

EuroSciCon

10th Edition of International Conference on

Analytical Chemistry

Feb 28 - Mar 01, 2019
London, UK

Theme:
To Expand the Scope and Uptake of Analytical Chemistry

EuroSciCon

Analytical Chemistry

2019

Invitation

Welcome to London, the city of arts and science, and experience the science of analytical chemistry illuminated as never before. EuroSciCon is proud to host the 10th Edition of International Conference on Analytical Chemistry, Feb 28 - Mar 01, 2019 in London, UK. Theme of the conference focuses on To Expand the Scope and Uptake of Analytical Chemistry. Analytical Chemistry 2019 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists. Chemical researcher, molecular diagnostics, clinical laboratories, health care industry, quantitative analysts, qualitative analysts, editorial board members, students, faculty members. Chemical instrument vendors, professors and students from academia in the field of analytical and bioanalytical sciences. Delegates from various pharma & instrumental companies from all over the world. With a broad array of keynote presentations, panel discussions, workshops and poster sessions, the Analytical Chemistry Conference is the perfect venue not only to dive into your particular chemists interests but also to expand the scope of your knowledge. 23 tracks are devoted to subjects such as the Novel Approaches to Analytical and Bioanalytical Methods, Analytical Methodology, Bioanalytical Methodology, Chromatography, Environmental Analytical Chemistry, Electrophoresis, Mass Spectrometry, Crystallography, Spectroscopy, Instrumental Methods, Nuclear Magnetic Resonance Spectroscopy, Titration, Applications of Analytical Chemistry, Proteomics, Forensic Analysis, Advances in Separation Techniques, Analytical Biotechnology, Pharmaceutical Analysis, Process Analytical Chemistry, Thermal Analysis and Glycomics, Applications of Analytical and Bioanalytical Methods, New Instrumentation and Equipment, Regulatory Issues and Biosafety Challenges in Bioanalysis The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant analytical forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

Feb 28 - Mar 01, 2019
London, UK

EuroSciCon

Analytical Chemistry 2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ analytical chemists and drug analysts accessing the website, Analytical Chemistry 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Analytical Chemistry 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

Feb 28 - Mar 01, 2019
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

10th Edition of International Conference on Analytical Chemistry, Feb 28 - Mar 01, 2019 in London, UK. Theme of the conference focuses onTo Expand the Scope and Uptake of Analytical Chemistry. Analytical Chemistry 2019 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists. Chemical researcher, molecular diagnostics, clinical laboratories, health care industry, quantitative analysts, qualitative analysts, editorial board members, students, faculty members. chemical instrument vendors, professors and students from academia in the field of analytical and bioanalytical sciences. Delegates from various pharma & instrumental companies from all over the world. About hosting organization EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of life science communication it focuses on to spearheading the transformation of medical research into knowledge through scientific gatherings and networking. Supporting the Rare Care UK Organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique and that difference has propelled our growth towards scientific serendipity.

Tracks :

- Novel Approaches to Analytical and Bioanalytical Methods
- Analytical Methodology
- Bioanalytical Methodology
- Chromatography
- Environmental Analytical Chemistry
- Electrophoresis
- Mass spectrometry
- Crystallography
- Spectroscopy
- Instrumental Methods
- Nuclear Magnetic Resonance Spectroscopy
- Titration
- Applications of Analytical Chemistry
- Proteomics
- Forensic Analysis
- Advances in Separation Techniques
- Analytical Biotechnology
- Pharmaceutical Analysis
- Process Analytical Chemistry
- Thermal Analysis and Glycomics
- Applications of Analytical and Bioanalytical Methods
- New Instrumentation and Equipment
- Regulatory Issues and Biosafety Challenges in Bioanalysis

EuroSciCon

Academic Keytopics:

- Atomic Absorption Spectroscopy (AAS)
- Atomic Emission Spectroscopy (AES)
- Atomic Fluorescence Spectroscopy (AFS)
- Capillary Electrophoresis (CE)
- Chromatography
- Electrolysis
- Electrophoresis
- Flow Injection Analysis (FIA)
- Fourier Transform Spectroscopy (FTIR)
- Gas Chromatography (GC)
- Gas Chromatography-Mass Spectrometry (GC-MS)
- High Performance Liquid Chromatography-IR Spectroscopy (HPLC-IR)
- High Performance Liquid Chromatography (HPLC)
- Ion-Mobility Spectrometry (IMS)
- Liquid Chromatography-IR Spectroscopy (LC-IR)
- Mass Spectrometry (MS)
- Nuclear Magnetic Resonance (NMR)
- Raman Spectroscopy
- Transmission Electron Microscopy (TEM)
- Thermogravimetric Analysis (TGA)
- X-ray Diffraction (XRD)
- X-ray Fluorescence Spectroscopy (XRF)

Feb 28 - Mar 01, 2019
London, UK

Business Keytopics:

- Analytical Chemistry Europe
- Analytical Chemistry Asia
- Analytical Chemistry Japan
- Analytical Chemistry UK
- Analytical Chemistry Canada
- Analytical Chemistry USA
- Analytical Chemistry Dubai
- Analytical Chemistry Germany
- Analytical Chemistry Africa
- Spectrometer
- Spectrophotometer
- Coning and quartering
- Dilution
- Dissolution
- Filtration
- Masking
- Pulverization
- Sample preparation
- Separation process
- Sub-sampling
- Chemometrics
- Calibration curve
- Matrix effect
- Internal standard
- Standard addition
- Isotope dilution
- Calorimetry
- Chromatography
- Electroanalytical methods
- Gravimetric analysis
- Mass spectrometry
- Spectroscopy

Analytical Chemistry

2019

About Destination London

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km^2) medieval boundaries. Since at least the 19th century, "London" has also referred to the metropolis around this core, historically split between Middlesex, Essex, Surrey, Kent and Hertfordshire, which today largely makes up Greater London,a region governed by the Mayor of London and the London Assembly. London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth or sixth largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport systemmeasured by passenger traffic. It is the world's leading investment destination, hosting more international retailers and ultra high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted the modern Summer Olympic Games three times.London contains four World Heritage Sites: the Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich (in which the Royal Observatory, Greenwichdefines the Prime Meridian, 0° longitude, and GMT). Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theatres. The London Underground is the oldest underground railway network in the world.
