# About Berlin

Berlin is the city of art, artists and museums. In fact, precious artefacts from all over the world are showcased at more than 170 museums here, some of which can be found on the internationally renowned Museum Island. Berlin is a popular destination for classical music fans from every corner of the globe thanks to its leading orchestras, such as the globally popular Berlin Philharmonic, and the city's three huge opera houses, where spectacular operas and ballets are performed. And there is no end of theatre venues specialising in variety performances, revue, cabaret and more to ensure that there is something to keep everyone entertained. And yet the city somehow remains chilled, with plenty of open spaces where people can go to breathe in some fresh air. With sprawling parks, wooded areas and lakes, Berlin is Germany's greenest city. During the summer months, everyone moves outside. The sunshine and balmy evenings are best enjoyed in the beach bars, cafés and open-air cinemas and theatres, after all.
