

EuroSciCon

International conference on

Biomaterials and Biomedical Engineering

MAY 11-12, 2020
London, UK

Theme:

Accelerate discovery into ground breaking Biomaterials and Biomedical research!!

EuroSciCon

Biomaterials and Biomedical

2020

Welcome Message

Greetings!

I take this opportunity to invite and welcome all researchers, scientists, engineers and clinicians as well as interested stakeholders including investors to the International conference on Biomaterials and Biomedical Engineering 2020 where a common interest in advancement of science and technology to improve medical and health care is at heart. This conference offers the convergence of delegates to be well-informed on various fronts in the widening of the scope of knowledge in advancing Biomaterials Science and Biomedical Engineering in bringing new technologies to the marketplace to diagnose, treat medical condition and manage health conditions, to say the least. These technologies leading to medical breakthroughs with products and services are regulated by National and Regional Regulatory Authorities.

Such Authorities (also known as Regulatory Agencies) are responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices; and by ensuring the safety of other related products.

To a degree, some are responsible for advancing the public health by helping to speed innovations that make medical products more effective, safer, and more affordable and by helping the public get the accurate, science-based information they need to use medical products and foods to maintain and improve their health.

As medical technologies expert with 30 years of experience in many different capacities in the academia and industry, I have learnt that without compliance to the regulatory requirements, many medical technologies have fallen short of making it to the commercial stages or approved clinical and public use. It is therefore imperative that the regulatory requirements of any medical technology are well-understood and considered at the very initial stages of its development.

This conference will aspires to offer informative presentations from many aspects of biomaterials science and biomedical engineering in transforming research, design and development into approved products and services in the medical and health care arenas. I welcome you to the conference, and wish you a successful participation. Enjoy the programme.

Sincere regards,

Gabriel O Adusei,

Triune Technologies Ltd, UK

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

MAY 11-12, 2020
London, UK

EuroSciCon

Biomaterials and Biomedical

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Ergonomists, Engineers, Scientists, Students Technologists accessing the website, EuroSciCon Ergonomics & Human Factors 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Biomaterials 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

MAY 11-12, 2020
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

International conference on Bio-Materials and Bio-Medical Engineering plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently researchers from a wide range of controls, including physicists, Material Science experts, Ceramic engineers, scientific experts, engineers, data technologists and material Researchers, scholars, Ceramics engineering is being connected to relatively every field possible, including hardware, magnetics, data innovation, materials improvement and biomedicine of Research based companies across Europe and US who are investing in Bio-Materials and Bio-Medical Engineering and others who stay plunged in learning and practice of the science of technology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Bio-Materials
- Biomedical Composites Science And Technology
- Biomedical Engineering
- 3D Printing Of Bio-Materials
- Regenerative Medicine
- Advances In Tissue Engineering(TE)
- Artificial Tissues Creation And Engineering
- Smart Materials-Biological Performance
- Bio Devices Technologies And Sensor Network
- Biomedical Imaging Processing And Bio
- Photonics
- Production Of Novel Biomaterial
- Bio-Materials In Current Medical Practice
- Bio-Material Synthesis And Fabrication
- Host Reaction To Bio-Materials
- Bio-Materials In Pericardial Processing
- Bio-Materials Design For Novel Structures
- Bioinformatics And Medical Information Systems
- Bio-Materials As An Emerging Industry
- Bio-Materials In Sports Medicine
- Bio-Materials For Medical Applications

EuroSciCon

About Destination London

London is the capital and most populous city of England and the United Kingdom, standing on the River Thames in the south east of the island of Great Britain. London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is one of the leading tourist destinations in the world and in 2018 was ranked as the most visited city in the world with over 100 million visits.

Top Attractive Places to Visit in London

The city is covered with many famous tourist attractions like London Eye, Buckingham Palace tour, Madame Tussauds, Sea Life London, Tower of London, Kensington Palace and many other historical places which make the visitors more captivated towards the city.

London Eye: The Coca-Cola London Eye is a major feature of London's skyline. Climb aboard for a breathtaking experience, with an unforgettable perspective of more than 55 of London's most famous landmarks – all in just 30 minutes

Buckingham Palace tour: Buckingham Palace is the London residence and administrative headquarters of the monarch of the United Kingdom located in the City of Westminster, the palace is often at the center of state occasions and royal hospitality. It has been a focal point for the British people at times of national rejoicing and mourning.

Madame Tussauds London: At Madame Tussauds, you'll come face-to-face with some of the world's most famous faces. From Shakespeare to Lady Gaga you'll meet influential figures from showbiz, sport, politics and even royalty.

EuroSciCon

Tentative Program

Day 1

07:00–08:00 (All Attendees)
Continental Breakfast & Registration
08:00–08:30 (All Attendees)
Introductions & Welcome

08:30~09:00 (All Attendees)
Opening Ceremony
09:00~09:40 Plenary Talk–1
09:40~10:20 Plenary Talk–2
Refreshment and Networking Break
10:40~12:30 General Session
(Oral Presentation)
12:30~13:30 Gala Lunch
13:30~15:30 Keynote Talk 1, 2, 3
Refreshment and Networking Break
15:30~17:00 General Session
(Oral Presentation)
17:00~18:00 General Session
(Oral Presentation)
18:00~18:30 Networking Session

Day 2

09:00~09:40 Plenary Talk 3
09:40~10:20 Plenary Talk 4
Refreshment and Networking Break
10:20~12:30 Keynote 4, 5, 6
Lunch Break
12:30~13:30 General Session
(Oral Presentation)
13:30~15:30 Refreshment and Networking Break
15:30~16:30 General Session
(Oral Presentation)
16:30~18:00 Poster Session
18:00~18:30 Networking Session & Closing Ceremony

Register Now!

Want to be a Part of the Leading Biomaterials 2020?

MAY 11-12, 2020
London, UK

Choose your Category:

Academic **€510**

Business **€610**

Academic Delegate **€470**

Student Oral **€330**

Student Poster **€350**

Package Registrations

Special Price valid through **December 31, 2018**

Deadline for abstract submission: **September 15, 2018**
