ABOUT LONDON

London is the political, financial and social capital of Britain, and its reality class vacation spots are prestigious over the globe. The Greater London region is overflowing with attractions for guests of any age. The waterway Thames goes through the core of London, from Richmond in the west, through the focal London ward of Westminster, to Greenwich in the east. London waterway travels and stream transports are an extraordinary method to see the city. London is unbelievably very much associated, with five worldwide air terminals and the fast Eurostar rail interface.
