Meetings International

2nd World Congress on

Biosensors and Bioelectronics

November 27-28, 2019 | Singapore City, Singapore

Theme:

Accelerating new research and innovations of Biosensors Technologies and Bioelectronics

2nd World Congress on Biosensors and Bioelectronics

November 27-28, 2019 || Singapore City, Singapore

PRESENTATION : KEYNOTE - ORAL

Title: Preparation and characterizations of ZnO doped with HfO2 for Its germination applications of green gram

A. Ayeshamariam, Bharathidasan University, India

Title: Nanoparticles enhanced optomagnetic microfluidic biosensor

Liu Chunxiu, Chinese Academy of Sciences(IECAS), China

Title: Bio conjugation of VB6 with encapsulated noble metal nanoclusters for fluorescent recognition on metal ions in aqueous medium

Shilpa Bothra, SV National Institute of Technology (SVNIT), India

Title: Highly stretchable hydrogel sensors

Hai-Feng Ji, Drexel University, USA

Title: Automated venting technique used in microfluidic digital logic lab-on-a-chip device

Manasi Raje, Shield Diagnostics, USA

Title: Molecularly imprinted polyaniline film based chemosensor for the detection of melamine from infant formula

Melkamu Biyana Regasa, Jimma University, Ethiopia

Title: Carbon dot based fluorescence sensor for retinoic acid

Sristi Majumdar, Institute of Advanced Study in Science and Technology, India

Title: Graphene / Gold nanoparticles electrochemical enzyme biosensor

Jianfang Wang, National University of Defense Technology, China

Title: Magneto-valve for target transport of active nanopropeller

Yao-Gen Shu, Chinese Academy of Science, China

Title: Highly crystalline surface supported metal organic thin film materials based heterojunctions for triplet triplet annihilation upconversion

Shargeel Ahmad, Dalian University of Technology (DUT) China

MORE :- SLOTS AVAILABLE:

ACADEMIC :- Keynote : Oral : Poster : Video : e-Poster : Delegate

BUSINESS :- Keynote : Sponsor : Exhibitor : Delegate

STUDENT :- Oral : Poster : Young Scientist : Delegate

*GROUP DISCOUNTS (APPLICABLE FOR):

3 or more members from the same lab/institute/university (or) anyone who wish to attend Biosensors Conference 2019

About Singapore

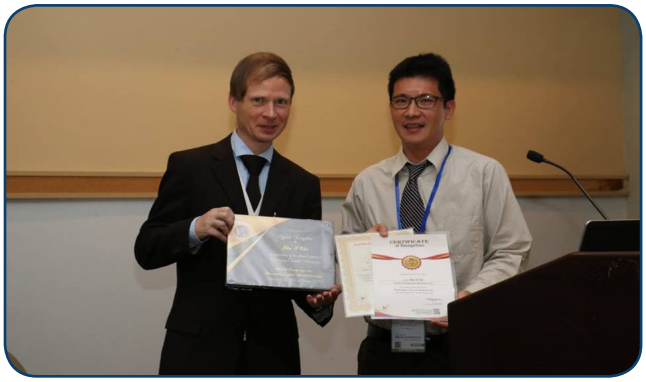

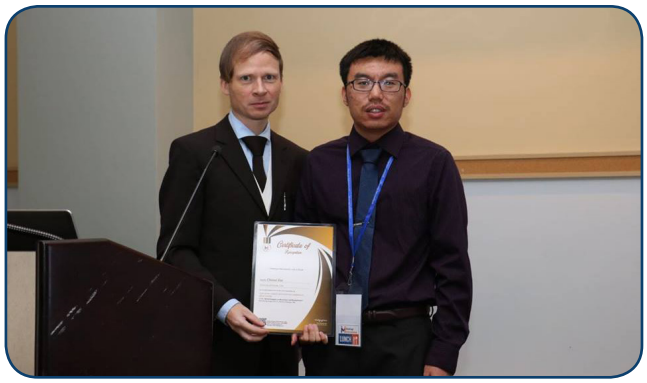

Singapore has a world network with around four hundred cities in one hundred countries inside a 7-hour flight radius making it the most reachable location to visit. With nearly 7,200 flights from round the world, Changi International Airport gives convenience and nice connectivity for company travelers. As for its Infocomm services, Singapore has a dichotomous branched community of broadband aiming for its use to 99% of the populace of Singapore.

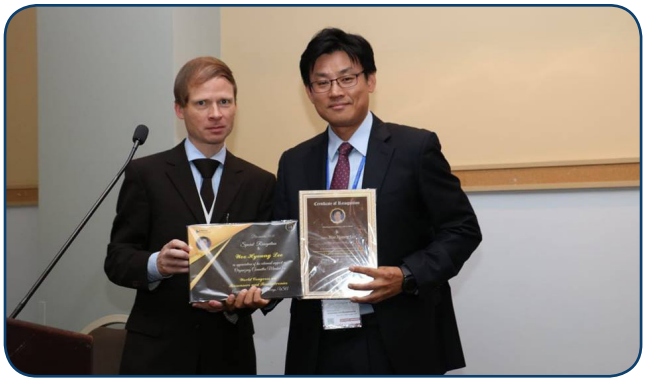

Places to Visit: Singapore has been depicted as a play area for the rich, and the facts confirm that the little city-state has a specific sheen of riches. Be that as it may, Singapore offers something other than the top of the line shopping centers, lavish Hotels to stay, and fine eating (however it merits enjoying those a bit on the off chance that you can).
