

2nd Annual Conference on

3D Printing & Additive Manufacturing

MAY 22-23, 2019

DUBAI, UAE

2ND ANNUAL CONFERENCE ON 3D PRINTING & ADDITIVE MANUFACTURING	
Day 1- 22-05-2019	
	Registrations
	Introduction
Keynote Forum	
Keynote 1	Title: 3D printing technique to fabricate dental restorations
	Pirkko-Liisa Tarvonen, Rayo 3D-Toothfill Ltd., Finland
Keynote 2	Title: 3D printing for Industrial Operations: The Impact on Digital Strategies
	Morgan Eldered, Digital Energy, Dubai, UAE
Group Photo	
Networking & Refreshment Break	
Work Shop Slots are Available	
Oral Session 1	
Session Introduction	
	3D Printing & Additive Manufacturing |3D Ceramics| 3D Fashion & Digital Industry | Medical 3D Printing :Orthodontics & Prosthetics| 3D Printing Materials
Presentation 1	Title: 3D Graphy lab is a set up instituted for Medical Hospital, Dental Hospitals
	Shibhu John, CEO & Founder – Trinity Media & Marketing Solutions, India
Lunch Break	
Presentation 2	Title: The possibility of reviving traditional embroidery clothing through new technology
	Hind Mosfeer Saeed Al Gamdy, Cranfield University, United Kingdom.
Presentation 3	Title: 3D printing materials and methods
	Mohammad Bashier, 3D Fab, Egypt
Presentation 4	Title: Dental 3D printing emerging in clinical use in the Middle East and Africa countries
	Samah A.S Zahlaf, Eastern University, Finland
Presentation 5	Title: PLA and PETG applied to extrusion-based 3D printed snap-fit connections for product assembly
	Leonardo Santana, University of Porto (UP)'s School of Mechanical Engineering, Portugal,
Networking & Refreshment Break	
Presentation 6	Title: Materials for 3D printing in constructions
	Wadhah Alzahmi, R&D technologist in 3D printing and Additive manufacturing, Dubai, UAE
Presentation 7	Title: 3D printing in medical device application (orthotics/prosthetics)
	Sofyen Tebbi, clinical Prosthetist/Orthotist, Dubai, UAE
Panel Discussion	
Day 2	
23-May-19	
Keynote Forum	
	Introduction
Keynote 1	Title: Truly comprehensive solutions to produce ceramic parts with 3D printing
	Svintsitski Rouslan, 3D Ceram Sales Manager, France
Keynote 2	Title: Technology Consultation & Services – 3D GRAPHY a global platform
	Shibhu John, CEO & Founder – Trinity Media & Marketing Solutions, India
Networking & Refreshment Break	
Presentation 1	Title: Using Three-dimensional printing technology to revive traditional embroidery clothing
	Hind Mosfeer Saeed Al Gamdy, Cranfield University, United Kingdom
Oral Session 2	
Session Introduction	
	3D Printed Designs & Modelling| Tissue Engineering & Fabrication |3D Printing in Automative Industry| Additive Manufacturing
Presentation 2	Title: Enhanced performance of 3D-printed biomaterials with composite approach
	Reijo Lappalainen, Applied Physics with his Biomaterials Technology in University of Eastern, Finland
Presentation 3	Title: Additive manufacturing for packaging industry
	Angelo D Angelo, Elmec 3D, Italy
Lunch Break	
Presentation 4	Title: Quantum Dots Solar Cells and panels Additive Manufacturing by 3D printing
	Ngum Shingwa Mkong Benjamin, University of Ngoundere National School of Agro-Industrial Sciences, Cameroon
Presentation 5	Title: 3D printing materials
	Alfred Shuryan, CEO & Founder of 3DPC Club, USA
Presentation 6	Title: Research of liquefaction behavior of Eucalyptus grandis bark in Glycerol
	Xiaopeng Peng, Research Institute of Forestry, Beijing, Chaina
Presentation 7	Title: Utilizationof 3DPrinter intoDevelopment of Affordable and Functional Artificial Limb
	Mohammad Nasfikur RahmanKhan, Newcastle University, Bangladesh
Speaker Slots are Available	
Panel Discussion	
Award Ceremony
