What people say about Biosimilar 2018

Dear Julie,

Many thanks to you as you offered me this opportunity to come and participate at this valuable event in Chicago. I think you are great professional and made huge efforts for the event in terms of organization, engaging speakers, etc. And also you have sense for people, act as empathic person what is very important for me. I was very happy and honored to be invited as a speaker at World Biosimilars Conference in terms to present company Ewopharma AG as business partner of different pharma companies in Central and Eastern Europe, especially company Biogen with its portfolio of biosimilars and share my commercial experience in launching biosimilars!

I found the conference interested in terms you selected very qualitative speakers from different areas: innovation and science, manufacturing and commercialization. From my perspective, the most interesting topics were:

Sarfaraz K Niazi: "Biosimilars: Why are they so widely misunderstood?"
Ronald P Dudek: "The adapter CAR Platform: From antibody to CAR T cell therapeutic"
Jose Carlos Ferreyra Lopez: "Market access barriers and market value in Mexican public sector for biosimilars"
Milind Antani: "Similar biologics in India- Impact of regulations on business"
Joel I Osorio: "RegenerAge System "

Sandra Simic,
Ewopharma Croatia, Croatia

Great experience!! Thanks a lot for the opportunity to speak, Julie
