Biopolymer 2018

World Congress on Biopolymers and Bioplastics

August 29-30,2018 | Berlin, Germany

http://www.meetingsint.com/chemical-engineering-conferences/biopolymers

Invitation

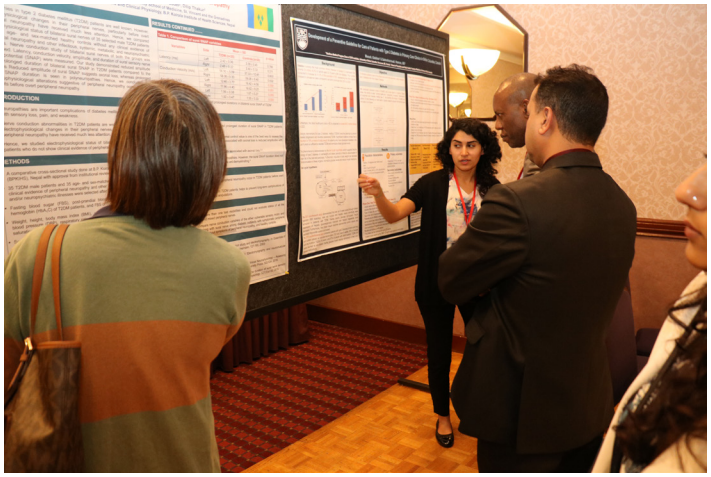

Meetings International proudly announces the ***World Congress on Biopolymers and Bioplastics*** scheduled during ***August 29-30, 2018*** in ***Berlin, Germany***. The conference emphasizes the theme "***Synthesis and Characterization of Biopolymers & Polymer Sciences***".

Meetings International provides an international dais for scientists to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences. Biopolymer 2018 conference will influence an appealing moment to meet people in the experimentation field and therefore it takes a pleasure in opening a doorway to encounter the ability in the field, young researchers and potential World-renowned speakers, the most recent approaches, tactics and the current upgrade in the field of Biopolymers.

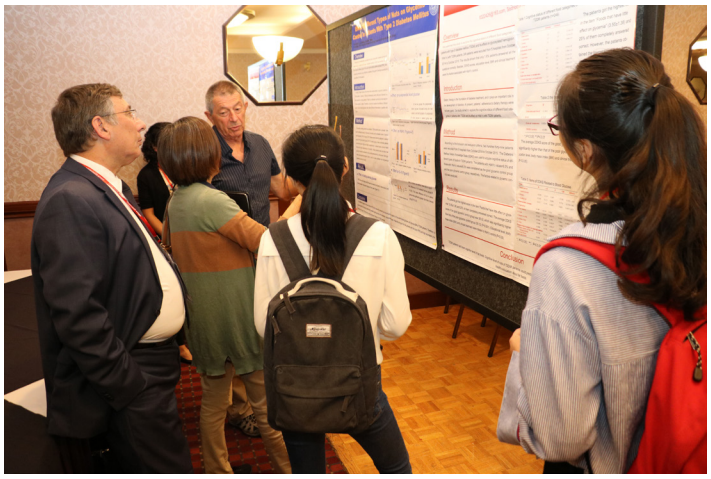

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

Organizing Committee Members and featured speakers:

Prof. Bharat Bhushan
The Ohio State University
U.S.A.

Prof. Luc Avérous
University of Strasbourg
France

BIOPOLYMER 2018

Conference Highlights

- Natural Polymers
- Biopolymers as materials
- Bioplastics
- Nano Polymers
- Synthetic Polymers
- Biopolymers in Biofibres & Microbial Cellulose
- Priciples of Polymer Chemistry
- Recycling & Waste Management of Biopolymers
- Production and Commercialization
- Routes to drop-in monomers and Bioplastics
- Future and Scope for Biopolyers and Bioplastics

