

I would like to personally welcome you to Chicago Illinois and the Acupuncture 2018 conference!

The theme of this conference celebrates the "***The illustrated manual on points for Acupuncture and Oriental Medicine."*** As an acupuncturist, such a reference work is in constant use in my clinical and teaching work.

We have four (4) different tracks focused on acupuncture and Traditional Chinese Medicine in which experts will share research and practical information for you to apply when you return home. All of these sessions which were selected to be of global interest, and thought-provoking for acupuncturists in any field of endeavor.

I hope you will come to Chicago September 17-18, 2018 and enjoy the International Conference on Acupuncture and Oriental Medicine. Your presence is an indication that you are committed to making a positive difference in the lives of patients, other clinicians and researchers in your country and throughout the world.

Together, we have the vision, the knowledge, the wherewithal and the experience to help navigate the pathways into the future of Chinese medicine.

Sincerely,

Jennifer Brett, ND, L.Ac.
Director, Univ. of Bridgeport Acupuncture Institute
