

EuroSciCon

Advanced Chemistry
2023

12th International Conference on

Advanced Chemistry

March 20-21, 2023 | San Francisco, USA

Theme: Importance and Scope of Advanced Chemistry in the 21st Century

Invitation

We are glad to announce the 12th International Conference on Advanced Chemistry to be held as San Francisco, USA from March 20-21, 2023 organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Scientists and professors, Research fellows, Leading Universities, Students, Directors of association and societies As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and live interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend Advanced Chemistry-2023 Conference to network with your expertise and experiences thier arm yourself with the latest information this will help your departments to reach next level of research.

We look forward to personally welcoming you to at San Francisco, USA March 20-21, 2023

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the website, Advanced Chemistry 2023 is the most lucrative platform for Multinational organizations, entrepreneurs across the globe, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Advanced Chemistry 2023 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

12th International Conference on Advanced Chemistry Leading Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Advanced Chemistry 2023 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Heads, Deans, and related departments, Scientists and Researchers, Doctors, Advanced Chemistry Associations and Organizations, Laboratory members and Students working in the field of Advanced Chemistry, Directors/Co-Directors of Research based companies across Europe and US who are investing in Advanced Chemistry and others who stay plunged in Importance and Scope of Advanced Chemistry in the 21st Century. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

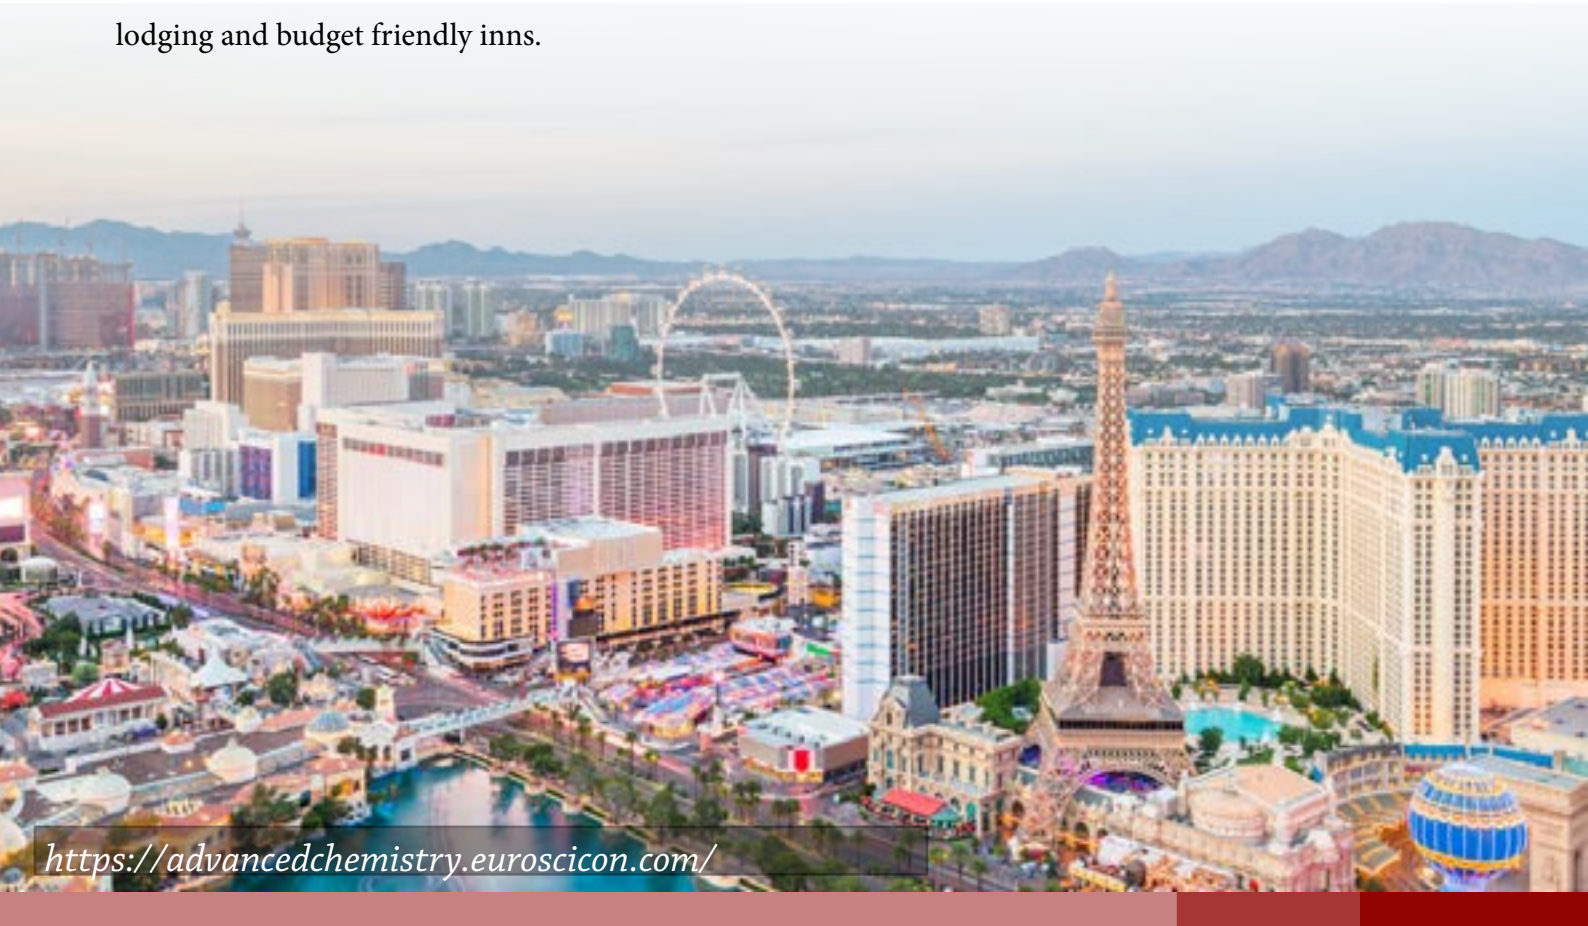

- Analytical and bio analytical Chemistry
- Medicinal Chemistry and Drug Discovery
- Nano science and Materials Chemistry
- Structural Chemistry
- Chemical Engineering
- Future Scope of Chemistry
- Catalysis and Reaction Engineering
- Biochemistry
- Organometallic Chemistry
