Meetings International

3rd International Conference On

DIABETES & HEALTHCARE

March 18-19, 2019 | Las Vegas, USA

Theme:

Recent Advancement and Applications in the field of Diabetes

Welcome Message

3rd International Conference on

Diabetes and Healthcare

Dr. Gerald C. Hsu

Dear Colleagues,

I am Gerald Hsu from eclaireMD Foundation of USA. As a member of Organization Committee of Diabetes and Healthcare Conference 2019, I would like to welcome all of you coming from multiple nations of this world to this exciting city, Las Vegas, to meet with each other.

As we all know that diabetes is a world epidemic and healthcare effort plays a vital role in this metabolic disorder and chronic disease, especially in the area of preventive medicine and disease treatment. We are going to spend a few days together to share our research work findings with each other and even more online readers.

Again, please allow me to express my appreciation and welcome all of you coming to this great Conference.

Best wishes,

Gerald C. Hsu

Dr. Gerald C. Hsu
Director,
eclaireMD Foundation, USA

3rd International Conference On Diabetes and Healthcare, March 18-19, 2019, Las Vegas, USA	
Day 1 : March 18, 2019	
Registrations	
Introduction by Moderator	
Keynote Forum	
1	Glucose toxicity: The worldwide problem and the all-natural solution
	John F. Burd, Lysulin, USA
	Biography: He was the founder of Dexcom, the leader in continuous glucose monitoring for people with diabetes and he has spent most of his career developing and commercializing products that empower people with diabetes to live longer, healthier lives. They came up with their patent pending formulation and launched their first product, Lysulin™.
Networking and Refreshment	
2	Give Your Pancreas a Break and Reverse the Effects of Type 2 Diabetes
	Denise A Pancyrz, Holistic Lifestyle Coach, USA
	Biography: Coach, Speaker, and Author of The Virgin Diabetic. Diagnosed with type 1.5 diabetes, prescribed medication along with basal and bolus insulin, Denise A. Pancyrz was told her health would deteriorate with age while her drug dosages would increase. Denise stepped away from the typical diabetes management protocol. Holistic lifestyle changes freed Denise from all medication and insulin.
3	Smart Electronic Health Applications (SEHA) Telehealth for Diabetes: Paradigm Shift in Diabetic Patient's Self-management.
	Hamzeh Jamil Awad, Higher College of Technology , UAE
	Biography: Dr. Hamzeh Awad has completed his PhD at the age of 30 from the University of Munich, Germany and worked in Healthcare Operation and System, Planning and Development, Disability, Rehabilitation, Diabetes and eHealth in different countries such as Germany, Belgium, Jordan, Saudi Arabia, UK and UAE. He was appointed as "Associate Professor" in Health Science Department at Al Khawarizmi International College (KIC) in Abu Dhabi and Adjunct Faculty member in Public Health Department, Abu Dhabi University, UAE and Senior eHealth consultant at e-Point, Belgium (Founder of SEHA eHealth).

Lunch Break	
Workshop	
	Smart Health Application for Rehabilitation (SHAR): The application of International Classification of Functioning, Disability and Health (ICF) Diabetes Mellitus Core Set in Health Information System.
	Hamzeh Jamil Awad, Higher College of Technology , UAE
	Biography: Dr. Hamzeh Awad has completed his PhD at the age of 30 from the University of Munich, Germany and worked in Healthcare Operation and System, Planning and Development, Disability, Rehabilitation, Diabetes and eHealth in different countries such as Germany, Belgium, Jordan, Saudi Arabia, UK and UAE. He was appointed as "Associate Professor" in Health Science Department at Al Khawarizmi International College (KIC) in Abu Dhabi and Adjunct Faculty member in Public Health Department, Abu Dhabi University, UAE and Senior eHealth consultant at e-Point, Belgium (Founder of SEHA eHealth).

