe Dubai is in Saudia Arabia, but it is not. Dubai is not in India either. It is very much in the country of The United Arab Emirates which is in the Southeast of the Arabian Peninsula. Dubai is a city and emirate in the United Arab Emirates known for luxury shopping, ultramodern architecture, and a lively nightlife scene. Burj Khalifa, an 830m tall tower, dominates the skyscraper-filled skyline. At its foot lies Dubai Fountain, with jets and lights choreographed to music. On artificial islands just offshore is Atlantis, The Palm, a resort with water and marine-animal parks.
