10th Edition of International Conference on

Biofuels and Bioenergy

March 04-05, 2019

Barcelona, Spain

EuroSciCon

Agenda Day 1: March 04, 2019

Hall @ Le Mans

09:00-9:30 **Registrations**

09:30-10:00 Opening Ceremony

Keynote Forum

10:00-10:05 Introduction

10:05-10:50

Title: Biodegradable and biocompatible polymers produced by sustainable integrated bioprocess

Seiichi Taguchi, Tokyo University of Agriculture, Japan

Networking and Refreshments 10:50-11:15 @ BAR TERRAZA

11:15-12:00

Title: The Bioeconomy concept into the biomass conversion into biofuels: Technological, Economic and Social impact

George Sakellaris, University of South Bohemia, Czech Republic

Session Introduction

Sessions: Advanced Biofuels | Green Energy & Economy | Biorefinaries

Session Chair: Jeno Hancsok, Pannon University, Veszprém, Hungary

12:00-12:30

Title: Bio-paraffin mixtures production over different catalysts

Oliver Visnyei, Pannon University, Veszprém, Hungary

12:30-13:00

Title: Production and assessment of activated carbon for the development of low nitrogen emissions fertilizer

Ana González-Cencerrado, University of Zaragoza/CIRCE, Spain

Group Photo

Lunch Break 13:00-14:00 @ BAR TERRAZA

14:00-14:45

Exhibitor: **Marta Real Parez**

Anaero Technology Ltd, UK

14:45-15:15

Title: Concept and challenges of modern biorefineries

Alex Michine, MetGen, Finland

Sessions: Biomass | Advances in Renewable Chemical | Biodiesel

Session Chair: Alex Michine, MetGen, Finland

15:15-15:45	**Title: Biomass pre-processing for various applications** **Olev Trass,** University of Toronto, Canada
15:45-16:15	**Title: Enhancing performance of photovoltaic solar cell by P3HT: PCBM doped graphene flakes as photoactive layer** **Adnan Ali,** Hamad Bin Khalifa University, Qatar

Networking and Refreshments: 16:15-16:30 @ BAR TERRAZA

16:30-17:00	**YRF: Microfluidics applied to the study of the formation of insoluble hydrocarbons for automobile fuels and biofuels** **Émilie Bordes,** IFP Énergies Nouvelles, France
17:00-17:30	**YRF: Analysis and potential of manufactured biodiesel from neem oil using gas chromato-graph-mass spectroscopy (GC-MS) and Fourier transform infrared spectrophotometer (FTIR) techniques** **Abdulkabir Aliyu,** Cranfield University, UK

Panel Discussion

Day 2: March 05, 2019

Poster Presentations 11:00-11:30 @ Meeting rooms

Poster Judge: George Sakellaris, University of South Bohemia, Czech Republic

Awards & Closing Ceremony

Extended Networking and Lunch 12:30-13:30 @ BAR TERRAZA
