BABE 2018

World Congress on

Bioavailability & Bioequivalence: BA/BE Studies Summit

August 06-07, 2018 | Tokyo, Japan

http://www.meetingsint.com/conferences/bioavailability-bioequivalence

Invitation

Meetings International proudly announces the ***World Congress on Bioavailability & Bioequivalence: BA/BE Studies Summit*** scheduled during ***August 06-07, 2018*** in ***Tokyo, Japan***. The conference emphasizes the theme "***BA/BE: Essential Innovation in Contemporary Studies***".

Meetings International provides an international dais for scientists and Pharmaceutical & Pharmacological professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. A significant role in the discovery, development, and regulation of new drug products involves in recent research of Bioavailability and Bioequivalence. a crucial component of abbreviated new drug applications (ANDAs), leading to market access of safe, effective, and low cost in the advance studies of bioequivalence.

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

BABE 2018

Welcome Letter

World Congress on

Bioavailability & Bioequivalence: BA/BE Studies Summit

Prof. M. R. Mozafari

DEAR COLLEAGUES,

It is a great pleasure for us to welcome you to the "**World Congress on Bioavailability & Bioequivalence: BA/BE Studies Summit**" which will be held during **August 06-07, 2018** in **Japan**. This scientific event provides a unique opportunity to visit Tokyo in a popular season while meeting peers and colleagues in an international setting. The theme of conference is "**BA/BE: Essential Innovation in Contemporary Studies**". We hope this will really induce a new mindset of "thinking differently" that will stimulate more productive pre-clinical and clinical study outcomes and induce new research concepts.

The great scholar Hippocrates, known as father of medical science, wrote in his famous work On Ancient Medicine: "The art of Medicine would not have been invented at first, nor would it have been made a subject of investigation … but now necessity itself made medicine to be sought out and discovered by men." We can understand from this simple and essential sentence, why every type of natural sciences must be in cooperation to promote the "good health" and "improve our life quality". The developing new research activities, which use the most recent technological facilities offer novel diagnostics, technical solutions, medications and therapies for disease prevention, rehabilitation and health care. We are convinced that everyone could understand the strategic significance and value of the cooperative multidisciplinary research to accomplish optimum scientific outcomes. This is the reason why "World Congress on Bioavailability & Bioequivalence: BA/BE Studies Summit" is a great challenge, not only for the contributors own scientific work, but also for the entire human society.

We cordially invite you to participate in the conference by presenting your work as either talks or posters. We hope that you will take advantage of this unique opportunity to interact with eminent scholars, researchers, practitioners and industry representatives from throughout the world whose focus is to develop new and effective solutions to improve world health.

We are looking forward to welcoming you in Tokyo, Japan!

Prof. M. R. Mozafari
ANNI, Melbourne
Australia

OCM Members

ALIREZA HEIDARI
California South University
(CSU), Irvine, California, USA

ANDRAS FODOR
University of Pannonia
Hungary

DARIUSZ JACEK JAKOBCZAK
Koszalin University of
Technology, Poland

ALLAN HOFFMAN
University of Washington

Conference Highlights

- Emerging Bioavailability & Bioequivalence Studies
- Advances in BA&BE
- BA/BE of Biologic & Biosimilar
- Drug Metabolism
- New Approaches to Beat Multi-Drug Resistance: Natural and QSAR-designed Antimicrobial Peptides
- Bioequivalence Protocol: In-Vitro / In-Vivo Studies
- Biopharmaceutics Applications & Clinical Pharmacology
- Pharmaceuticals Formulation
- Pharmacology: PK & PD approach
- Biowaivers: Criteria
- Public Health and Nutrition
- Regulatory Requirement and Approaches
- Pharmaceuticals Industry: Entrepreneur Meet

