- Biological control innovation
- Biological irrigation control specialists
- Biostimulants

Meetings Int. offers

A unique platform for top level research and innovation

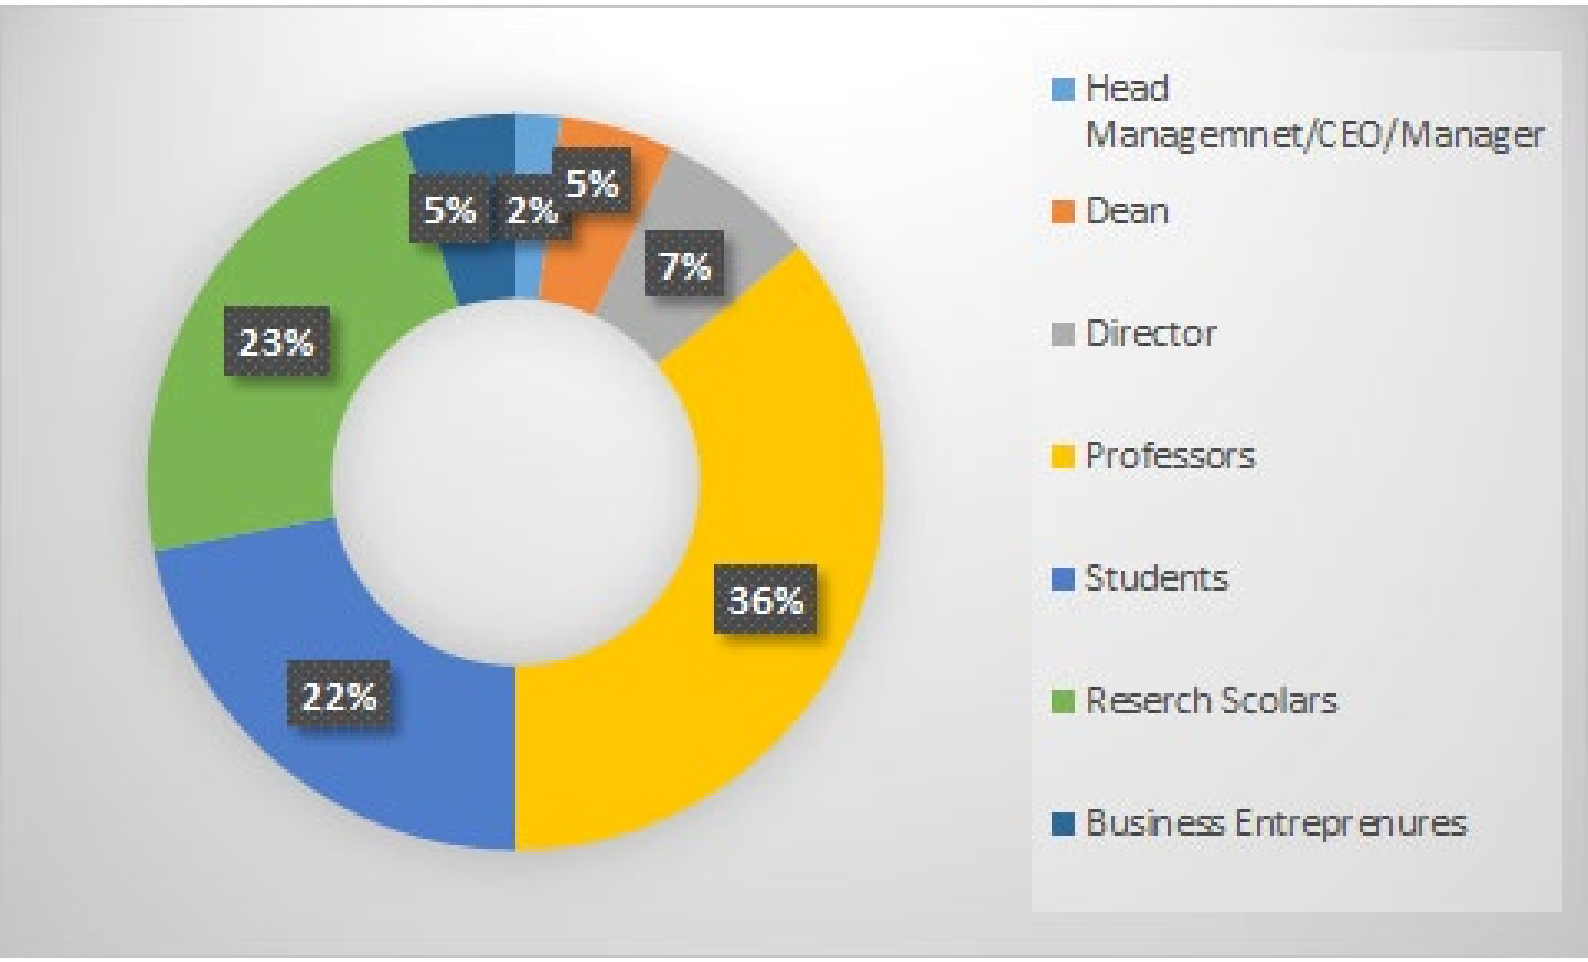

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Zurich**

The city of Zurich, a worldwide community for managing an account and back, lies at the north end of Lake Zurich in northern Switzerland. The beautiful paths of the focal Altstadt (Old Town), on either side of the Limmat River, mirror its pre-medieval history. Waterfront promenades like the Limmatquai take after the waterway toward the seventeenth century Rathaus (town lobby). Numerous historical centres and workmanship displays can be found in the city, including the Swiss National Museum and the Kunsthaus.
