Invitation

Dear Attendees,

Meetings International proudly announces the ***Annual Summit on Case Reports and Emergency Medicine*** scheduled during ***November 08-09, 2021, New York, USA,***

The conference emphasizes the theme "Emerging Vision of Case Reports".

Case reports 2021 will discuss the latest research outcomes and technological advancements in the field bringing together leading surgeons, physicians, research scholars to exchange their views on critical aspects of Surgery research. This online conference is designed in a way to provide an exclusive platform for new researchers and scholars to present and discuss the most recent innovations, trends and practical challenges encountered, and the solutions adopted in the field of Surgery. Surgery Conference is focused to address the constant effort being made by scientists to improve the existing and inventing novel technologies for the future.

Sincerely,

Operating Committee

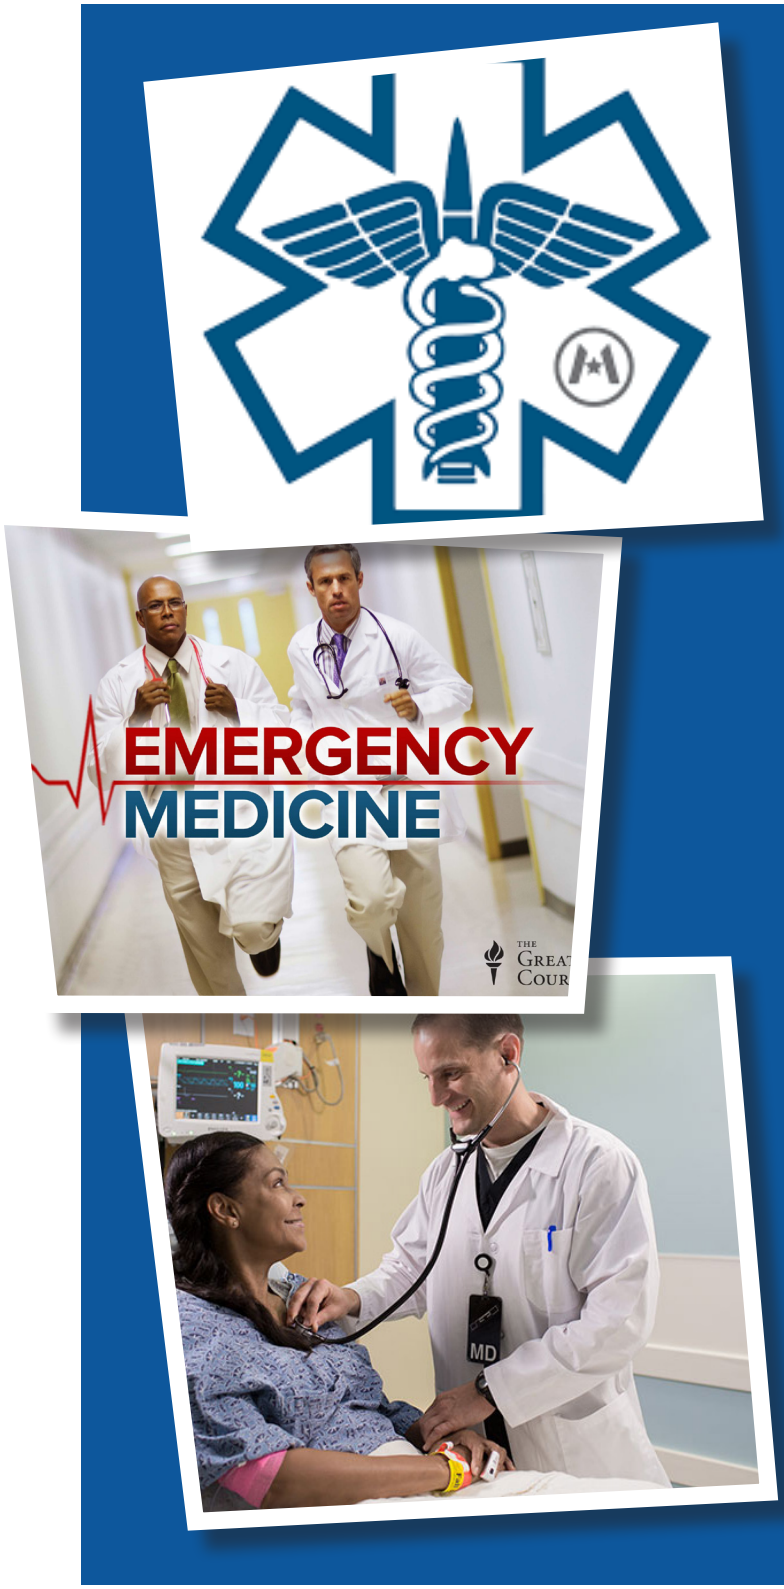

Case Reports 2021

Conference Highlights

- Clinical Trials and Research
- Emergency Medicine
- Global Health Reports
- Oncology Case Reports
- Genetics Case Reports
- Psychology Case Reports
- Cardiology Case Reports
- Neurology Case Reports
- Gynecology and Obstetrics Case Reports
- Diabetics and Endocrinology Case Reports
- Clinical Practice Guidelines
- Case Report on Data Management

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

New York Attractions

Explore New York, USA

New York, constituent state of the United States of America, one of the 13 original colonies and states. New York is bounded to the west and north by Lake Erie, the Canadian province of Ontario, Lake Ontario, and the Canadian province of Quebec; to the east by the New England states of Vermont, Massachusetts, and Connecticut; to the southeast by the Atlantic Ocean and New Jersey; and to the south by Pennsylvania. The capital is Albany. Until the 1960s New York was the country's leading state in nearly all population, cultural, and economic indexes. Its displacement by California beginning in the middle of that decade was caused by the enormous growth rate that has persisted on the West Coast rather than by a large decline in New York itself. Texas overtook New York as the second most populous state in 2000. Still, New York remains one of the most populous states in the country, and its gross economic product exceeds those of all but a handful of countries throughout the world.

Top most city attractions in New York, USA

Some of the newer tourist attractions that have opened in New York in recent years, like the High Line and One World Observatory, offer unique perspectives of the city. Any time of year and any time of day or night there are an endless array of things to see and do in New York. Park Zoo, and the Lake
