

EuroSciCon

International Online conference on

Biomaterials and Biomedical Engineering

October
05-06, 2020

Theme:

COVID-19 Challenges for Biomaterials and Biomedical Research!!

EuroSciCon

Online Conference

2020

Welcome Message

Greetings!

I take this opportunity to invite and welcome all researchers, scientists, engineers and clinicians as well as interested stakeholders including investors to the International conference on Biomaterials and Biomedical Engineering 2020 where a common interest in advancement of science and technology to improve medical and health care is at heart. This conference offers the convergence of delegates to be well-informed on various fronts in the widening of the scope of knowledge in advancing Biomaterials Science and Biomedical Engineering in bringing new technologies to the marketplace to diagnose, treat medical condition and manage health conditions, to say the least. These technologies leading to medical breakthroughs with products and services are regulated by National and Regional Regulatory Authorities.

Such Authorities (also known as Regulatory Agencies) are responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices; and by ensuring the safety of other related products.

To a degree, some are responsible for advancing the public health by helping to speed innovations that make medical products more effective, safer, and more affordable and by helping the public get the accurate, science-based information they need to use medical products and foods to maintain and improve their health.

As medical technologies expert with 30 years of experience in many different capacities in the academia and industry, I have learnt that without compliance to the regulatory requirements, many medical technologies have fallen short of making it to the commercial stages or approved clinical and public use. It is therefore imperative that the regulatory requirements of any medical technology are well-understood and considered at the very initial stages of its development.

This conference will aspires to offer informative presentations from many aspects of biomaterials science and biomedical engineering in transforming research, design and development into approved products and services in the medical and health care arenas. I welcome you to the conference, and wish you a successful participation. Enjoy the program.

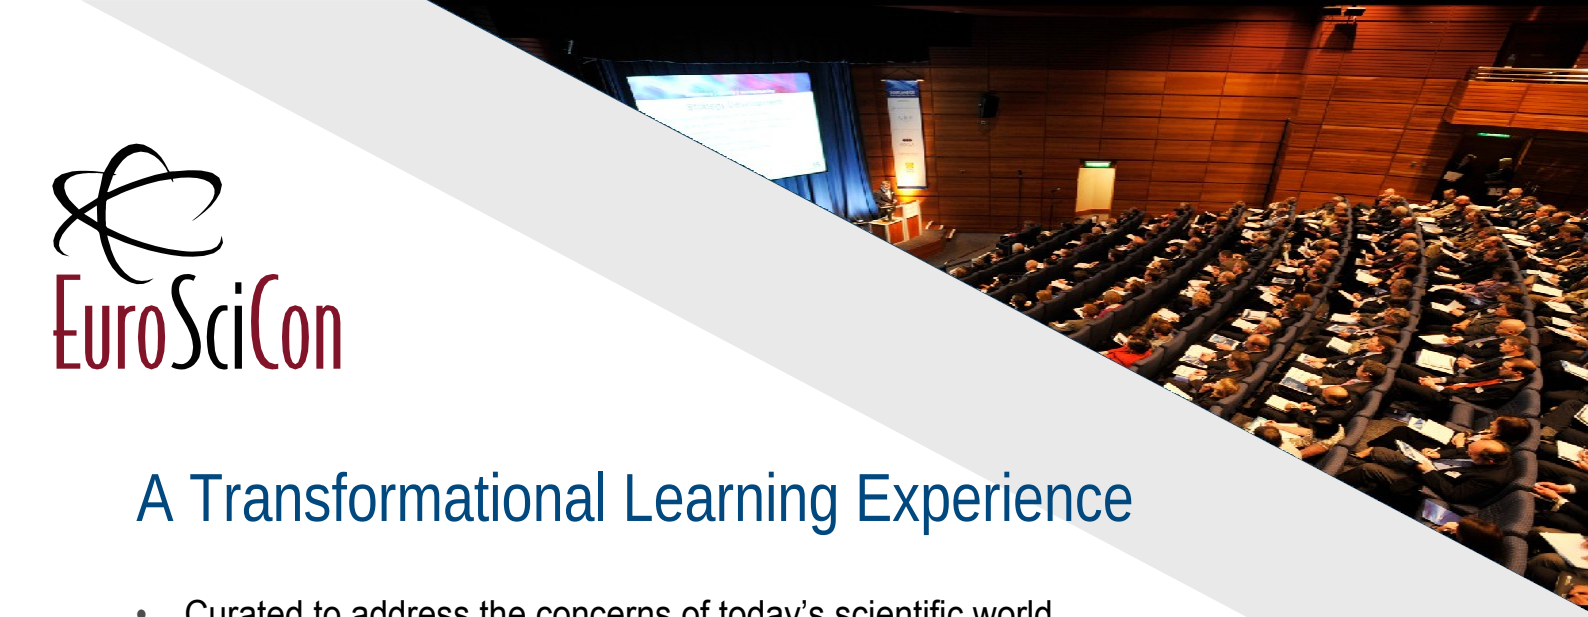

Sincere regards,

Gabriel O

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

Online Conference

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development. And here's why you associate with us

Our International Open Access Journals:

