

EuroSciCon

Barcelona, Spain
June 20-21, 2022

26th International Conference

Advanced Materials and Simulation

Barcelona , Spain | June 20-21, 2022

Theme: Innovating for the future: Progress on the Challenges in the Field of Materials Science

EuroSciCon

Invitation

ADVANCED MATERIALS

2022

Euroscicon invites all the participants from all over the world to attend 26th International Conference on Advanced Materials and Simulation, during June 20-21, 2022 , Barcelona, Spain which includes prompt keynote presentations, Oral talks, Poster presentations and Exhibitions.

This event will focus on Application of Nano materials and nanotechnology, Simulation of materials and other related sources, Fiber composites, Automotive and aeronautic structures, Biomaterials and adhesives, Nano photonics in Materials Science, Electrical, optical and magnetic materials, Nanotechnology Applications through invited plenary lectures, symposia, workshops, invited sessions and oral and poster sessions of unsolicited contributions.

Scientific Sessions:

- Advancement In Nano Materials and Nanotechnology
- Simulation Of Materials Processing and Technologies
- Particular And Fiber Composites
- Adhesives And Joining Technologies
- Surface Coatings and Tribology
- Failure Analysis and Preventions
- Additive Manufacturing
- Biomaterials
- Construction Materials
- Electrical, Optical and Magnetic Materials
- Polymer Science and Engineering
- Finite Element Analysis of Automotive, Aerospace Structure
- Materials Theory, Computation and Design
- Smart Materials and Structures
- Energy Storage and Conversion
- Materials Chemistry
- Material Science Applications
- Instrumentation Technology
- Mining And Metallurgy
- Nanomedicine
- Structural Engineering and Aerospace Structures
- destination

We trust you will discover the Meeting beneficial, enlightening and agreeable. We want to thank all

