Global Summit on

Breast Cancer & Blood Cancer

October 19-20, 2020 | London, UK

Breast Cancer 2020

Invitation

Dear Attendees,

Meetings International proudly announces the Global Summit on Breast Cancer & Blood Cancer scheduled during October 19-20, 2020 in London, UK. The conference emphasizes the theme " EXPLORING ADVANCED THERAPEUTICS FOR BREAST AND BLOOD CANCER".

Breast cancer is treated in several ways. It depends on the kind of breast cancer and how far it has spread. People with breast cancer often get more than one kind of treatment. Surgery. An operation where doctors cut out cancer tissue. Chemotherapy: Using special medicines to shrink or kill the cancer cells. The drugs can be pills you take or medicines given in your veins, or sometimes both. Hormonal therapy: Blocks cancer cells from getting the hormones they need to grow. Biological therapy: Works with your body's immune system to help it fight cancer cells or to control side effects from other cancer treatments. Radiation therapy: Using high-energy rays (similar to X-rays) to kill the cancer cells.

Sincerely,

Operating Committee

Breast Cancer 2020

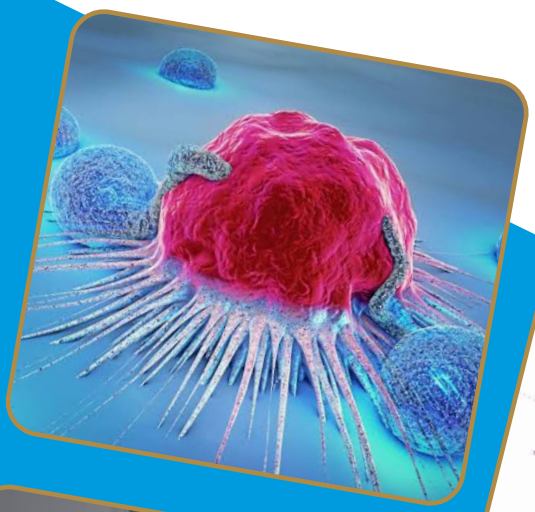

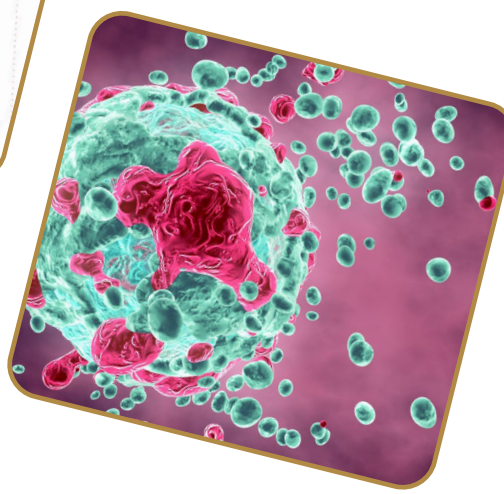

Conference Highlights

- Breast Cancer Therapy, Prevention and Medicine
- Treatment for Breast Cancer: Advanced Detection & Therapies
- Breast Cancer Stages & Types of Surgery
- Cancer and Tumour Immunology
- Advanced Technology: 3-D Mammography & Cyberknife

Explore London

London is the capital and most populous city of England and the United Kingdom. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km) medieval boundaries. London a region governed by the Mayor of London and the London Assembly. London is one of the leading global cities in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth or sixth largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. London's universities form the largest concentration of higher education institutes in Europe. It's estimated mid-2016 municipal population (corresponding to Greater London) was 8,787,892, the largest of any city in the European Union and accounting for 13.4% of the UK population. London's urban area is the second most populous in the EU, after Paris, with 9,787,426 inhabitants.
