2nd Euroscicon Conference on

CELL AND GENE THERAPY

April 08-09, 2019
Paris, France

EuroSciCon

Agenda Day 1: April 08, 2019

Hall Name: Madrid + Lisbonne

09:00:09:30 Registration

09:30-10:00 Opening Ceremony

Keynote Forum

10:00-10:45 **Title: Imaging gene expression**

Vikas Kundra , Anderson Cancer Center , USA

Group Photo @ 10:40-10:45

Coffee Break: 11:30-11:50 @ Foyer

11:30-12:15 **Title: CRISPR/CAS9 ablation of individual miRNAs from a miRNA family reveals their individual efficacies for regulating cardiac differentiation**

Ian Gallicano, Georgetown University Medical Center, USA

Session Introduction

Stem Cell Therapy | Gene Therapy For Diseases | Stem Cell Therapy | Cell Science Research | Stem Cell therapy

Session Chair : Jane S Lebkowski, Regenerative Patch Technologies Inc., USA

12:15-12:45 **Title: Subretinal implantation of a bioengineered embryonic stem cell-derived retinal pigment epithelium monolayer in dry age related macular degeneration**

Jane S Lebkowski, Regenerative Patch Technologies Inc., USA

12:45-13:15 **Title: An initial study to evaluate the efficacy and benefits of injection of plasma rich platelets (PRP) after postpartum vaginal repair**

Hassan Hassan Soliman, Saudi German Hospital , Saudi Arabia

Lunch Break: 13:15-14:15 @ Food and More

14:15-14:45 **Title: Tumor necrosis factor-α/CD40 ligand-engineered mesenchymal stem cells greatly enhanced the antitumor immune response and lifespan in mice**

Farid Menaa, California Innovations Corporation, USA

14:45-15:15 **Title: Germ-line stem cells in myocardial regeneration: secretion of cardiogenic paracrine effectors may be the future**

Samiksha Mahapatra, Georgetown University Medical Center, USA

15:15-15:45 **Title: Role of beta tubulin in leukemia progression**

Raza Faizan, Pure Health Laboratoires, UAE
