Plan A Trip To Vienna: Destination Of Biomarkers 2019

Vienna the capital of Austria, one of the worlds most preferred and advanced cities. Vienna is famous for its cultural events, imperial sights, coffee houses, costly wine taverns, and the very special Viennese charm & It is Austria's largest city and 7th largest in the European Union, with a population of about 1.8 million. Vienna is known for its high quality of life. Tourist attraction being among the top ten countries with most tourists, with 23,012,000 foreign visitors each year. Apart from being regarded as the City of Music because of its musical legacy, Vienna is also said to be The City of Dreams because it was home to the world's first psychotherapist – Sigmund Freud. The city's roots lie in early Celtic and Roman settlements that transformed into a Medieval and Baroque city, and then the capital of the Austro-Hungarian Empire. It is well known for having played an essential role as a leading European music center, from the great age of Viennese Classicism through the early part of the 20th century. In a 2005 study of 127 world cities, the Economist Intelligence Unit ranked the city first (in a tie with Vancouver, Canada and San Francisco, US) for the world's most livable cities. Vienna is without a doubt a destination of 21st century

Architecture, Culture & Entertainment:

Vienna's historic downtown is remarkable for its harmonious coexistence of traditional and modern architecture. Vienna is Melting Pot of a Wide Variety of Building Cultures like Secession, Musikverein, Schonbrunn Palace and Belvedere Palace. Historic buildings and contemporary structures blend to create an impressive, inimitable cityscape. The historic center of Vienna is rich in architectural ensembles, including Baroque castles and gardens, and the late-19th-century Ring strake lined with grand buildings, monuments and parks. Vienna is also home to a number of opera houses, including the Theater an der Wien, the Staatsoper and the Volksoper, the latter being devoted to the typical Viennese operetta. Classical concerts are performed at world-famous venues such as the Wiener Musikverein, home of the Vienna Philharmonic Orchestra known across the world for the annual widely broadcast New Year's Day Concert, as well as the Wiener Konzerthaus, home of the internationally renowned Vienna Symphony. Many concert venues offer concerts aimed at tourists, featuring popular highlights of Viennese music, particularly the works of Wolfgang Amadeus Mozart, Johann Strauss I, and Johann Strauss II. Those who prefer more contemporary architecture will want to head across the river to the Donau City, also known as Vienna DC which has the privilege of having its very own vineyards.
