Invitation

Dear Attendees,

Meetings International proudly announces the 4th World Agriculture and Climate Change Conference scheduled during April 20-21, 2020 in Rome, Italy. The conference emphasizes the theme "Transforming and Implementing Agriculture under Changing Climate".

This conference aims at connecting experts like Agriculture practitioners, Agriculture faculty, researchers, students and business professionals who are involved in preservation, advancement and integration of crops and climate into the modern techniques to enhance Agriculture. This conference provides the best platform to the scientific community and industry to share their experiences and researches, wherein they can add to the society and get to know about the latest techniques of agriculture which can help in their personal growth as well.

Sincerely,

Operating Committee

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore Rome

Rome is the capital city of Italy it also serves as the capital of the Lazio region. It is the fourth most populous city in the European Union by population within city limits. Rome has a Mediterranean climate with cool, humid winters and warm, dry summer. Education in ancient Rome progressed from an informal, familial system of education in the early Republic to a tuition-based system during the late Republic and the Empire. The Roman education system was based on the Greek system and now holds some of the most ancient and popular universities of the world. Italian culture is at the forefront in the arts, architecture, and music and food sector. Home of the Roman Empire and a major center of the Renaissance, culture on the Italian peninsula has flourished for centuries. Due to its location in the center of the Italian peninsula, Rome is the major railway path for the country.