Meetings Int. offers

An unique platform for top level research and innovation

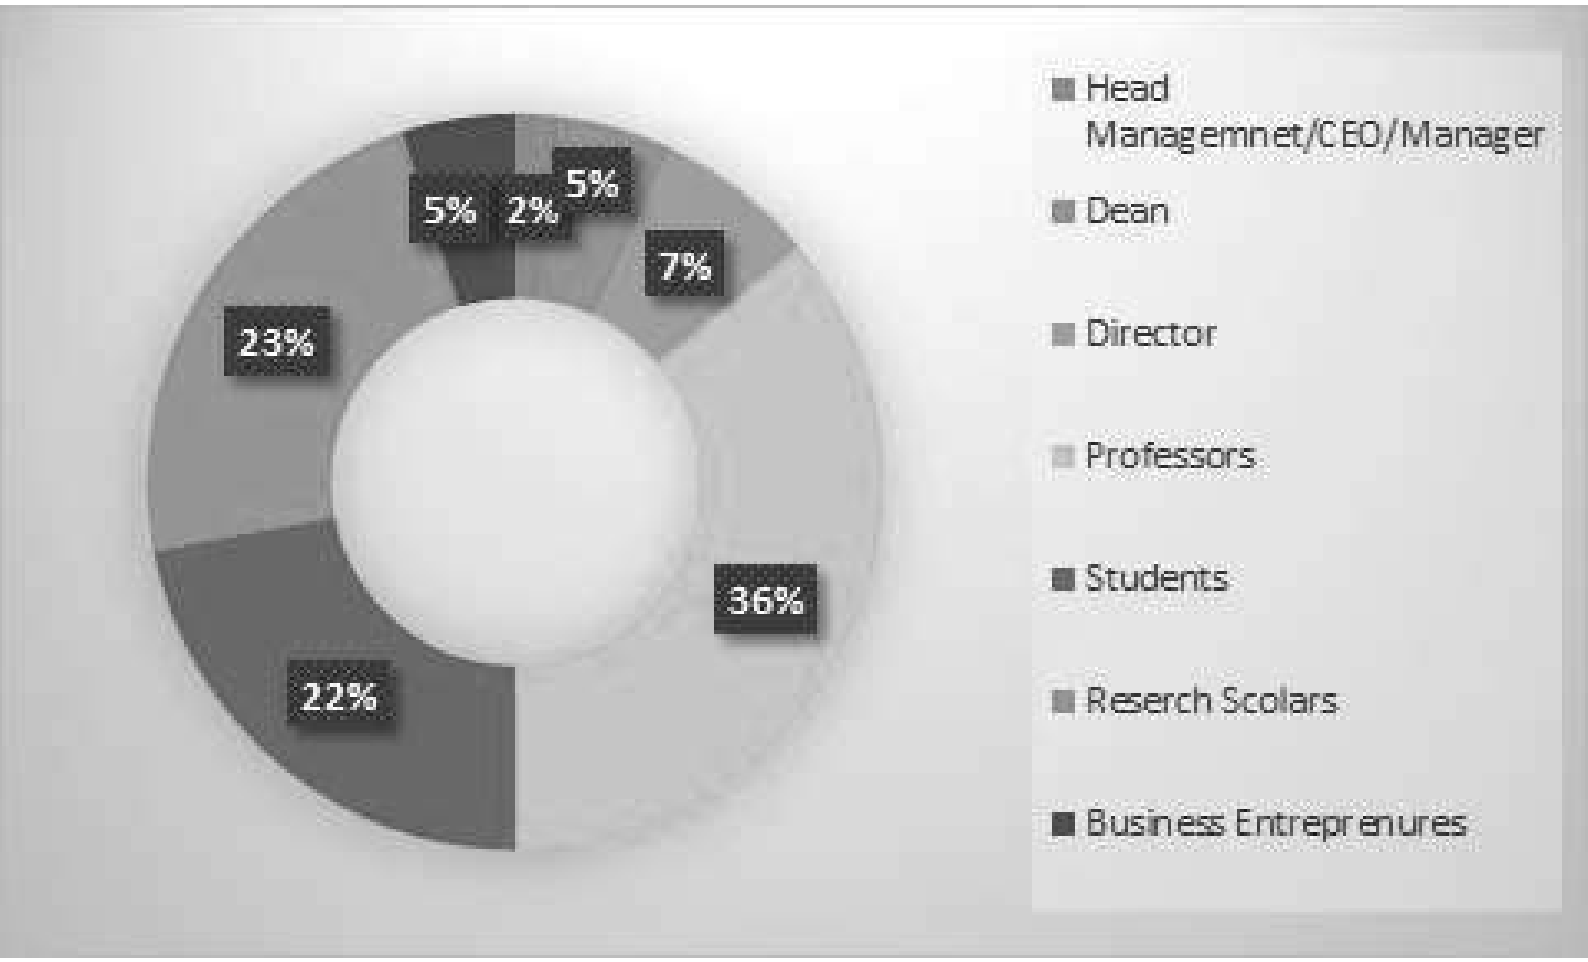

BABE 2018 Agenda	
Day 1 August 06, 2018	
09:30-10:00	Registration
10:00-10:20	Opening Ceremony
10:20-10:30	Introduction by Moderator
Keynote Forum	
10:30-11:00	Title: Application of nanocarrier systems for improving the bioavailability of nutraceuticals
	M. R. Mozafari, Australasian Nanoscience and Nanotechnology Initiative, Australia
Networking & Refreshment Break, 11:00-11:20	
11:20-11:50	Title: Understanding BE data using physiologically-based pharmacokinetic (PBPK) modelling
	Yuan Chen, Genentech, USA
11:50-12:20	Title: Effect of catechol o-methyl transferase inhibitor on anti-inflammatory activity of luteolin metabolites
	InWook Choi, Korea Food Research Institute, Republic of Korea
12:20:12:50	Title: Effect of formulation development and API characteristics on fast dissolving dosage forms bioequivalence studies
	Gülay Yelken Demirel, Yeditepe University, Turkey
Group Photo	
Lunch Break 13:00-13:45	
13:45-14:15	Title: TBA
	Kateryna Zupanets, Ukraine
Oral Session I	
14:15-14:35	Title: The use of healthy volunteers for bioequivalence of antineoplastic drugs
	Gilberto De Nucci, Brazilian physician, scientist and University professor in the field of pharmacology, Brazil
14:35-15:55	Title:The New Drug Formulations for Enhanced and Efficient Delivery of Drugs for Brain and Systemic Action
	Elka Touitou, ESTEVE, Israel
15:55-16:15	Title: Biosimilars: Challenges in Safety and Risk Management
	Asif Mahmood, Pzifer, USA.
Networking & Refreshment Break, 16:15-16:30	
16:30-16:50	Title: Newly approved antimicrobial agents: where do they belong?
	Jonathan Cho,The University of Texas at Tyler, USA
16:50-17:10	Title: In vitro and in silico drug-food interaction: an evaluation of metformin and green tea interactions
	Jacob A. KOLAWOLE ,University of Jos,Nigeria.
16:50-17:10	Title: Formulation of nanocarriers composed of millet protein and tocopherols to control bioavailability of lipophilic food components
	Sepideh KHORASANI , Shahid Bahonar University of Kerman, Iran
Session Adjournment	

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Tokyo**

Tokyo is Japan's capital and the largest metropolitan area in the world. It is also one of Japan's 47 prefectures, consisting of 23 central city wards and multiple cities, towns and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo. World's highest Skywalk- the Tokyo Sky tree is the tallest free-standing tower in the world, measuring 634m. The observation deck at 450m is the world's highest skywalk and offers panoramic views of the city
