

EuroSciCon

International Conference on

Structural and Civil Engineering Research

April 22-23, 2020
Dubai, UAE

Theme:

Exploring latest Innovations & Modern trends in Structural and civil Engineering

EuroSciCon

Civil Engineering

2020

Invitation

EuroSciCon warmly welcomes to all the experts in the field of Structural and Civil Engineering to attend its upcoming conference on Structural and Civil Engineering Research, to be held during April 22-23, 2020 in Dubai, UAE. The Conference is based on the Theme: Exploring latest Innovations & Modern trends in Structural and civil Engineering. Civil Engineering 2020 Conference will make the perfect platform for global networking as it brings all together speakers, renowned speakers, business persons , CEO's , across the globe to most exciting and memorable event ,with interactive sessions, poster presentation, world class exhibition. Advances in the field of Construction and Structures are one of the crucial factors in the economic powers of the developed countries and developing countries.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

April 22-23, 2020
Dubai, UAE

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

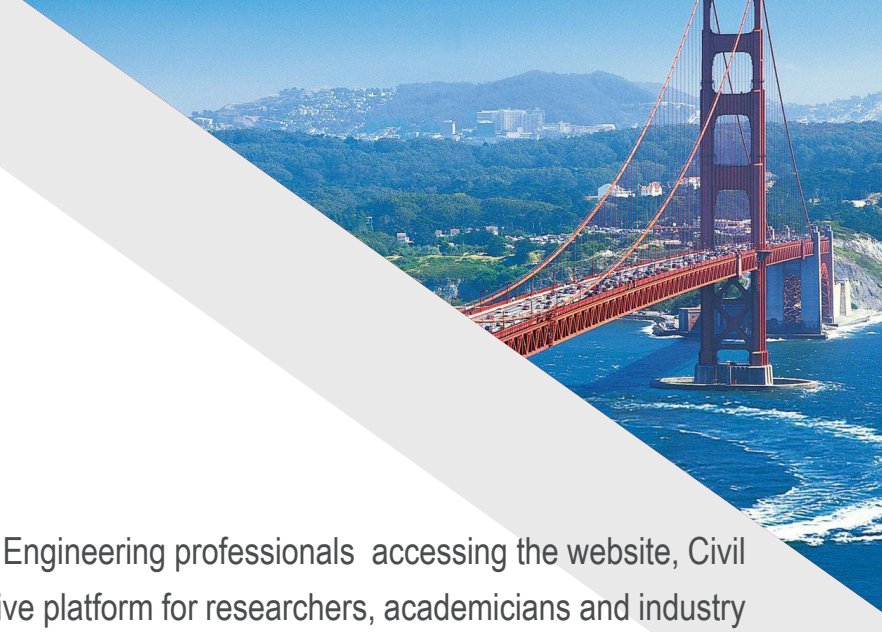

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Structural and Civil Engineering professionals accessing the website, Civil Engineering 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Civil Engineering 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

April 22-23, 2020
Dubai, UAE

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

Engineers who are specialized on the specific fields like Civil engineers, Structural Engineers, Mechanical Engineers (To Present Their case reports and to update their Knowledge at the conference), Civil industry professionals, Building services engineer, Building control surveyor, Environmental engineers who are related to that topics. Bridge Construction Industries, Renewable Energy Industries, Software Publishing Houses specializing in Construction Design software's are the Potential Exhibitors for the Respective Conferences. Civil Engineering associations, Earthquake Engineering Research Institutes, Institutions of Civil Engineering Surveyors, Institutions of Transportation Engineers; Students and Delegates in related areas.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Civil Engineering and Architecture
- Structural and Construction Engineering
- Building Technology and Construction Management
- Steel Structures and Construction
- Structural Analysis and Designing
- Structural Health Monitoring
- Reinforced Concrete Structure
- Modular Constructions
- Earthquake Engineering and Seismic Risk Mitigation
- Transportation and Traffic Engineering
- Pavement Design
- Environmental Engineering
- Water Resource Engineering and Technology Nanotech for Energy and Environment
- Geotechnical Engineering
- Sustainability & Green Structures
- Materials Science and Engineering
- Tunnel Engineering and Construction
- Automation in Construction
- Designing of Special Structures and Concrete Technology
- Construction Market Research and Industry Analysis

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Research Reviews: Journal of Engineering and Technology
- Journal of Civil & Environmental Engineering
- Journal of Steel Structures & Construction

April 22-23, 2020
Dubai, UAE

EuroSciCon

2020

About Destination Dubai,UAE

Dubai is a city in the United Arab Emirates, located within the emirate. The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country.Abu Dhabi and Dubai are the only two emirates to have veto power over critical matters of national importance in the country's legislature. The city of Dubai is located on the emirate's northern coastline and heads up the Dubai-Sharjah-Ajman metropolitan area. Dubai has a fascinating history and a vibrant heritage that provides visitors an intriguing glimpse into Arabian culture. A place to start exploring the heritage and history of Dubai is the Dubai Museum: it's located inside the Al Fahidi Fort, one of the Dubai's oldest buildings dating back to 1787. Glitzy Dubai is the United Arab Emirates holiday hot spot. This city of high-rises and shopping malls has transformed itself from a desert outpost to a destination du-jour, where tourists flock for sales bargains, sunshine, and family fun. Dubai is famous for sightseeing attractions such as the Burj Khalifa (the world's tallest building) and shopping malls that come complete with mammoth aquariums and indoor ski slopes. But this city has many cultural highlights and things to do as well as all the glamorous modern add-ons. Take a wander around the Bastakia district, and you'll discover the Dubai of old, then cruise along Dubai Creek in a traditional dhow and you'll soon realize there's more to this city than its flashy venee.
