Invitation

Dear Attendees,

Meetings International presents 4th International Conference on Biosensors and Bioelectronics scheduled to be held from May 20-21, 2020 in Paris, France. The conference will bring together leading scientists, early-career researchers to share their perspectives and gather specialists from these interdisciplinary fields to discuss necessary measures needed to develop a new generation of powerful tools for synergistic development in the field of sensors. Through a progression of encouraging plenary talks, inspiring keynote lectures, workshops, industry-sponsored symposia and exhibitions, the conference provides new information about the use of latest technologies and building new links between disciplines enables discussion and new collaborations. We assure our attendees return to their place with the self-belief to improve their abilities and outfitted with certified approaches to work with us.

Sincerely,

Operating Committee

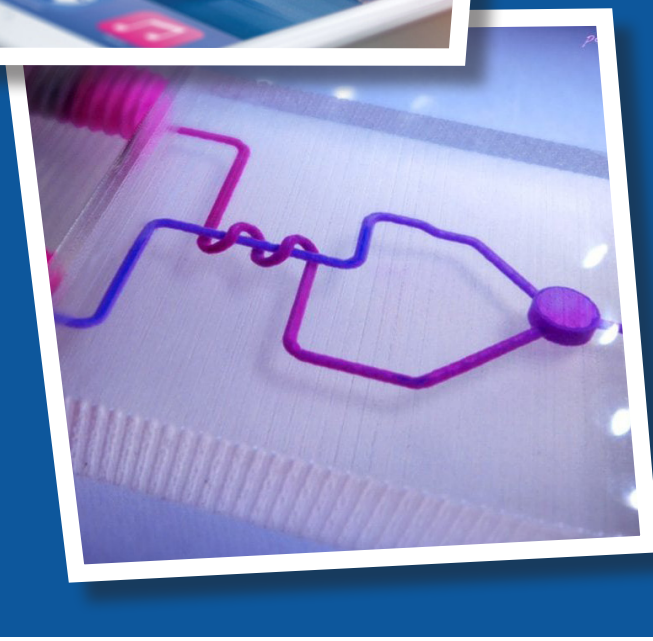

Biosensors 2021

Conference Highlights

- Nanoelectronics Biosensors
- Lab-on-a-chip and multiplexed sensors
- Microfluidics and immobilisation technology
- Enzyme-based biosensors
- Novel transducers and Photonic Sensor Technologies
- Bioelectronics and Bioinstrumentation
- Application of biosensors in drug Delivery and clinical chemistry
- Natural & synthetic receptors (including MIPs)
- Commercial biosensors, manufacturing and markets
- Optical chemical sensors

- To identify the future directions of research
- Peer review and high quality publication
- Quality research
