5th International Conference on
Biosensors and Bioelectronics

PARIS |FRANCE

OCTOBER 25-26 | 2021

MEETINGS INTERNATIONAL

Company Registration No: 201524282R

28 Maxwell Road, #03-05 Red Dot Traffic

Singapore (069120)

Phone /WhatsApp: +44-1792-680005

PROGRAM

Day 1	
Keynote	**Title: Challenge to meet the market need for faster diagnosis in health care: an interdisciplinary approach to biosensors**
	Laure Abensur Vuillaume, IRL 2958 Georgia Tech - CNRS, Metz, France
Keynote	**Title: Discrimination of red blood cells of different pathological states by statistical analysis of physical parameters, obtained with biosensing technology during microcirculatory**
	TIEYING XU, 1Université Paris-Saclay, ENS Paris-Saclay, CNRS, Institut d'Alembert, Gif sur Yvette, France
Oral Session 1	
Oral	**Title: Agro-industrial African oil palm residue reuse for the development of an optical biosensor based on Carbon dots for BSA detection**
	Juan Pablo Arango Velásquez, GIBEC Research Group, Life Sciences Faculty, Universidad EIA, Calle 25 Sur #42-73, Medellín 055420, Colombia
Oral	**Title: Innovative biosensor array for key analyte monitoring in human sweat**
	Daniele Zappi, Istituto di Cristallografia, CNR Area Della Ricerca di Roma, 00015 Monterotondo Scalo Rome, Italy
Oral	**Title: Electrochemical immunosensors for sensitive determination of emerging autoimmune disease biomarkers**
	Department of Analytical Chemistry, Faculty of Chemistry, University Complutense of Madrid, Avda. Complutense s/n, 28040, Madrid, Spain
Speakers Slot available	
Keynote Oral	Will be updated
