

EuroSciCon

11th Edition of International Conference on

Analytical Chemistry

April 22-23, 2020
Berlin, Germany

Theme:
Innovative research in the field of chemistry related to Analytical Techniques.

EuroSciCon

Analytical Chemistry

2020

Invitation

Welcome to Berlin, the city of arts and science, and experience the science of analytical chemistry illuminated as never before. EuroSciCon is proud to host the 11th Edition of International Conference on Analytical Chemistry, April 22-23, 2020 in Berlin, Germany. Theme of the conference focuses on Innovative research in the field of chemistry related to Analytical Techniques. Analytical Chemistry 2020 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists. Chemical researcher, molecular diagnostics, clinical laboratories, health care industry, quantitative analysts, qualitative analysts, editorial board members, students, faculty members. Chemical instrument vendors, professors and students from academia in the field of analytical and bioanalytical sciences. Delegates from various pharma & instrumental companies from all over the world. With a broad array of keynote presentations, panel discussions, workshops and poster sessions, the Analytical Chemistry Conference is the perfect venue not only to dive into your particular chemists interests but also to expand the scope of your knowledge. 30 tracks are devoted to subjects such as the Novel Approaches to Analytical and Bioanalytical Methods, Analytical Methodology, Bioanalytical Methodology, Chromatography, Environmental Analytical Chemistry, Electrophoresis, Mass Spectrometry, Crystallography, Spectroscopy, Instrumental Methods, Nuclear Magnetic Resonance Spectroscopy, Titration, Applications of Analytical Chemistry, Proteomics, Forensic Analysis, Advances in Separation Techniques, Analytical Biotechnology, Pharmaceutical Analysis, Process Analytical Chemistry, Thermal Analysis and Glycomics, Applications of Analytical and Bioanalytical Methods, New Instrumentation and Equipment, Regulatory Issues and Biosafety Challenges in Bioanalysis The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant analytical forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

April 22-23, 2020
Berlin, Germany

EuroSciCon

Analytical Chemistry

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ analytical chemists and drug analysts accessing the website, Analytical Chemistry 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Analytical Chemistry 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

April 22-23, 2020
Berlin, Germany

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Analytical Chemistry

2020

Who'd be attending?

11th Edition of International Conference on Analytical Chemistry, April 22-23, 2020 in Berlin, Germany. Theme of the conference focuses on Innovative research in the field of chemistry related to Analytical Techniques. Analytical Chemistry 2020 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists. Chemical researcher, molecular diagnostics, clinical laboratories, health care industry, quantitative analysts, qualitative analysts, editorial board members, students, faculty members. chemical instrument vendors, professors and students from academia in the field of analytical and bioanalytical sciences. Delegates from various pharma & instrumental companies from all over the world. About hosting organization EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of life science communication it focuses on to spearheading the transformation of medical research into knowledge through scientific gatherings and networking. Supporting the Rare Care UK Organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique and that difference has propelled our growth towards scientific serendipity.

Tracks :

- Analytical Biotechnology
- Analytical Methodology
- Applications of Analytical and Bioanalytical Methods
- Applications of Analytical Chemistry
- Advances in Separation Techniques
- Bioanalytical Methodology
- Bioplastics
- Biopolymers & Biomaterials
- Chromatography
- Crystallography
- Electrophoresis
- Environmental Analytical Chemistry
- Forensic Analysis
- Green Analytical Chemistry
- Instrumental Methods
- Mass spectrometry
- Medical Chemistry
- New Instrumentation and Equipment
- Novel Approaches to Analytical and Bioanalytical Methods
- Nuclear Magnetic Resonance Spectroscopy
- Organic Chemistry
- Pharmaceutical Analysis
- Polymer Nanotechnology
- Process Analytical Chemistry
- Proteomics
- Radioanalytical Chemistry
- Regulatory Issues and Biosafety Challenges in Bioanalysis
- Spectroscopy
- Thermal Analysis and Glycomics
- Titration

EuroSciCon

Academic Keytopics:

- Atomic Absorption Spectroscopy (AAS)
- Atomic Emission Spectroscopy (AES)
- Atomic Fluorescence Spectroscopy (AFS)
- Capillary Electrophoresis (CE)
- Chromatography
- Electrolysis
- Electrophoresis
- Flow Injection Analysis (FIA)
- Fourier Transform Spectroscopy (FTIR)
- Gas Chromatography (GC)
- Gas Chromatography-Mass Spectrometry (GC-MS)
- High Performance Liquid Chromatography-IR Spectroscopy (HPLC-IR)
- High Performance Liquid Chromatography (HPLC)
- Ion-Mobility Spectrometry (IMS)
- Liquid Chromatography-IR Spectroscopy (LC-IR)
- Mass Spectrometry (MS)
- Nuclear Magnetic Resonance (NMR)
- Raman Spectroscopy
- Transmission Electron Microscopy (TEM)
- Thermogravimetric Analysis (TGA)
- X-ray Diffraction (XRD)
- X-ray Fluorescence Spectroscopy (XRF)