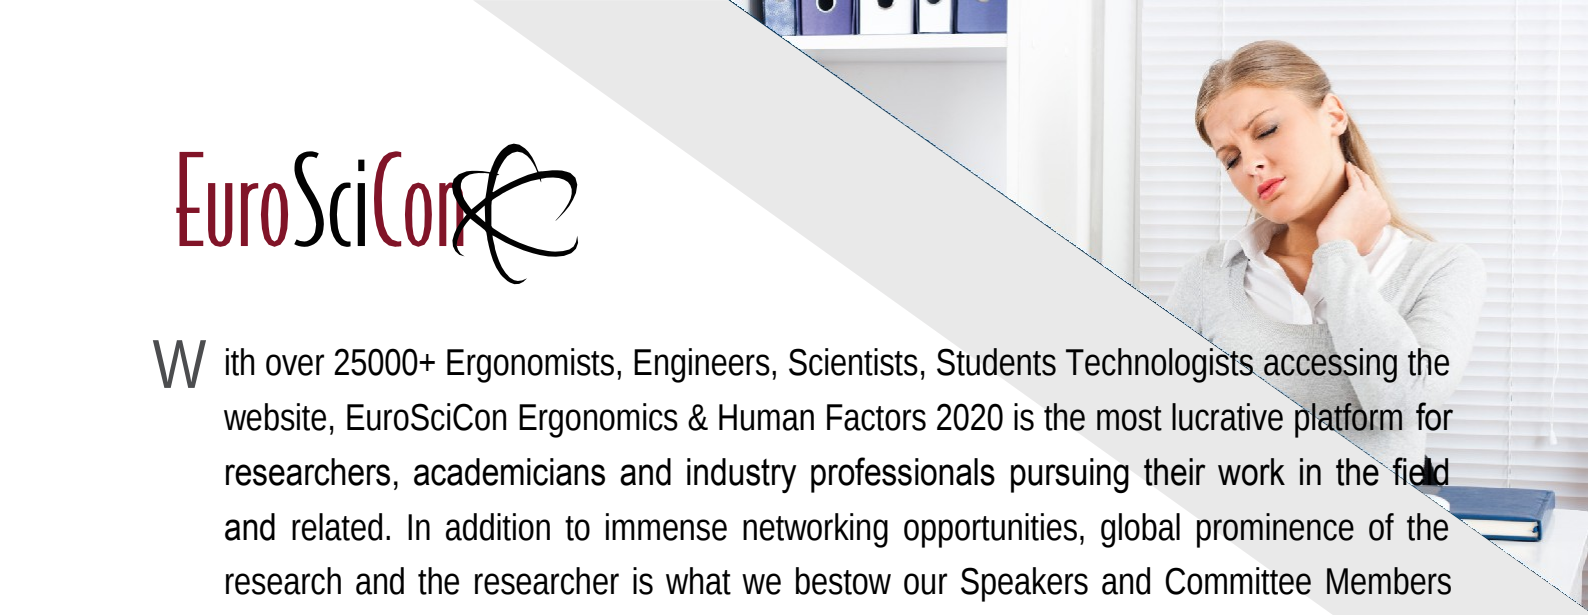

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations. Read by over 30 Million Patrons and 100000+ Face book Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD. Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions. B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals Each of which will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines. Career Guidance Workshops for students and early career researchers Opportunity to publish full Manu Scripts in our Open Access Journals

With over 25000+ Ergonomists, Engineers, Scientists, Students Technologists accessing the website, EuroSciCon Ergonomics & Human Factors 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

October
05-06, 2020

Biomaterials 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

About Online Conference

Webinar announcement editorial Importance of webinar on that conference topic Young Research Forum presentation and certification and awards for webinar E-Handbook & E-Conference Kit, E-Certificate of Presentation and Webinar Provision for CME/CPD credits if applicable 2020 webinar objectives with reference to topics to be covered Online publication of Abstract and Biography in our website which has 25 Million visitors Detailed topics/theme. Online publication of Abstract and Biography in respective conference webpage which has 25,000 online unique subject experts visitors Advertisement of Company logo at conference website for Package A, Package B business This editorial can have about 1000 words should be authorized and approved by respective external Organising Committee Member Guidelines on registration add on advantage with extended article/abstract publication in respective supporting journal.

Tentative Program

Day 1

07:00–08:00 (All Attendees) Continental Breakfast & Registration 08:00–08:30 (All Attendees) Introductions & Welcome

08:30~09:00 (All Attendees)
Opening Ceremony
09:00~09:40 Plenary Talk-1
09:40~10:20 Plenary Talk-2
Refreshment and Networking Break
10:40~12:30 General Session
(Oral Presentation)
12:30~13:30 Gala Lunch
13:30~15:30 Keynote Talk 1, 2, 3
Refreshment and Networking Break
15:30~17:00 General Session
(Oral Presentation)
17:00~18:00 General Session
(Oral Presentation)
[illegible] Networking Session

Day 2

09:00~09:40 Plenary Talk 3
09:40~10:20 Plenary Talk 4
Refreshment and Networking Break
10:20~12:30 Keynote 4, 5, 6
Lunch Break
12:30~13:30 General Session
(Oral Presentation)
13:30~15:30 Refreshment and Networking Break
15:30~16:30 General Session
(Oral Presentation)
16:30~18:00 Poster Session
18:00~18:30 Networking Session & Closing Ceremony

Want to be a Part of the Online Biomaterials 2020?

Choose your Category:

Webinar Speaker Registration	$199
Delegate Registration	$299

Package Registrations

Special Price valid through **August 31, 2020**

Deadline for abstract submission: **July 23, 2020**