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

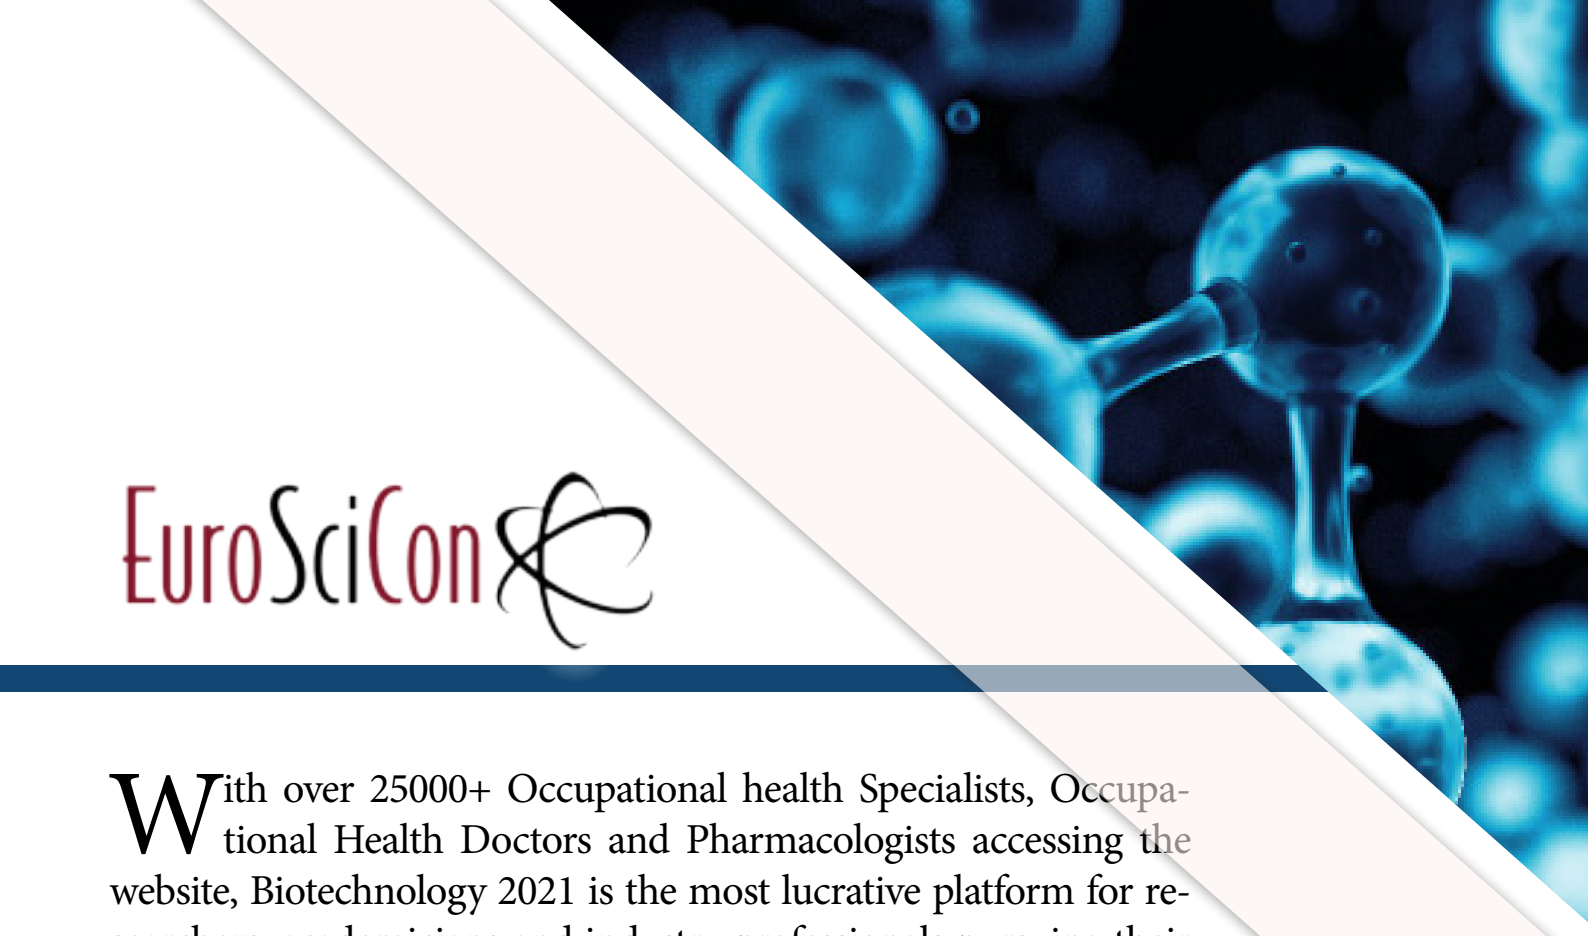

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Occupational health Specialists, Occupational Health Doctors and Pharmacologists accessing the website, Biotechnology 2021 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better. outreach of the work and profile.

ADVANCED MATERIALS-2022 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

The conference brings professors, researchers, business giants, and technocrats along to supply a global platform for the dissemination of original analysis results, new ideas and invent advances within the field of materials science and nanotechnology. This conference will include topics as classroom demonstrations, new teaching methods, and recent advances in areas of materials science. Apart from the invited talks, there will be oral presentations, posters, and workshops.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Business Key Topics:

- Nanotechnology market in Japan
- Nanotechnology market in Asia
- Nanotechnology market in Europe
- Nanotechnology market in USA
- Nanotechnology market in Singapore
- Nanotechnology market in South Korea
- Nanotechnology market in UK
- Nanotechnology market in Canada
- Nanotechnology market in Australia
- Semiconductor manufacturers
- Laser detection market
- Dental biomaterials equipment
- Green technology industries
- Ceramics industries
- Composites industries
- Nanotechnology market in China
- Simulation techniques
- Nanotechnology equipment
- Nanotechnology Industries
- Materials and Simulation market in China
- Materials and Simulation market in South Korea
- Materials and Simulation market in Singapore
- Materials and Simulation market USA
- Materials and Simulation market in Europe
- Materials and Simulation market in Asia
- Materials and Simulation market in Japan
- Materials and Simulation market in UK
- Materials and Simulation market in Canada
- Materials and Simulation market in Australia
- Materials and Simulation exhibition
- Composites market
- Material science Industries

Academic Key Topics:

- Composite Polymers and Plastics
- Nano photonics
- Laser Beam Delivery and Diagnostics
- Lasers in Medicine and Biology
- Engineering Applications of Spectroscopy
- Advances in Dielectric Materials and Electronic Devices
- Characterization of Composites
- Industrial Applications of Composites
- Economic and Ecological Production of Fiber Composites
- Nano ceramics
- Nano polymers
- Corrosion & Wear Engineering
- Nanotechnology research
- Failure analysis
- Technical Analysis and Emerging Tools
- Failure Investigation and Analysis
- Industrial Problem Solving
- Product/Performance Improvement Techniques
- Additive manufacturing
- Finite element analysis
- Polymer Materials
- Organic Polymer chemistry
- Industrial Piping
- Lasers in Medicine and Biology
- Optical Nanomaterial for Photonics/Bio photonics
- Advanced Spintronic Materials
- 3D Printing of Biomaterials

About Destination Barcelona, Spain

Barcelona, the cosmopolitan capital of Spain's Catalonia region, is known for its art and architecture. The fantastical Sagrada Família church and other modernist landmarks designed by Antoni Gaudí dot the city. Museu Picasso and Fundació Joan Miró feature modern art by their namesakes. City history museum MUHBA, includes several Roman archaeological sites.

Barcelona is famous for its outstanding football team, stunning architecture, lively nightlife, sandy beaches, and world-class cuisine. Not to mention a vibrant cultural heritage and colourful neighbourhood festivals that attract visitors from around the world.
