Scientific Program

11th Edition of International Conference on

Advances in Microbiology and Public Health

August 19-20, 2019 | Vienna, Austria

DAY-1

August 19, 2019

Meeting Hall: **Wien 2**

08:30-09:00 Registrations

Opening Ceremony 09:00-09:15

KEYNOTE FORUM

09:15-09:20 Introduction

09:20-10:00 Title: ***Clostridium*-enriched enterotype contribute to bile acid oversynthesis in patients with diarrhea-predominant irritable bowel syndrome**
Bian Zhaoxiang, Hong Kong Baptist University, Hong Kong

10:00-10:40 Title:**Identification and characterization of Cyanophages in kuwaiti seawater using polymerase chain reaction (PCR) technology and nanoscopy**
Narjes H Dashti, Kuwait University, Kuwait

GROUP PHOTO (10:40–10:50)

Networking & Refreshments 10:50-11:10 @ Foyer

Sessions: Microbial Ecology | Microbial Interactions | Host-pathogen interaction | Soil microbiology | Microbiology & Infectious Diseases | Plant-Soil Microbe Interactions|Bioremediation & Biodegradation | Microbiome in IBS | Biotechnology | Advanced Research in Microbiology and Public health | Advanced Research in Microbiology and Public Health | Biotechnology

Session Chair: Bian Zhaoxiang, Baptist University Road, Hong Kong

INTRODUCTION

11:10-11:40 Title: **Methicillin resistant *Staphylococcus aureus* (MRSA) ST 398 and gut microbiota: Interspecies interactions into the mucus layer of ascendant colon**
Elisa Spinelli, University of Foggia, Italy

11:40-12:10 Title: **Longitudinal sampling of the aerodigestive microbiome in people with cystic fibrosis**
Hafez Al-Momani, Hashemite University, Jordan

12:10-12:40 Title: **Pseudomonas spp. strains isolated from grapevine leaves modulate the inhibitory activity of the biocontrol agent Lysobacter capsici AZ78**
Francesca Brescia, Research and Innovation Centre, Fondazione Edmund Mach (FEM), Italy

Lunch Break: 12:40-13:30 @ Mfifteen

13:30-14:00	**Title: Detection of androgenic-mutagenic compounds and potential autochthonous bacterial communities during *in-situ* bioremediation of hazardous distillery waste** **Ram Chandra,** Babasaheb Bhimrao Ambedkar Central University, India
14:00-14:30	**Title: Experimental research of biogas production by using sewage sludge and chicken manure bioloadings with wood biochar additive** **Dainius Paliulis,** Vilnius Gediminas Technical University, Lithuania
14:30-15:00	**Title: Phylogenetic diversity, antibiogram and plasmid profiling of enterotoxigenic *Klebsiella variicola* and *Enterobacter species* isolated from Iko river- Nigeria** **Mmuoegbulam Augusta O,** University of Calabar, Nigeria
15:00-15:30	**Title:More perception into the variance of coagulase positive *Staphylococci* with particular consideration to coagulase gene polymorphism** **Mona El Shabrawy,** National Research Centre, Egypt

Networking & Refreshments 15:30-15:50 @ Foyer

PANEL DISCUSSION

DAY-2

August 20, 2019

POSTER PRESENTATIONS 10:30-12:30 @ FOYER

P-1	**Title: Influence of the biopreparation ""Phytocatena"" on the fungi *Fusarium* of tomato root and rhizosphere** **Guliko Dvali,** Georgian Technical University, Georgia
P-2	**Title: Effect of eucalyptus extract combination with calcium chloride on microflora of Grapevine during storage** **Tamar Shamatava,** Georgian Technical University, Georgia
P-3	**Title: Experimental research of biogas production by using sewage sludge and chicken manure bioloadings with wood biochar additive** **Vitalij Kolodynskij,** Vilnius Gediminas Technical University, Lithuania
P-4	**Title: Influence of the gut microbiota on the mucosal antibody response to Poliovirus vaccine** **Ting Zhao,** Institute of Medical Biology-CAMS and PUMC, China
P-5	**Title: Assessment of predatory traits of *Bdellovibrio bacteriovorus* and *Agromyces ramosus* on clinical pathogenes *Klebsiella pneumonie*, *Acinetobacter baumannii* and *Pseudomonas aeruginosa*** **Ahmet Volkan Kurtoglu,** Bezmialem Vakıf University, Turkey
P-6	**Title: Continuous application of different fertilizers induced distinct bulk and rhizosphere soil protist communities** **Sai Guo,** Nanjing Agricultural University, China

P-7 **Title: The exotic *Salmonella* London prefer medical surgical staff**
Maria Pavlova, NCIPD, Bulgaria

P-8 **Title: Enterocyte tight junctions as a target for *Candida albicans* translocation through the gut barrier**
Fabienne Bon, UMR A PAM-University Bourgogne-Franche-Comte, France

P-9 **Title: Plant antimicrobial extract against plant pathogenic microbe**
Maka Muradashvili, Institute of Phytopathology and Biodiversity, Georgia

P-10 **Title: Insights into xylan degradation and haloalkaline adaptation through whole-genome analysis of *Alkalitalea saponilacus*, an anaerobic haloalkaliphilic bacterium capable of secreting novel halostable xylanase**
Baisuo Zhao, Graduate School of Chinese Academy of Agricultural Sciences, China

P-11 **Title:Studies on the efficient degradation of phthalic acid esters by *Gordonia alkanivorans* YC-RL2 and *Mycobacterium sp.* YC-RL4**
Yanchun Yan, Graduate School of Chinese Academy of Agricultural Sciences, China

P-12 **Title: Abundance and Immunogenicity of two giant viruses, namely *Pithovirius lacustris* and *Urceolovirus corneum***
Yetunde Adegboye, University Hospital Essen-University of Duisburg-Essen, Germany

Extented Networking and Lunch Break: 12:30-13:30 @ Mfifteen

Awards & Closing Ceremony
