AI & Robotics 2020

Webinar on Artificial Intelligence & Robotics

Date
August 23, 2020

Scientific Program	
Webinar on Artificial Intelligence and Robotics	
August 23, 2020	
09:55-10:00	**Introduction**
10:00-10:30	Title: Making Money Out of Data
	Mr. Shailendra Kumar, Author /Keynote Speaker/ Evangelist, Australia
10:30-11:00	Title: Representing and Reasoning about Viewpoint within the context of Computer Vision, Computer Graphics and Robotics
	Mr. Andrew Ernest Ritz, Lang Tech, Poland
11:00-11:30	Title: The SP Theory of Intelligence and its potential in robotics
	Dr. Gerry Wolff, CognitionResearch.org, UK
11:30-12:00	Title: AI the single most important tool humanity has conceived
	Mr. Kelvin Obga, Nigeria
Networking and Refreshments 12:00-12:30	
12:30-01:00	Title: Research Based on COVID 19
	Mr. Elisha Marandure, Ebenezer group of colleges, Harare Zimbabwe
01:00-01:30	Title: The Foundations of Robosociology: Values and The Aggregate Behaviors of Synthetic Intelligences
	Mr. Adam Alonzi, Interdisciplinary Analyst at EthicsNet, USA.
01:30-02:00	Title: Human and Multi-Agent collaboration in a human-AI teaming framework
	Dr. Neda Nividi, AI-R AI research manager, Canada
Awards and Closing Ceremony 02:00-02:30
