

12th Edition of International Conference on

Analytical Chemistry

June 15-16, 2021 | London, UK

Theme: Innovative research in the field of chemistry related to Analytical techniques to treat COVID-19

Invitation

Welcome to London, UK.

On behalf of Analytical Chemistry 2021 Organizing Committee, academics, Counsellors, parasitologists, Health-Care Professionals, Researchers and Scientists, Training Institutes, Universities and Colleges Students, Immunology Associates, Immunology based Companies, Business Entrepreneurs, Research scientists, Self-help group facilitators, Social workers, Teachers, Business delegates and Young researchers from the nutrition and dietetics and its allied are invited to be part of this annual event.

The conference proceedings include symposiums and workshops, keynote speeches, plenary talks, poster sessions and panel discussion on latest research developments in the field of nutrition and dietetics.

EuroSciCon is the longest running independent life science events company with a predominantly academic client base. Our multi professional and multi-specialty approach creates a unique experience that cannot be found with a specialist society or commercially.

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Venue

June 15-16, 2021 | London, UK

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

With over 25000+ parasitologists accessing the website, Analytical Chemistry 2021 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Analytical Chemistry 2021 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

12th Edition of International Conference on Analytical Chemistry gives chance to meet Academics, Counsellors, Clinical Nutritionists, Registered Dieticians, Health-Care Professionals, Researchers and Scientists, Training Institutes, Universities and Colleges Students, Nutrition and Dietetics Associates, Nutrition, Dietetics & Nutraceuticals based Companies, Business Entrepreneurs, Research scientists, Self-help group facilitators, Social workers, Teachers, Business delegates and Young researchers from nutrition industry and academic field respectively and share ideas, knowledge and different views on various areas of Nutrition, Dietetics & Nutraceuticals.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology and Institute of Biomedical Science (IBMS). Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

Medical Chemistry
New Instrumentation And Equipment
Novel Approaches To Analytical And Bioanalytical Methods
Nuclear Magnetic Resonance Spectroscopy
Organic Chemistry
Pharmaceutical Analysis
Polymer Nanotechnology
Process Analytical Chemistry
Proteomics
Radioanalytical Chemistry
Regulatory Issues & Biosafety Challenges In Bioanalysis
Spectroscopy
Thermal Analysis And Glycomics
Titration
Analytical Biotechnology
Analytical Methodology
Applications Of Analytical & Bioanalytical Methods
Applications Of Analytical Chemistry
Advances In Separation Techniques
Bioanalytical Methodology
Bioplastics
Biopolymers & Biomaterials
Chromatography
Crystallography
Electrophoresis
Environmental Analytical Chemistry
Forensic Analysis
Green Analytical Chemistry
Instrumental Methods
Mass Spectrometry

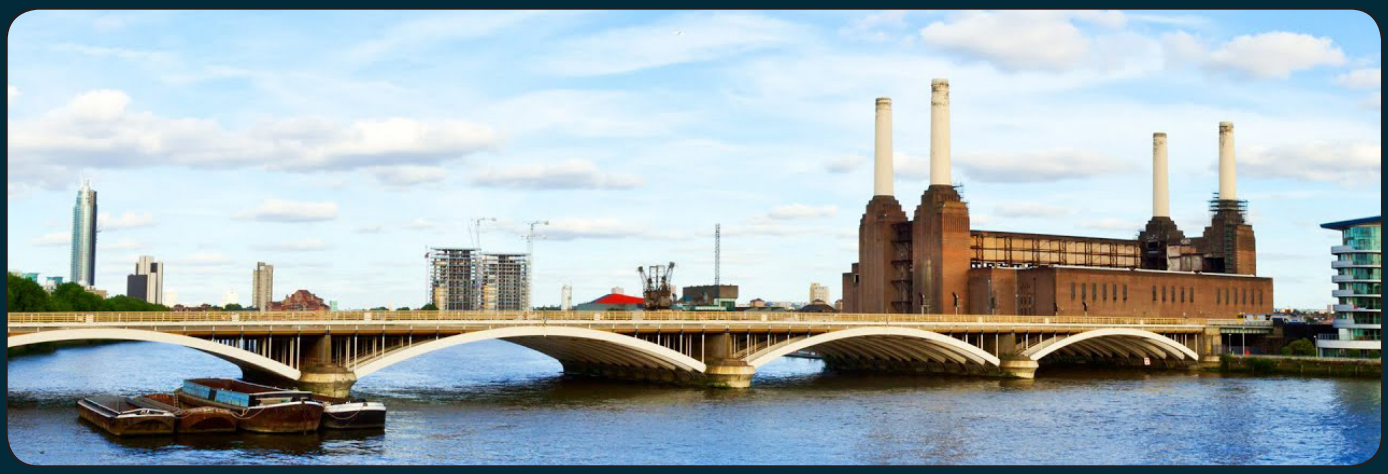

Analytical Chemistry 2021

About Destination London

London is the capital city of United Kingdom, stands on the River Thames and is located southeast of the island of Great Britain. Londoncovers an area of 1579 square kilometres and according to 2016 statistics, Greater London's population was estimated to be 8.63 million. London is a leading global city excelling in the fields of arts, commerce, education, entertainment, Fashion, finance, healthcare, media, professional services, research and development, tourism, and transportation. As the world's largest financial center, Londonserves as an attractive destination for international investors and businessmen. The headquarters of important banks like HSBC, Royal Bank of Scotland, Barclays and Standard Chartered are located here. The city has the World's largest city airport. If we look at the cultural distribution of the city, London is often described as a cultural hub. It is home to a wide variety of people from different backgrounds and more than 300 languages are spoken. The host city also has some of the best medicine schools like The Imperial College London, the University College London, The King's College London, Queen Mary's University of London and St. George's University of London. Funds for research are available from Research Councils, National Institutes of Health, European Commission, other UK Government Departments and also from commercial sectors like private companies. In 2016, the idea of a global research hub in London was put forward, to bring over ten thousand scientists and clinical researchers together in order to accelerate advancements in cancer science. The Buckingham Palace, the Warner Bros Studio, the Madame Tussauds wax museum, Westminster Abbey, and the London Eye are important tourist destinations in this city.
