

EuroSciCon

May 22-23, 2023

Florida , USA

4th International Conference on

Biologics, Biosimilars and Biomarkers

May 22-23, 2023 | Florida , USA

Theme: New Horizons in Biosimilars and Biologics

Invitation

We are glad to announce the 4th International Conference on Biologics, Biosimilars and Biomarkers to be held in Florida , USA from May 22-23, 2023 organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Leading Biosimilars Experts, Scientists, Societies, Researchers, Directors of Association, professors, Students, and other young professionals gather in Florida, USA to speak and explore at Biosimilars-2023. , we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend Biosimilars-2023 Conference Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Florida , USA

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

With over 25000+ Practitioners and Educators accessing the website, Biosimilars-2023 is the most lucrative platform for Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Biosimilars-2023 Salient Features:

Biosimilar medicine or follow-on biologics are products designed to act in a similar way to the originator or reference product that has been previously approved for a particular disease. Biosimilars are not the same as generics, see Table 1, which have simpler chemical structures and are considered to be identical to their reference medicines. Biosimilars have been proven, through rigorous clinical trials, to have a high similarity to the reference biological in terms of quality, efficacy and safety.

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Leading World Industrialists Biosimilars Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Biosimilars-2023 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Biosimilars, and Delegates from Medical Laboratories and Drug Designing Companies, Directors/Co-Directors of Research based companies across Europe and US who are investing in Immunology and Infectious Diseases and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Current Challenges In Developing Biosimilars
- Biosimilars In Therapeutics
- Clinical Trials Of Biosimilars
- Biosimilars In Oncology
- Monoclonal Antibody Biosimilars
- Drug Development And Delivery
- Biopharmaceuticals
- Biosimilars Pipeline
- Biosimilar Switch
- Biological Products
- Bioequivalence Assessment
- Challenges In Pharmacovigilance
- Intellectual Property Rights
- Regulatory Approach For Biosimilars
- Globalization Of Biosimilars
- Biosimilars Development In Markets
- Chemical And Analytical Strategies For Biosimilars
- Biological Medicine
- Clinical And Translational Biomarkers
- Cardiovascular Biomarkers
- Molecular Biomarkers
- Biomarkers In Drug Discovery
- Applications In Biomarkers
- Blood Biomarker
- Biomarkers & Research

About Destination Florida

Florida is a state located in the Southeastern region of the United States. Florida is bordered to the west by the Gulf of Mexico, to the northwest by Alabama, to the north by Georgia, to the east by the Bahamas and Atlantic Ocean, and to the south by the Straits of Florida and Cuba; it is the only state that borders both the Gulf of Mexico and the Atlantic Ocean. Spanning 65,758 square miles, Florida ranks 22nd in area among the 50 states, and with a population of over 21 million, is the third-most populous. The state capital is Tallahassee and the most populous city is Jacksonville. The Miami metropolitan area, with a population of almost 6.2 million, is the most populous urban area in Florida and the seventh-most populous in the United States; other urban conurbations with over one million people are Tampa Bay, Orlando, and Jacksonville.

Beyond the entertainment and recreation, Florida has a rich historic and cultural past featuring peaceful natives, Spanish conquistadors, swashbuckling pirates, and generations of Caribbean influences that make it an incredibly interesting and diverse place to visit.
