Dear Colleagues,

Meetings International provides an international dais for scientists and Chemical Engineering experts to exchange ideas, knowledge and networking at its 100+ International Conferences.

Meetings International invites all the participants across the globe to attend the International Conference on Biofuels & Bioenergy during July 16-17, 2018, Madrid, Spain. The theme of the conference is "Exploring the Advancements in Chemical Technology for Biofuels and Bioenergy" and to encourage young minds and their research abilities by providing an opportunity to meet the experts in the field of Biofuels & Bioenergy and Chemical Engineering from all over the globe.

Biofuels are fuels that can be prepared from various sorts of biomass. Original biofuels are prepared from the sugars and vegetable oils shaped in arable harvests, which can be easily removed applying regular innovation.Bioenergy is a never ending source of energy which can be accessed from substances obtained from biological origin. Biomass is referred to any organic matter which has sunlight stored in the form of chemical energy.

Biofuel conference is a platform set for you to come across highly qualified and experienced Scientists from around the globe working and researching on the developments of Biofuels and Bioenergy.

Conference Highlights :

- Advanced Biofuels
- Algae Biofuels
- Aviation biofuels
- Biomass
- Biogas
- Biodiesel
- Bioethanol
- Bioenergy
- Bioenergy Applications
- Biohydrogen
- Biorefineries
- Bioethanol Economics
- Biomass Technologies
- Bioenergy Conversion
- Bioenergy Transition
- Biomass feed stocks for renewable energy generation
- Food vs Fuels Debate
- Production of Biofuels
- Process for Bioenergy
- Renewable Energy

About Madrid

Venue:

Madrid, Spain

Madrid is the capital and biggest city of Spain. The number of inhabitants in the city is just about 3.2 million and that of the Madrid metropolitan territory, around 6.3 million. It is the third-biggest city in the European Union, after London and Berlin, and its metropolitan range is the third-biggest in the European Union after London and Paris. The city traverses an aggregate of 604.3 km2 (233.3 sq mi).

The city is situated on the Manzanares River in the focal point of both the nation and the Community of Madrid (which contains the city of Madrid, its conurbation and broadened rural areas and towns); this group is circumscribed by the self-ruling groups of Castile and León and Castile-La Mancha. As the capital city of Spain, seat of government, and living arrangement of the Spanish ruler, Madrid is additionally the political, financial and social focus of Spain. The present chairman is Ana Botella from the People's Party (PP).
