Meetings International

Tentative Program

4th International Conference on

3 D Printing and Additive Manufacturing

May 21-22,2021

Paris, France

https://www.meetingsint.com/conferences/3dprinting

Dear Colleagues

Meetings International extends its welcome to "**4th International Conference on 3 D Printing and Additive Manufacturing**" scheduled on **May 21-22, 2021 in Paris, France** with the theme of "**3 D Printing : The Manufacturing Technology that will Change the World**".

3 D Printing 2021 will be a platform for plenary speakers, Keynote speakers, Invited speakers and Young Researchers as well as for the youth generation. The summit will work as a discussion point for researchers and experts from all around the world to discuss the cause, effect, prevention as well asthe future roadmap of a cancer free society.

Conference Highlights :

- 3D printing & Additive manufacturing
- Innovations in 3D printing
- 3D printing materials
- Impact of 3D printing on industry
- Applications in health care & medicine
- 3D printing in biomaterials
- Polymers in 3d printing
- 3D printing in space and aerospace
- 3D printing in automotive industry
- Additive manufacturing and 3d robotics
- Digital Light Processing (DLP) 3d printing
- Layered manufacturing & Additive fabrication

Keynote session	
09:00- 09:15	Registration
09:15-09:30	Opening Ceremony
09:30-10:15	**Title: 5 D Printing of nano-laden fibre aerogel**
	Ruben Foresti , University of Parma, Italy
10:15-11:00	**Title: Additive manufacturing applied in parallel architecture machine**
	David Sebastian Matamoros , National university of Colombia, Colombia
Refreshment Break (11:00-11:30)	
Oral session	
3D Printing Materials | Innovations in 3D Printing	
11:30-12:00	**Title: "Development of a process chain for the manufacturing of complex ceramic components by means of Fused Deposition Modelling"**
	Bliedtner,**J,** Ernst Abbe University, Germany
12:00-12:30	**Title: "Selective laser sintering of three-dimensional geometries and structures of quartz glass - possibilities and limits"**
	Andrea Barz, Ernst-Abbe-University, Germany
Lunch Break (12:30-01:30)	
01:30-02:00	**Title: Cellular Structures Design and Optimization for Additive Manufacturing: A Review**
	Aamer Nazir , National Taiwan University of Science and Technology, Taiwan
02:00-02:30	**Title: Seismic Analysis of 3 Dimensionally Printed Structures**
	Poojith Prakash , Ramaiah Institute of Technology, India

About Paris

Paris, the cosmopolitan capital of France, is one of Europe's largest cities, with 2.2 million people living in the dense, central city and almost 12 million people living in the whole metropolitan area. Located in the north of France on the river Seine, Paris has the well deserved reputation of being the most beautiful and romantic of all cities, brimming with historic associations and remaining vastly influential in the realms of culture, art, fashion, food and design. Dubbed the City of Light (la Ville Lumière) and Capital of Fashion, it is home to the world's finest and most luxurious fashion designers and cosmetics, such as Louis Vuitton, Chanel, Dior, Yves Saint-Laurent, Guerlain, Lancôme, L'Oréal, Clarins, etc. A large part of the city, including the River Seine, is a UNESCO World Heritage Site. The city has the second highest number of Michelin restaurants in the world (after Tokyo) and contains numerous iconic landmarks, such as the world's most visited tourist site the Eiffel Tower, the Arc de Triomphe, the Notre-Dame Cathedral, the Louvre Museum, Moulin Rouge, and Lido, making it the most popular tourist destination in the world with 45 million tourists annually.
