4th International Conference on

Brain Stimulation

June 27-28, 2024 | Paris, France

Theme: Advancements and Breakthroughs in Neuroscience and Neurology

VISIT US

https://www.meetingsint.com/conferences/brain

Dear Attendees,

Meetings International is honoured and privileged to welcome all neurosurgeons and neurology professionals to attend our most remarkable conference, the **4th International Conference on Brain Stimulation**, which transpires on **June 27 – 28, 2024**, in **Paris, France** With representatives from all the major countries where brain stimulation research is ongoing in attendance, the atmosphere is exciting with open and friendly interaction between attendees.

After three spectacular successes and overwhelming responses from our previous conferences, we eagerly anticipate bringing together the worldwide audience and attendees once again to pave the way for Brain 2024 with an indigenous theme of Advancements and Breakthroughs in Neuroscience and Neurology.

Hope you all join and make the year's most exciting event successful.

We accept abstracts for oral presentations; therefore request you all submit the abstracts

at the earliest before the early bird dates.

Sincerely,
Operating Committee
Brain Stimulation 2024

Meetings International

Brain Stimulation 2024

Scientific Sessions:

- Brain and Neurological disorders
- Neurology
- Neurosurgery
- Neuroimmuno disorders
- Neuropsychiatry and Behavioural science
- Neurophysiology, Neuroimaging and Radiology
- Cognitive neuropsychiatry
- Mental disorders
- Transcranial Magnetic Stimulation (TMS)
- Neurodegeneration and Ageing Disorders
- Neuropharmacology and case reports

To idBrain Stimulationify the future directions of research

Peer review and high quality publication

Young Research Forum:

Meetings International is announcing the Young SciBrain Stimulationist Awards through the **4th International Conference on Brain Stimulation** which is scheduled in **Paris, France** during **June 27-28, 2024**. This Brain Stimulation conference focuses on Advancements and Breakthroughs in Neuroscience and Neurology.

Brain Stimulation 2024 will recognize participants who have significantly added value to the sciBrain Stimulationific community of Otolaryngology and provide them with outstanding Young SciBrain Stimulationist Awards. The Young SciBrain Stimulationist Award will provide a strong professional developmBrain Stimulation opportunity for young researchers by meeting experts to exchange and share their experiences at our international conferences.

Benefits:

The Young SciBrain Stimulationist Feature is a platform to promote young researchers in their respective areas by giving them a chance to presBrain Stimulation their achievemBrain Stimulations and future perspectives.

AcknowledgmBrain Stimulation as YRF Awardee Promotion on the conference website, Young Researcher Awards, and certificates Link on the conference website Recognition on Meetings Int. Award Page Chances to coordinate with partners around the world Research work can be published in the relevant journal without any publication fee

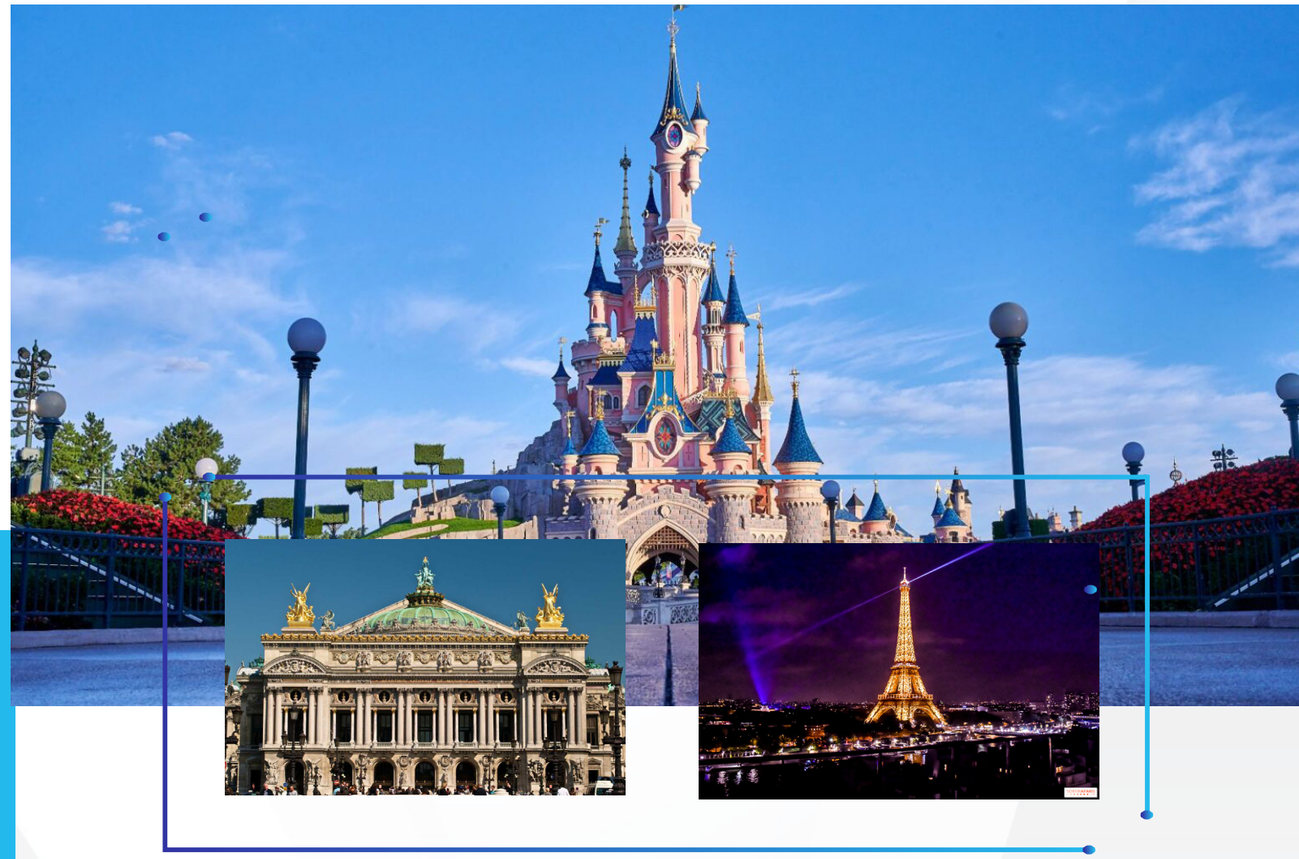

DAY 01/ June 27, 2024

Time	Session
09:00 - 10:00	Keynote Forum
10:00 - 10:15	Coffee/Tea Break
10:15 - 13:00	Sessions
13:00 - 13:30	Lunch Break
13:30 - 15:30	Sessions
15:30 - 15:45	Coffee/Tea Break
15:45 - 17:30	Sessions

DAY 02/ June 28, 2024

Time	Session
09:00 - 10:00	Keynote Forum
10:00 - 10:15	Coffee/Tea Break
10:15 - 13:00	Sessions
13:00 - 13:30	Lunch Break
13:30 - 15:30	Sessions
15:30 - 15:45	Coffee/Tea Break
15:45 - 17:30	Sessions

VENUE:

Paris, France

Gathering in the captivating city of Paris, experts from across the globe convene for the prestigious Brain Stimulation Conference, where the rich tapestry of history, artistry, and scientific advancement provides a fitting backdrop for discussions on cutting-edge stem cell research and innovation. With its iconic landmarks, thriving scientific community, and fusion of science and art, Paris not only symbolises the pursuit of knowledge but also promises to inspire new collaborations and ideas that will shape the future of regenerative medicine.
