2ND WORLD CONGRESS ON BIOSENSORS AND BIOELECTRONICS

Biosensors 2019

August 21-22, 2019 | Miami, USA

INVITATION

Biosensors 2019

Meetings International proudly announces the **2nd World Congress on Biosensors and Bioelectronics** scheduled during **August 21-22, 2019 at Miami, USA.** The conference emphasizes the theme "**Accelerating new research and innovations of Biosensors Technologies and Bioelectronics**".

Meetings International provides an international dais for scientists and Technology professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The trends in biosensor technology over the past 30 years have taken this equipment from simple and cheap components to the integration of several sensor systems into one unit including multiple analytes, making these systems smaller and tailored for mass production. The vision for the biosensor industry is to create microscale technology that will be suitable for performing sample preparation, analysis and diagnosis all with one chip.

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

Important Dates

Early Bird Offer: March 25, 2019

Abstract Submission Open: April 30, 2019

On Spot Registration: August 21, 2019

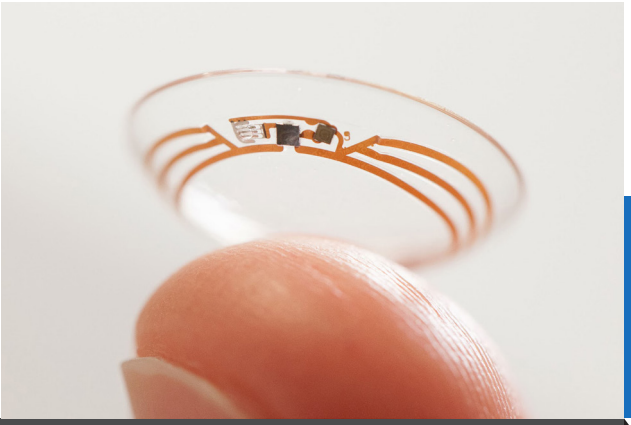

Miami, USA

https://www.meetingsint.com/conferences/biosensor-bioelectronics

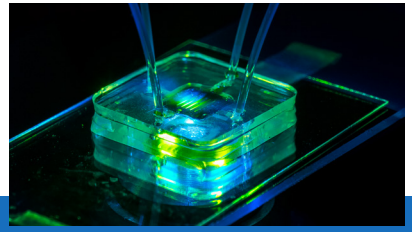

CONFERENCE HIGHLIGHTS

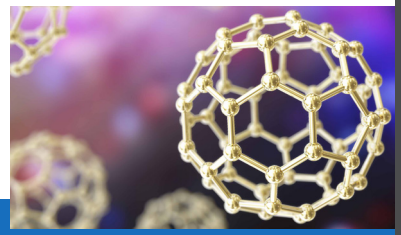

- Biosensors and Biosensing technologies
- Bioelectronics
- Bio-MEMS/NEMS
- Commercial biosensors, manufacturing and markets
- Chips, nucleic acid sensors and aptasensorsDNA
- Enzyme-based biosensors
- Immunosensors
- Lab-on-a-chip
- Microfluidics and immobilization technology
- Mobile diagnostics and personal health
- Nanobiosensors, nanomaterials & nanoanalytical systems
- Natural & synthetic receptors (including MIPs)
- Organism- and whole cell-based biosensors
- Printed biosensors and micro fabrication
- Biosensor Applications in various fields
- Proteomics, single-cell analysis and cancer-cell detection
- Signal transduction technology
- Theranostics & implantable sensors
- Biomedical Engineering
- Biophotonics & Photonic Sensor Technologies

Meetings Int. offers

An unique platform for top level research and innovation

Miami, USA

https://www.meetingsint.com/conferences/biosensor-bioelectronics

Biosensors 2019

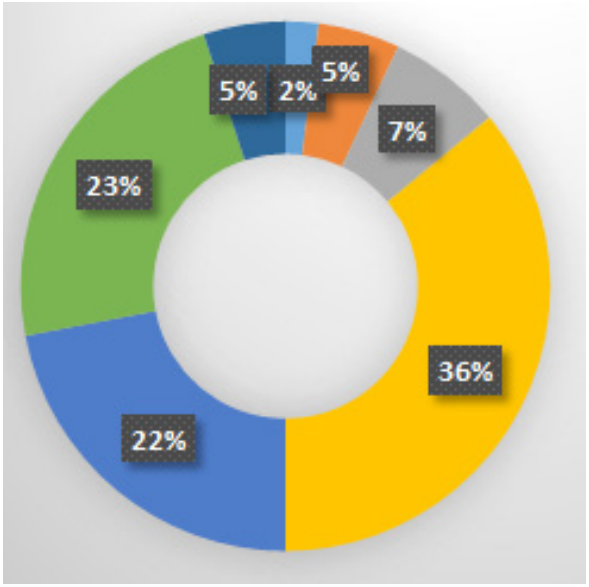

WE VALUE

Quality research

To identify the future directions of research

Peer review and high quality publication

- Head Management/CEO/Manager
- Dean
- Director
- Professor
- Students
- Research Scolars
- Business Enterprenures

ABOUT MIAMI

Biosensors 2019

Miami is a well-known tourist spot and it is well known for its Cuban, Puerto Rican and Haitian culture. It is nicknamed “The Magic City” because of its rapid growth. Miami has the third tallest skyline in the U.S. with over 300 high-rises. For more than two decades, the Port of Miami, known as the “Cruise Capital of the World”, has been the number one cruise passenger port in the world. It accommodates some of the world’s largest cruise ships and operations, and is the busiest port in both passenger traffic and cruise lines. In addition to annual festivals like Calle Ocho Festival and Carnaval Miami, Miami is home to many entertainment venues, theaters, museums, parks and performing arts centres.