Meetings Int. offers

An unique platform for top level research and innovation

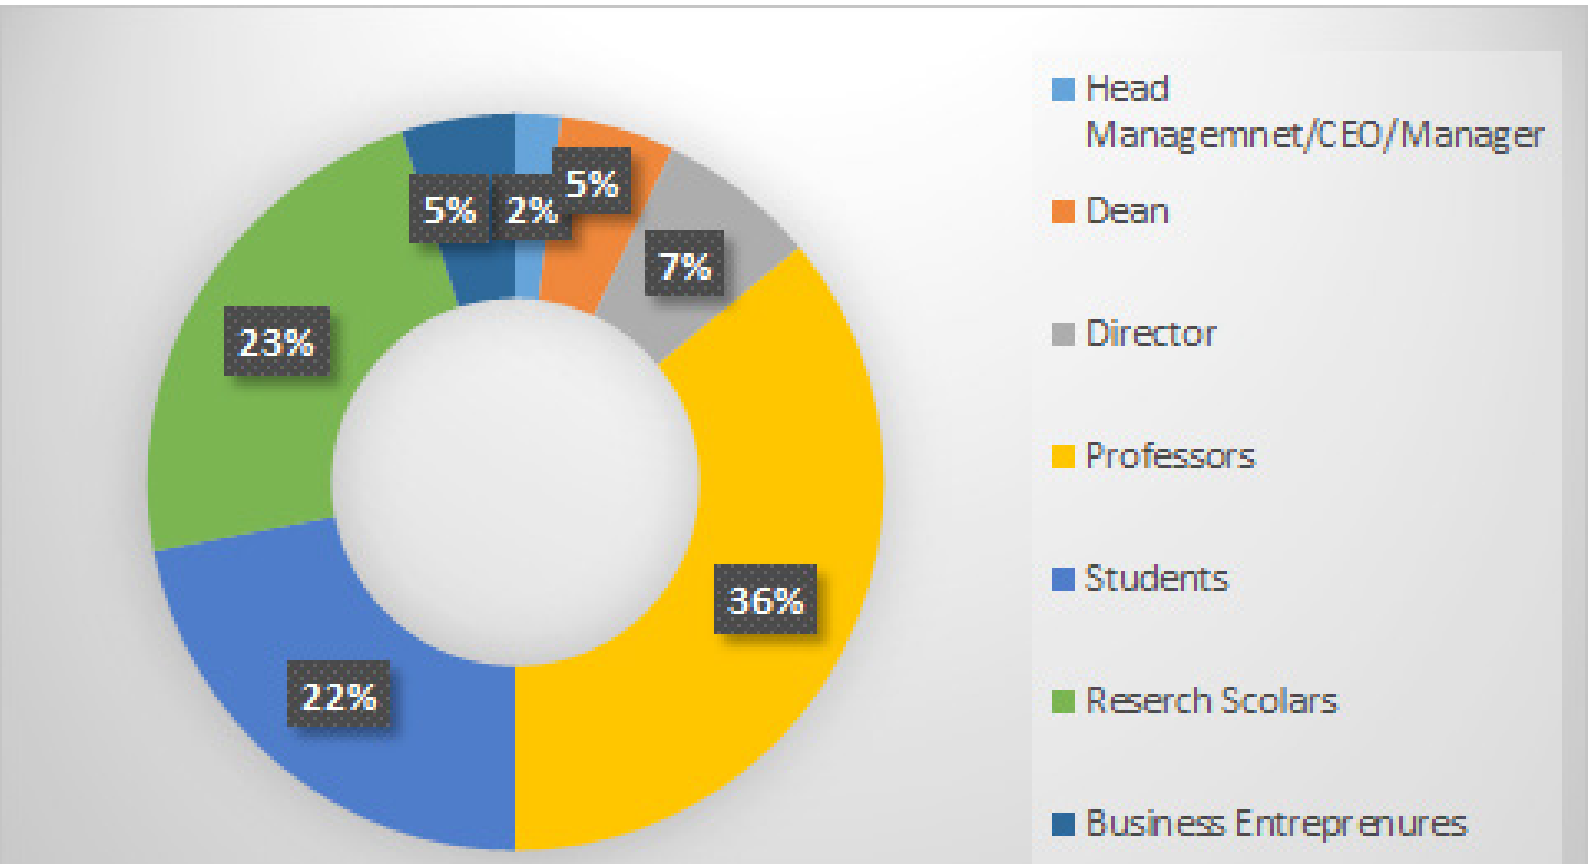

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Berlin**

Berlin is rich in history, Culture and Science. Berlin is a worldwide city of culture, governmental issues, media and science. Its economy depends on cutting edge firms and the administration part, including a different scope of inventive enterprises; investigate offices, media companies and tradition scenes. Berlin fills in as a mainland center point for air and rail activity and has a very mind boggling open transportation arrange. The city is a mainstream traveler destination. Significant businesses likewise incorporate IT, pharmaceuticals, biomedical designing, clean tech, biotechnology, development and hardware. Berlin has been one of Europe's most influential economic, cultural and political centers – for better or worse – since it's origins as a trading post in the 13th century.