- Electrochemistry
- Environmental and Green Chemistry
- Forensic and Clinical Chemistry
- Marine and Geo Chemistry
- Industrial Chemistry
- Nutrition and Food chemistry
- Organic and Inorganic chemistry
- Petrochemistry
- Physical Chemistry and Theoretical Chemistry
- Polymer Chemistry
- Natural Products Chemistry
- Emerging technology on Supramolecular and Surface chemistry
- Chemistry of Transition Elements
- Challenges and Opportunities in CADD
- Pharmaceutical Chemistry
- Green and Environmental Chemistry
- Pure and Applied Chemistry
- Nuclear and Radio Chemistry

About Destination San Francisco

San Francisco is often called “Everybody’s Favorite City,” a title earned by its scenic beauty, cultural attractions, diverse communities, and world-class cuisine. Measuring 49 square miles, this very walk-able city is dotted with landmarks like the Golden Gate Bridge, cable cars, Alcatraz and the largest Chinatown in the United States. A stroll of the City’s streets can lead to Union Square, the Italian-flavored North Beach, Fisherman’s Wharf, the Castro, Japantown and the Mission District, with intriguing neighborhoods to explore at every turn.

Views of the Pacific Ocean and San Francisco Bay are often laced with fog, creating a romantic mood in this most European of American cities. The City has a colorful past, growing from a small village to a major city nearly overnight as a result of the 1849 Gold Rush. The writers of the “beat” generation, the hippies of the Summer of Love in the late 1960’s and the large gay/lesbian population have all contributed to making San Francisco the fascinating place it is today.

The City is home to world-class theatre, opera, symphony and ballet companies and often boasts premieres of Broadway-bound plays and culture-changing performing arts. San Francisco is one of America’s greatest dining cities. The diverse cultural influences, proximity of the freshest ingredients and competitive creativity of the chefs result in unforgettable dining experiences throughout the City. San Francisco has well over 32,000 hotel rooms on offer, from first-class hotels and ultra-chic boutique hotels to familiar names in lodging and budget friendly inns.