Oral Session I	
1	Role of Serum Allograft Inflammatory Factor-1 (AIF-1) In Egyptian Type 2 Diabetic Patients with Atherosclerosis
	Gihane Khalil, Alexandria University, Egypt
	Biography: Dr Gihane Khalil professor of Chemical pathology . Medical Research Institute. Alexandria University .Egypt. She is very interested in the field of diabetes management . She has many publications in the field of diabetes ,obesity, insulin resistance as well as breast cancer research. She supervised many thesis concerened with diabetes and obesity.
2	Linear Regression Analysis and Correlation Findings in Hemoglobin Oxidation Studies in Diabetics Blood: Effects of Hexyl Nitrite
	John Philip Tarburton, National University, USA
	Biography: John Philip Tarburton has completed his Ph.D at the age of 25 years from the University of Nebraska and also did postdoctoral studies at the University of Nebraska. Dr. Tarburton is an Assistant Professor at National University, the second- largest private nonprofit institution of higher learning in California and the twelfth largest in the United States. Dr. Tarburton has published more than 55 papers and abstracts in reputed journals and a book chapter about his research findings.
3	PSTi8 modulates glucose and lipid homeostasis by regulating the AMPK pathway in dexamethasone induced insulin resistance
	Anand Prakash Gupta, CSIR-CDRI, India
	Biography: Anand prakash gupta is pursuing Ph.D from CSIR-CDRI. He has explored activity of pancreastatin inhibitor (PSTi8) in metabolic disease models. He is expertise in area of diabetes, hypertension, hyperlipidemia and metabolic syndrome. He also works in area of pharmacokinetics of drug molecule. He has number of publication in reputed journals such as Scientific Reports, Journal of Neurochemistry, Frontiers in pharmacology and Molecular and cellular endocrinology.
Networking and Refreshment	
4	Advance treatment for Diabetes- Glucobeet
	Shridhar J Pandya, Orange Organic Pharma, India
	Biography: Dr. Shridhar J Pandya has completed his PhD at the age of 28 years from JNU University-India and postdoctoral studies from Pune university in Pharmaceutics as a specialization. He is university top during post-graduation. He is the director and Research head of Orange Organic Pharma-India and having 12 years experience in pharma field. He has published more than 25 national and international papers in reputed journals. He is inventor of more than 50 herbal formulas in various disease conditions.
5	Mentha suaveolens Ehrh improves hypergycemia, oxidative stress, pancreas and liver dysfunction in streptozotocin-induced diabetic rats
	Mohamed Eddouks, Morocco
	Biography: Prof. Mohamed Eddouks ,Proff. (2001 until now) -Vice Dean of Scientific Research and Cooperation Faculty of Sciences and Techniques Errachidia (2005-2008 -Dean Polydisciplinary faculty of Errachidia (2008-2012)
6	Gelam Honey Scavenges the STZ-induced ROS generation and Insulin Impairment via MAPK/JNK signalling in Wistar Rats
	Rajes Qvist Thambiah,University of Malaya, Malaysia
	Biography: Rajes Qvist is a holder of PhD from Universite Of Strasbourg, France. She has been mainly working on Type 2 diabetes in Australia, Denmark and Japan. Currently she is working at University of Malaya, Malaysia. Her present work is on the effect of Malaysian gelam honey on the mechanism of diabetic complications.
Session Adjournment	

Day 2 : March 19, 2019	
Introduction by Moderator	
Keynote Forum	
1	Comparison of glucose data and phenomena from two different measurement methods (GH-Method: Math-Physical Medicine)
	Gerald C. Hsu, eclaireMD Foundation, USA
	Biography: The author received an honourable PhD in mathematics and majored in engineering at MIT. He attended different universities over 17 years and studied seven academic disciplines.He has spent 20,000 hours in T2D research. First, he studied six metabolic diseases and food nutrition during 2010 to 2013, then conducted his own diabetes research during 2014 to 2018. His approach is “quantitative medicine” based on mathematics, physics, optical and electronics physics, engineering modelling, signal processing, computer science, big data analytics, statistics, machine learning, and artificial intelligence.
2	Linear Regression Analysis and Correlation Findings in Hemoglobin Oxidation Studies in Diabetics Blood: Effects of Ethyl Nitrite
	John Philip Tarburton, National University, USA
	Biography: Dr. Tarburton is an Assistant Professor at National University, the second- largest private nonprofit institution of higher learning in California and the twelfth largest in the United States. Dr. Tarburton has published more than 55 papers and abstracts in reputed journals and a book chapter about his research findings.
Coffee Break	
Workshop	
	Risk Probability of Kidney Complications Resulting from Chronic Diseases (Math-Physical Medicine)
	Gerald C. Hsu, eclaireMD Foundation, USA
	Biography: The author received an honourable PhD in mathematics and majored in engineering at MIT. He attended different universities over 17 years and studied seven academic disciplines.He has spent 20,000 hours in T2D research. First, he studied six metabolic diseases and food nutrition during 2010 to 2013, then conducted his own diabetes research during 2014 to 2018. His approach is “quantitative medicine” based on mathematics, physics, optical and electronics physics, engineering modelling, signal processing, computer science, big data analytics, statistics, machine learning, and artificial intelligence.
Lunch Break	
Oral Session II	
1	Recent Advances in Management of Diabetic Foot
	Dr. Ahmed Lamey, Mansoura, Egypt
	Biography: Dr. Ahmed Lamey has completed his PhD from Mansoura University, Egypt.He has many publications in the field of diabetes & obesity. He supervised many thesis concerened with diabetic foot.
Speaker's Slot Available	
Conference Adjournment	

About Las Vegas

The city Las Vegas built itself as The Entertainment Capital of the World, it is a top three destination in the United States for business conventions and a global leader in the hospitality industry, having more AAA Five Diamond hotels than any other city in the world. Today, Las Vegas annually ranks as one of the world's most visited tourist destinations. The city has a title "Sin City" made Las Vegas a popular setting for literature, films, television programs, and music videos. The city is home to an extensive Downtown Arts District, which hosts numerous galleries and events including the annual Las Vegas Film Festival. "First Friday" is a monthly celebration that includes arts and music in The Las Vegas Arts District. The festival extends into the Fremont East Entertainment District as well.

Exhibitor

Lysulin®
Live the Life You Love

Lysulin, Inc. is a Diabetes Wellness company started to help people living with Diabetes lead longer healthier lives. Lysulin Nutritional supplement provides people with Diabetes and Prediabetes a natural solution to help maintain healthy Blood Glucose Levels.
