

EuroSciCon

11th Edition of International Conference on

Advances in Microbiology and Public Health

August 19-20, 2019
Vienna, Austria

Theme:

Discovering the advances in Microbiology and Public Health

EuroSciCon

Advanced Microbiology

2019

Invitation

Welcome to Vienna, the City of Arts and Science, and experience the trends of Advanced Microbial Research and Public Health illuminated as never before. EuroSciCon is proud to host the "11th Edition of International Conference on Advances in Microbiology and Public Health" during August 19-20, 2019 at Vienna, Austria. This year's theme is Discovering the advances in Microbiology and Public Health Advanced Microbiology 2019 will provide an unprecedented opportunity for Microbiologists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Microbiologists, pharmacologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Microbiology and Public Health Conference is the perfect venue not only to dive into your particular microbiology interests but also to expand the scope of your knowledge. 26 tracks are devoted to subjects such as the Advanced Research in Microbiology and Public Health, Advances in Applied Microbiology, Advances in Microbiology, Animal Microbiology & Marine Microbiology, Applications of Microbes, Bacteriology & Parasitology, Bioremediation and Biodegradation, Biotechnology, Clinical Microbiology, Diagnostic Microbiology, Environmental Microbiology, Enzyme Technology Advantages & Applications, Genetic Engineering in Microbiology, Industrial Microbiology, Infection & Immunity, Infectious Diseases, Medical Microbiology, Microbial Biofilms, Microbial Biotechnology, Microbial Chemistry, Microbiology & Molecular Biology, Pathology, Public Health & Epidemiology, Recombinant DNA Technology, Role of Microbes in Public Health, Theoretical and Practical aspects of Microbiology, Vaccines & Antibodies Production, Virology. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

August 19-20, 2019
Vienna, Austria

EuroSciCon

Advanced Microbiology

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 analytical chemists accessing the website, Advanced Microbiology 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Advanced Microbiology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

August 19-20, 2019
Vienna, Austria

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Advanced Microbiology

2019

Who'd be attending?

11th Edition of International Conference and on Advanced Microbiology and Public Health plays host for the Multinational organizations, Entrepreneurs, Scientists and Academicians across the globe. Prominently Microbiology Professors & Students, Investigative Microbiology and Immunology, Regulatory Professionals, Microbiology Professionals, Professionals & Experts of Virology, Biotechnology, Immunology, Health Care People, Doctors, Physicians, Medical Researches, Medical practitioner, Nurses, Clinical Research Organizations, Antibiotic & Vaccines experts, Theoretical Microbiologists, Molecular Microbiologists, Medical Microbiologists, Research lab scientists, scholars, Laboratory Directors and Chemists, Forensic Scientists and Microbiologists, Industrialists and others who stay plunged in learning and practice of the science of Microbiology, Immunology, Virology, Parasitology, Epidemiology & Public Health. Relevant Post-graduates, Graduates, Technicians, Students.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Advanced Research in Microbiology and Public Health
- Advances in Applied Microbiology
- Advances in Microbiology
- Animal Microbiology & Marine Microbiology
- Applications of Microbes
- Bacteriology & Parasitology
- Bioremediation and Biodegradation
- Biotechnology
- Clinical Microbiology
- Diagnostic Microbiology
- Environmental Microbiology
- Enzyme Technology Advantages & Applications
- Genetic Engineering in Microbiology
- Industrial Microbiology
- Infection & Immunity
- Infectious Diseases
- Medical Microbiology
- Microbial Biofilms
- Microbial Biotechnology
- Microbial Chemistry
- Microbiology & Molecular Biology
- Pathology
- Public Health & Epidemiology
- Recombinant DNA Technology
- Role of Microbes in Public Health
- Theoretical and Practical aspects of Microbiology
- Vaccines & Antibodies Production
- Virology

EuroSciCon

See your work Published

in one of our related journals

- Archives of Clinical Microbiology
- Journal of Applied Microbiology and Biochemistry
- Journal of Infectious Diseases and Treatment
- Journal of Medical Microbiology and Immunology

About Destination Vienna

Vienna, also described as Europe's cultural capital, is a metropolis with unique charm, vibrancy and flair. It boasts outstanding infrastructure, is clean and safe, and has all the inspiration that you could wish for in order to discover this wonderful part of Europe. Vienna is a dream city for anyone with a romantic streak or an interest in history. Sightseeing opportunities are to be found in abundance. Wander along narrow, medieval alleyways or across imperial squares, view Schönbrunn Palace or the Imperial Palace (Hofburg) in the footsteps of Sissi and Emperor Franz Josef, and marvel at the majestic architecture along the Ring Boulevard. Be inspired by an atmosphere steeped in history - which also boasts the comforts and infrastructure of a modern city!

Vienna, the capital and largest city of Austria is situated on the banks of the Danube. Vienna is also described as Europe's cultural capital, a metropolis with unique charm, vibrancy and flair. Vienna is Austria's largest city and 7th largest in the European Union, with a population of about 1.8 million. Vienna is known for its high quality of life. It is Austria's capital and is famous for its cultural events, imperial sights, coffee houses, costly wine taverns, and the very special Viennese charm. The city is located in the eastern part of Austria and is close to the borders of the Czech Republic, Slovakia, and Hungary. These regions work together in a European Centrope border region.

In 2001, the city centre was designated a UNESCO World Heritage Site. The influx of visitors from all over the world has made Vienna the most popular urban tourist destination in Austria. Vienna, a city of music, city of art, city of culture, possesses a lively and vast array of cultural attractions. Vienna is a dream destination in the 21st century. Austria's climate is also moderate and mild and reliably follows the four distinct seasons. Average summer temperatures range from 20°C to 30°C; the average winter temperatures are around 0°.
