Texas , USA

4th International conference on

# Gynecology and Obstetrics

February 23-24, 2022 | Texas , USA

**Theme: Current Research and Innovative Approaches towards Improving Women Reproductive Health**

# Invitation

We are glad to announce the 4th International conference on Gynecology and Obstetrics to be held in Texas, USA from February 23-24, 2022 organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Scientists and professors, Gynecology Surgeons, Women's health Care Researchers, infectious-diseases, Medical Colleges Staff, Healthcare Associations and Societies, Diagnostics Of Obstetricians. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Gynecology-2022 Conference  Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Texas, USA scheduled on February 23-24, 2022.

EuroSciCon

# A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

# Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscript in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the website, Gynecology-2022 is the most lucrative platform for Gynaecology Industrialists, Obstetrics Industrialists, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

## Gynecology-2022 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

## How's EuroSciCon different?

*Exercises your creative instincts with the live knowledge experience*
*It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries*
*Over 25 Million+ Visitors and 20000+ Unique Visitors per conference*
*World's leading industries and companies attend*
*Career guidance for early career researchers and students*
*Provides insights you need to take your research to the next level*
*A huge conclave of high tech and science priests*

# Who'd be attending?

Leading World Healthcare Faculty, Medical Colleges Staff, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Gynecology-2022 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Molecular Biologists, Immunologists, Microbiologists, and Delegates from Medical Laboratories and Drug Designing Companies, Directors/Co-Directors of Research based companies across Europe and US who are investing in Gynecological Pathologists and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

## About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Gynecologists, Institute of Gynecologists & Obstetricians Market Research. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

