Explore Amsterdam

Amsterdam is the capital of the Netherlands. Amsterdam has a population of 851,373 within the city proper, 1,351,587 in the urban area and 2,410,960 in the Amsterdam metropolitan area. Amsterdam's name derives from Amstelredamme, indicative of the city's origin around a dam in the river Amstel. Amsterdam became one of the most important ports in the world during the Dutch Golden Age (17th century), a result of its innovative developments in trade. During that time, the city was the leading center for finance and diamonds. In the 19th and 20th centuries the city expanded, and many new neighborhoods and suburbs were planned and built. The 17th-century canals of Amsterdam and the 19–20th century Defence Line of Amsterdam are on the UNESCO World Heritage List.