April 22-23, 2020
Berlin, Germany

Business Keytopics:

- Analytical Chemistry Europe
- Analytical Chemistry Asia
- Analytical Chemistry Japan
- Analytical Chemistry UK
- Analytical Chemistry Canada
- Analytical Chemistry USA
- Analytical Chemistry Dubai
- Analytical Chemistry Germany
- Analytical Chemistry Africa
- Spectrometer
- Spectrophotometer
- Coning and quartering
- Dilution
- Dissolution
- Filtration
- Masking
- Pulverization
- Sample preparation
- Separation process
- Sub-sampling
- Chemometrics
- Calibration curve
- Matrix effect
- Internal standard
- Standard addition
- Isotope dilution
- Calorimetry
- Chromatography
- Electroanalytical methods
- Gravimetric analysis
- Mass spectrometry
- Spectroscopy

Analytical Chemistry

2020

About Destination Berlin

Berlin, capital and chief urban centre of Germany. The city lies at the heart of the North German Plain, athwart an east-west commercial and geographic axis that helped make it the capital of the kingdom of Prussia and then, from 1871, of a unified Germany. Berlin's former glory ended in 1945, but the city survived the destruction of World War II. It was rebuilt and came to show amazing economic and cultural growth.

Berlin is the capitol of Germany (since 1990 following German reunification) and has a population of 3.5M people. Berlin's economy is mainly based on the service sector due to being one of the most popular touristic destinations in Europe.

Other industries include IT, pharmaceuticals, renewable energy, biomedical engineering, and biotechnology. Lately Berlin also is the epicenter for new and successful startups and sometimes is referred to as Silicon Allee (deriving from the original Silicon Valley in the U.S).

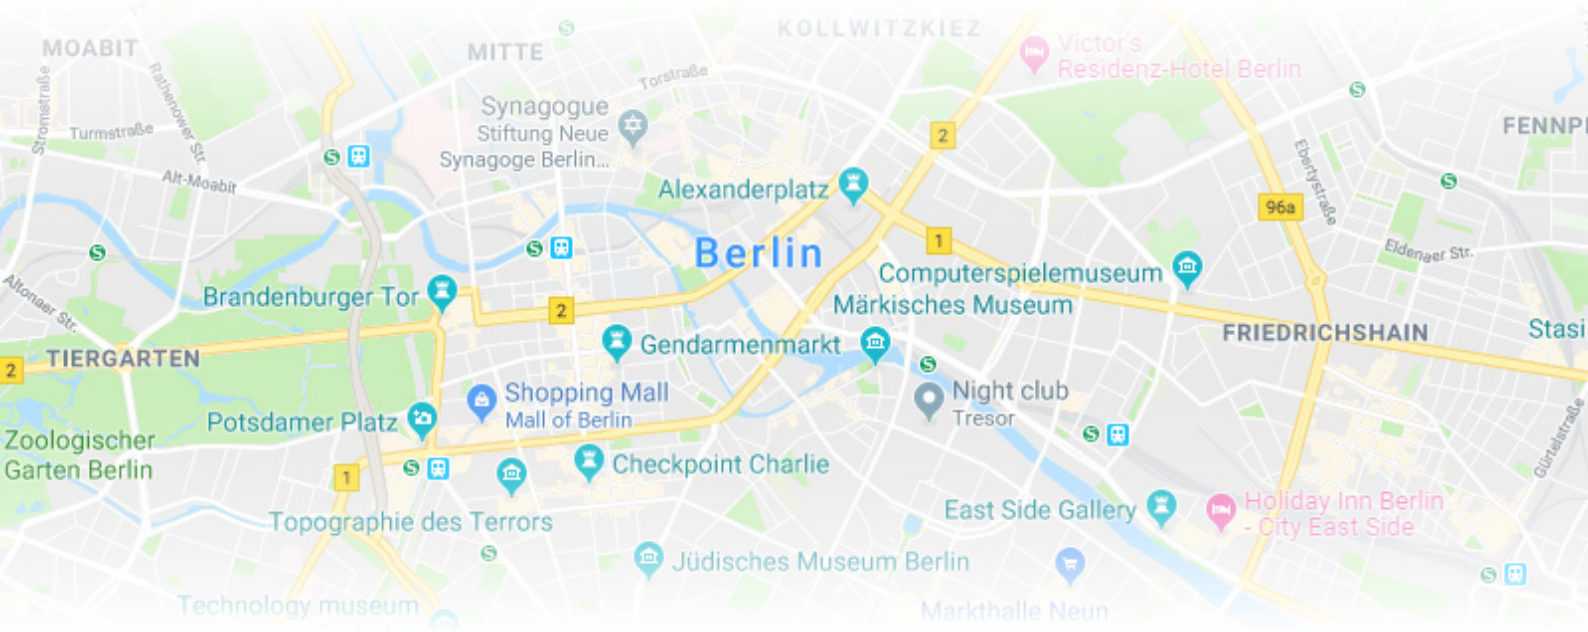

Venue and Accomodation

Venue:

Berlin, Germany
