

EuroSciCon

10th Edition of International Conference on

Biopolymers & Bioplastics

March 23-24, 2020
London, UK

Theme:

Explore the New Insights and Innovations in Biopolymers and Bioplastics

EuroSciCon

Biopolymers

2020

Invitation

Welcome to London City, and experience the science of Biopolymers & Bioplastics illuminated as never before. EuroSciCon is proud to host the 10th Edition of International Conference on Biopolymers & Bioplastics, March 23-24, 2020 in London, UK. This year's theme is Explore the New Insights and Innovations in Biopolymers and Bioplastics. Biopolymers 2020 will provide an unprecedented opportunity for researchers of all stripes and colors to share their research with colleagues, discuss and debate the latest advances in the field. We invite researchers, academicians and industry professionals and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Conference is the perfect venue not only to dive into your particular Biopolymers & Bioplastics interests but also to expand the scope of your knowledge. Tracks are devoted to subjects such as the Biopolymers And Biomaterial, Polymers And Biopolymers Applications, Future And Scope Of Biopolymers, Green Chemicals: Biopolymers And Bioplastics, Biodegradable Polymers, Biobased Thermosetting Polymers, Public Solution And Waste Management, Polymers And Nanotechnology, Bioplastics, Biocomposite Materials, Production And Commercialization, Plastic Fouling And Treatment, Contingency Of Biopolymers, Waste Management And Reuse Processes, Imminent Ambit Of Biopolymers.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

March 23-24, 2020
London, UK

EuroSciCon

Biopolymers

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ researchers and academicians accessing the website, Biopolymers & Bioplastics 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Biopolymers 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

March 23-24, 2020
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Biopolymers

2020

Who'd be attending?

10th Edition of International Conference on Biopolymers & Bioplastics plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Eminent Scientists of Chemical Engineering & Polymer Technology Bioplastics, Biomaterial, Bioprocess Research Professors and research fellows Students from Material science, Chemical Engineering, Polymer Technology Directors of Plastics Manufacturing, Materials Manufacturing companies Biodegradable Engineers, Materials Processing Engineers, Chemical Engineers Members of different Bioplastics, Biomaterials associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Biopolymers And Biomaterial
- Polymers And Biopolymers Applications
- Future And Scope Of Biopolymers
- Green Chemicals: Biopolymers And Bioplastics
- Biodegradable Polymers
- Biobased Thermosetting Polymers
- Public Solution And Waste Management
- Polymers And Nanotechnology
- Bioplastics
- Biocomposite Materials
- Production And Commercialization
- Plastic Fouling And Treatment
- Contingency Of Biopolymers
- Waste Management And Reuse Processes
- Imminent Ambit Of Biopolymers

About destination London

London city is the largest city in England which is also called as largest capital city of England and the United kingdom, and it has the largest municipal population in the Europe union standing on the river Thames in the south - east of England ,at the head of its 50-miles (80 km) estuary leading to the North sea ,London has been considered a major settlement for two millennia.

London is consider to be one of the world's most important global cities and also has been termed the world's most powerful, most popular for work, most desirable, most influential, innovative ,sustainable, most investment friendly, and the most visited most vegetarian –friendly most expensive city in the World Hematology Supporting London exerts a considerable impact upon the arts, commerce, education, entertainment, healthcare, media, finance, fashion, professional services, research and development, tourism and transportation. London rank 26 out of 300 major cities for economics performance

Londinium was founded by the Romans. The City of London ,that is London ancient core-retains boundaries that follow closely its medieval limits .And The city of Westminster is also an inner London territorial division holding city status .the greatest city London is administered by the Mayor of London and the London assembly .

Where London contain four most world heritage sites : Tower of London; Kew Gardens ;The site comprising the place of Westminster ,Westminster Abbey, St Margaret's church.
