Artificial Intelligence Conference-2022	
Theme : Innovations in Artificial Intelligence for Sustainable World	
Time as per Osaka, Japan (Check time as per individual country	
Sessions (AI & Big Data| AI in Business| AI & Robotics | AI in Health Care | AI in Multimedia Technology| Artificial Neural Network| Information Technology | Machine Learning & Computing | Humanoid Robots)	
1:20-2:00 PM	**A Multi-Modal Approach For Crop Health Mapping Using Low Altitude Remote Sensing, Internet Of Things (Iot) And Machine Learning**
	Rafia Mumtaz, NUST-SEECS, Pakistan
2:00-2:40 PM	**Establishment Of Body Auto Fitting Model Bafm Using Nj-Gpm At Toyota**
	Hirohisa Sakai, Kawasaki Heavy Industries LTD, Japan
2:40-3:00 PM	**Yaskawa's Next Generation Robot System Concept And Application Of Ai Technology**
	Hiroshi Kumagai, Yaskawa Electric Corporation, Japan
3:00-3:30 PM	**Human Centered Collaboration And Cooperation With Robots In The Field Of Automobile Manufacturing Sites**
	Kazutsugu Suita, Toyota Motor Corporation, Japan
3:30-4:00 PM	**Autonomous Robot Evolution**
	Wei Li, Fudan University, China
6:00-6:30 PM	**Artificial Intelligence Application for Photovoltaic Systems**
	Hany M. Hasanien, Ain Shams University, Egypt
6:30-7:00 PM	**AarogyaPath :- National Health Care Supply Chain Management**
	Aashish Kaushal and Akanksha, Kurukshetra University, India
7:00-7:30 PM	**U-Net Model for the Identification and Segmentation of the Endocardium in cMR Imaging**
	Hajir Sulaiman, Comprehensive Cancer Care and Research Center, Oman
7:30-8:00 PM	**Artificial Intelligence and its impact on Fintech Industry in India**
	Dileepa Hari, University of Kerala, India
8:30-9:00 PM	**Mobility Management in Mobile Networks**
	Ibraheem Shayea, Istanbul Technical University, Turkey
The End
