11TH INTERNATIONAL CONFERENCE ON

BIOFUEL & BIOENERGY

FEBRUARY 19-20, 2020 | DUBAI, UAE

Biofuel and Bioenergy
2019

Invitation

Dear Attendees,

Meetings International proudly announces the 11th International Conference on Biofuel & Bioenergy scheduled during February 19-20, 2020 in Dubai, UAE. The conference emphasizes the theme "Next generation fuels & chemicals".

A biofuel is a fuel that is produced through contemporary processes from biomass, rather than a fuel produced by the very slow geological processes involved in the formation of fossil fuels, such as oil. Since biomass technically is used as a fuel directly, some individuals use the terms biomass and biofuel inter changeably. More often than not however, the word biomass simply denotes the biological raw material the fuel is made of, or some form of thermally/chemically altered solid end product, like terrified pellets or briquettes. If the biomass utilized in the assembly of biofuel will get quickly, the fuel is usually thought-about to be a type of renewable energy.

Sincerely,

Operating Committee

Biofuel & Bioenergy 2020

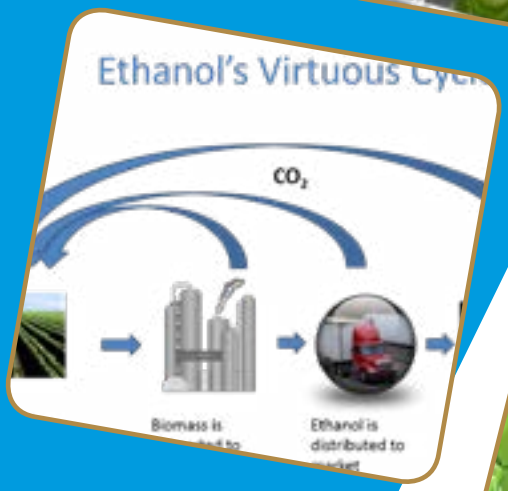

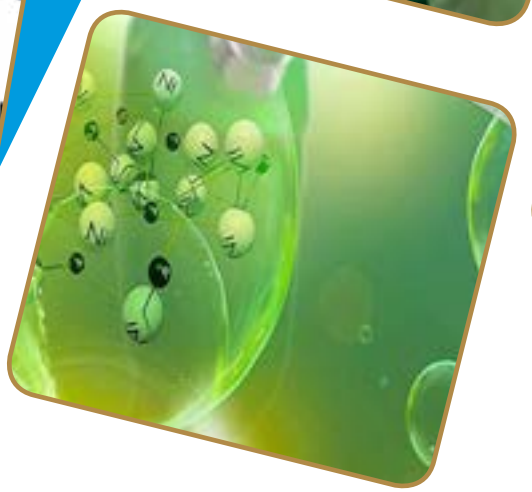

Conference Highlights

- Photovoltaic Market Trends
- Vision for Biofuels and Bioenergy
- Global Renewable Bioenergy Trends
- Bio Analytical Separation Techniques
- Bio Process Technology & Microfluidics
- Future Sources of Biofuels and Bioenergy
- Global Biofuels and Bioenergy Elites
- Statistical Review of World Biofuels and Bioenergy
- Threshold of a New Age of Biofuels and Bioenergy
- Global Biofuels and Bioenergy Industry Market Size and Overview
- Role of Renewable Biofuels and Bioenergy in the Global Energy Transformation
- Renewable Biofuel and Bioenergy Information on Market, Policy, Investment and Future

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore Dubai

Dubai is a city and emirate in the United Arab Emirates known for luxury shopping, ultramodern architecture and a lively nightlife scene. Burj Khalifa, an 830m-tall tower, dominates the skyscraper-filled skyline. At its foot lies Dubai Fountain, with jets and lights choreographed to music. On artificial islands just offshore is Atlantis, The Palm, a resort with water and marine-animal parks.
