5th International Conference on Agriculture & Horticulture

Dear colleagues and friends

Allow me to warmly thank the organizers of this important Conference forgiving me the privilege of welcoming and addressing you all. For me it is an honor and a pleasure.

I would also like to thank them for having brought us together in the wonderful city of Cape Town, to discuss one of the main current challenges worldwide which are, without doubt, Agriculture.

Agriculture is, indeed, one of the most ancient professions known from the beginning of civilization. However, it has taken unprecedented prominence today due to a progressive increase of world population- reaching more than 7 billion people- that makes necessary to improve our ability to supply food in view of assuring food security.

yours sincerely,
Ilan Chet

We are delighted to welcome you to the "Antibiotics- 2019" conference in Las Vegas, USA, September 14-16, 2019. This global meeting will assemble the world leaders in the expanding fields related to the isolation, research and development of antibiotics. We are all acutely aware of the growing crisis associated with antibiotic resistance. Thus it is timely that this meeting will enable you to meet and discuss critical issues in this escalating problem.

We welcome you to this conference and look forward to your participation.

yours sincerely,

Whether you have traveled a significant distance to be here, or have made the Silver State your permanent home, it is my honor to welcome you. I would also like to thank all of you who have worked on putting this successful convention together.

Thank you for bringing this dynamic exposition to our great state. As Governor of the great State of Nevada, I would like to express my appreciation to the Conference Series Ltd for making this extraordinary conference a possibility.

5th Euro-Global Summit and Expo on Food & Beverages

I would like to congratulate Conferenceseries Ltd for organizing Euro Global Summit and Expo on Food & Beverages conference scheduled for June 16-18, 2019 in Alicante, Spain, with the theme "Healthier the Food, Merrier the World."

It is very unsatisfactory to see that one billion people on our planet are overweight and another billion people are malnourished at the same time. And those malnourished live in developing countries but also in elderly homes or hospitals in our developed societies. We even find obese people that are malnourished because they lack essential healthy ingredients and foods. We see health care systems that are or will not be able to maintain good quality health care because the follow-on costs of our life style diseases is rising steadily. With a distorted age pyramid, we can expect many more dependent living elderly people which again put pressure on care and support systems of our societies.