# Scientific Sessions:

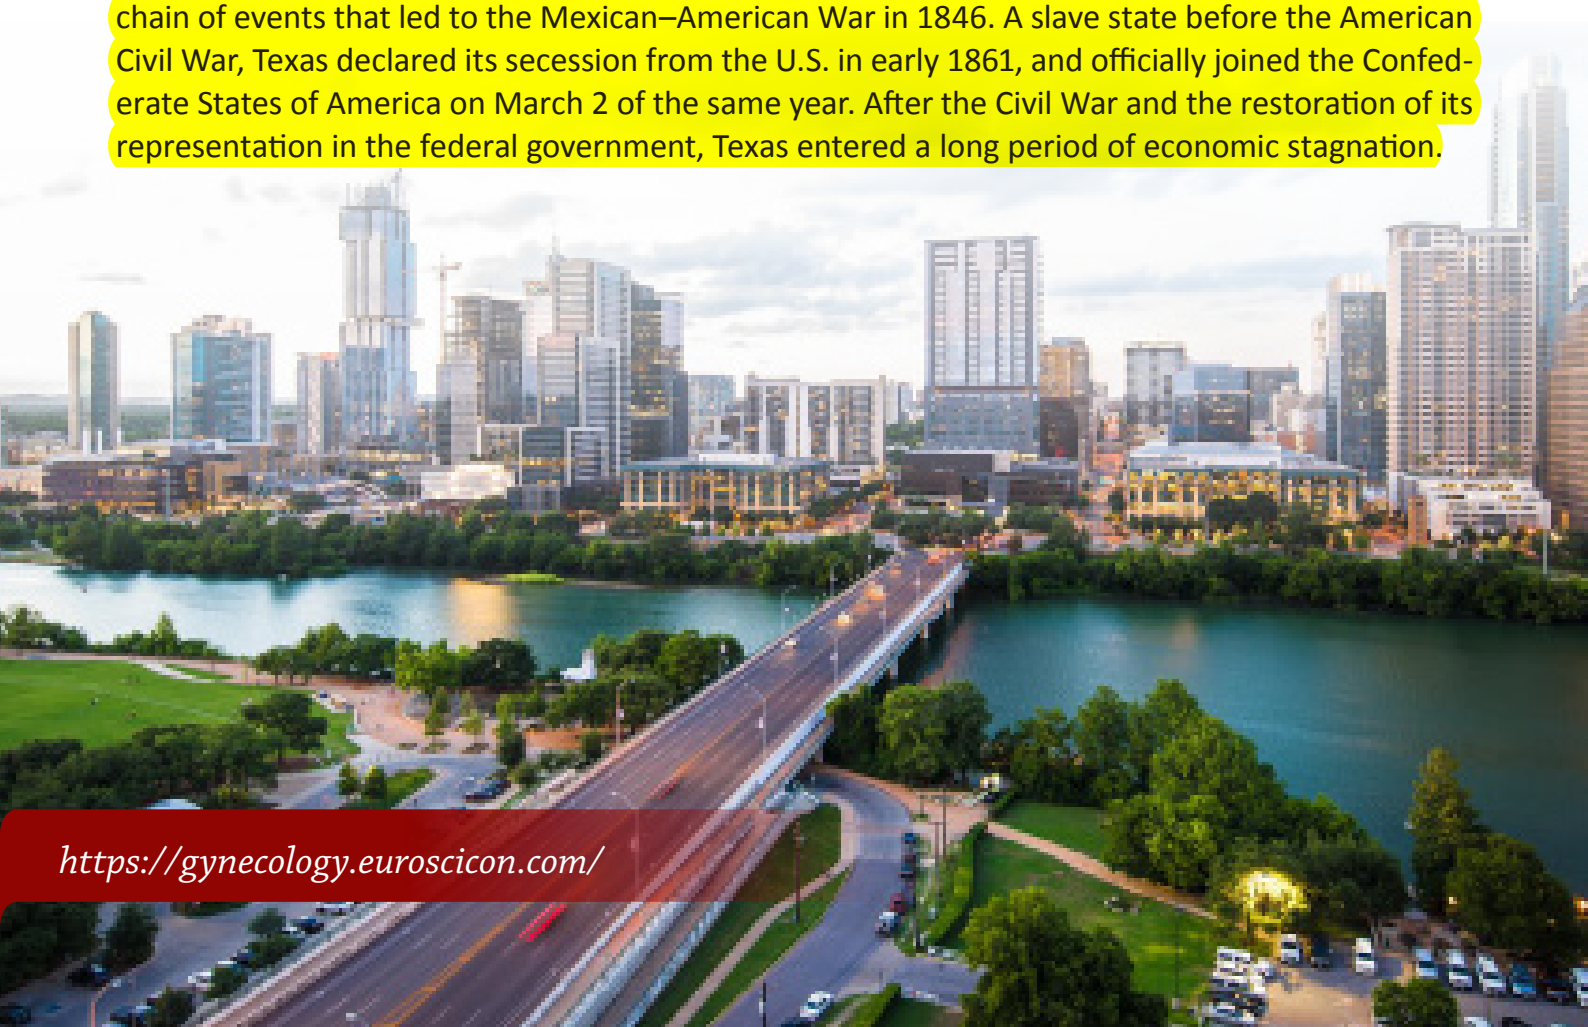

- Gynecology And Obstetrics General
- Pregnancy Trimesters
- Gynecologic Oncology
- Gynecologic Surgery
- Reproductive Endocrinology
- Gynecological Endocrinology
- Gynecologic Cancers: Case Report
- Polycystic Ovary Syndrome
- Gynecology & Obstetrics
- Cosmetic Gynecology
- Reproductive Medicine
- Gynecologists & Obstetricians Market Research Report
- Clinical Gynecologic Oncology
- Infertility
- Labor And Delivery

# About Destination Texas,USA

Texas is a state in the South Central region of the United States. At 268,596 square miles (695,662 sq km), and with more than 29.1 million residents in 2020, it is the second-largest U.S. state by both area (after Alaska) and population (after California). Texas shares borders with the states of Louisiana to the east, Arkansas to the northeast, Oklahoma to the north, New Mexico to the west, and the Mexican states of Chihuahua, Coahuila, Nuevo León, and Tamaulipas to the south and southwest, and has a coastline with the Gulf of Mexico to the southeast.

Houston is the most populous city in Texas and the fourth-largest in the U.S., while San Antonio is the second most populous in the state and seventh-largest in the U.S. Dallas–Fort Worth and Greater Houston are, respectively, the fourth- and fifth-largest metropolitan statistical areas in the country. Other major cities include Austin, the second most populous state capital in the U.S., and El Paso. Texas is nicknamed the “Lone Star State” for its former status as an independent republic, and as a reminder of the state’s struggle for independence from Mexico. The “Lone Star” can be found on the Texas state flag and on the Texas state seal. The origin of Texas’s name is from the Caddo word táyshaÊ¼ meaning ‘friends’.

The term “six flags over Texas” refers to several nations that have ruled over the territory. Spain was the first European country to claim and control the area of Texas. France held a short-lived colony. Mexico controlled the territory until 1836 when Texas won its independence, becoming the Republic of Texas. In 1845, Texas joined the union as the 28th state. The state’s annexation set off a chain of events that led to the Mexican–American War in 1846. A slave state before the American Civil War, Texas declared its secession from the U.S. in early 1861, and officially joined the Confederate States of America on March 2 of the same year. After the Civil War and the restoration of its representation in the federal government, Texas entered a long period of economic stagnation.
