

EuroSciCon

September 16-17, 2019
Seoul, South Korea

4th Global Summit on

Climate Change

Theme: An Insider´s View of Climate Science for a Sustainable Future

EuroSciCon

Climate Congress

2019

Invitation

4th Global Summit on Climate Change brings together the specialists from all the aspects to meet and discuss the future of Advanced Materials in today's world. The conference will bring together Directors, Energy scientists, Director of Laboratories, Universities, Industries, Professors, Delegates, Research specialists, Post-Doctoral Fellows, Researchers and Students, Research companies and Consulting Firms and all the interested participants willing to enhance and update the knowledge on Environment and Climate Change.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

September 16-17, 2019

Seoul, South Korea

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

Moreover you get to meet the industry's high priests who come from all over the World. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ professionals and Educators accessing the website, Climate Congress 2019 is the most lucrative platform for Climate Science Engineers, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Climate Congress 2019 Sailent Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

September 16-17, 2019
Seoul, South Korea

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 300+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

The conference will bring together Directors, Climate scientists, Director of Laboratories, Universities, Industries, Professors, Delegates, Research specialists, Post-Doctoral Fellows, Researchers and Students, Research companies, and Consulting Firms and all the interested participants willing to enhance and update the knowledge on Climate Science and Environment.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 18 years of Engineering Communication it focuses on to Spearheading the Transformation of Research into Knowledge through Scientific Gatherings and Networking. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

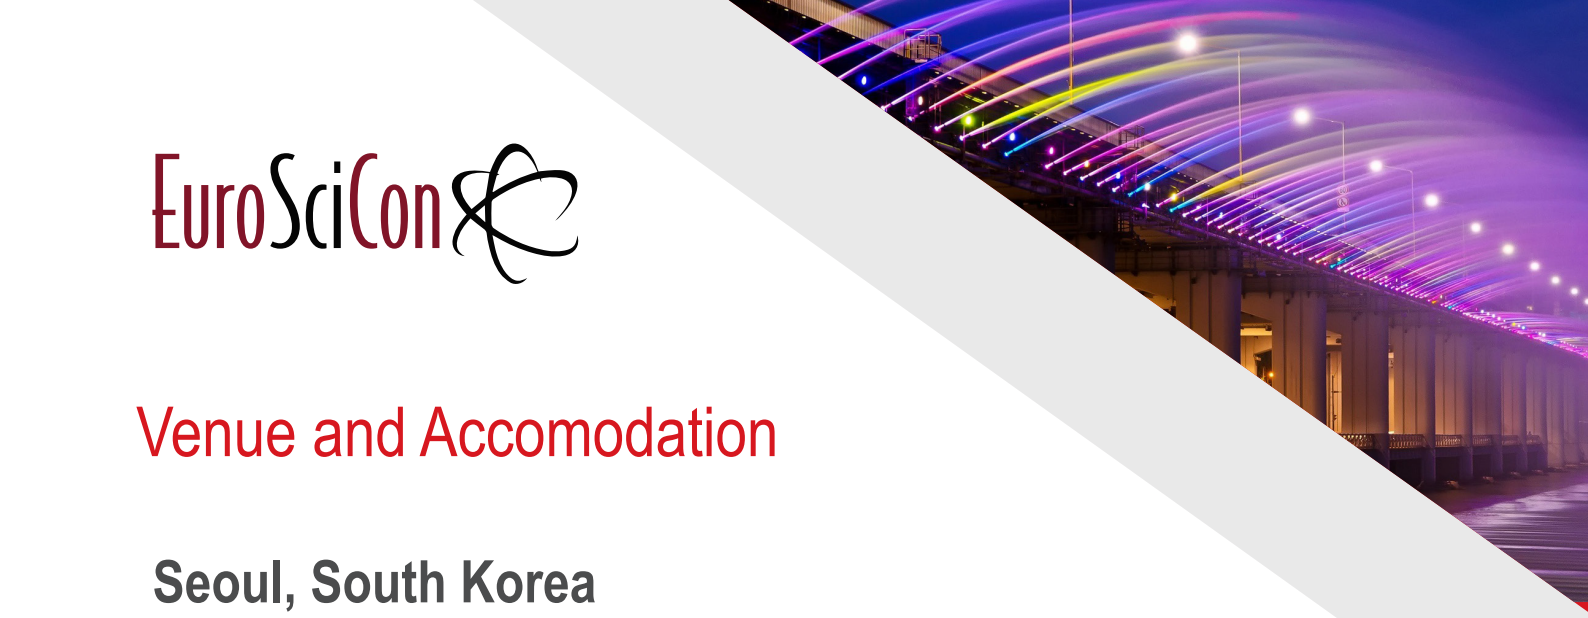

- Climate Change & Climatology
- Evidence of Climate Changes
- Global Warming Effects & Causes
- Biodiversity Scenarios
- Carbon Cycle
- Climate Hazards
- Pollution & its Effects on Climate
- Public Health and Climate Changes
- Green initiatives
- Biodiversity and Species Protection
- Oceans & Climate Change
- Sustainability & Climate Change
- Renewable Energy to Mitigate Climate Change
- Climate change - Challenges
- Risks of Climate Change
- Energy Policy
- Climate Effective Adaptation
- CO_2 Capture and Sequestration
- Climate Change Economics
- Ecology and ecosystems
- Waste management and disposal systems

About Destination Seoul

Seoul, officially the Seoul Special City, is the capital and largest metropolis of South Korea. With surrounding Incheon metropolis and Gyeonggi province, Seoul forms the heart of the Seoul Capital Area, home to roughly half of the country's population. Seoul is ranked as the fourth largest metropolitan economy in the world and is larger than London and Paris.

Strategically situated on the Han River, Seoul's history stretches back over two thousand years, when it was founded in 18 BCE by the people of Baekje, one of the Three Kingdoms of Korea. The city was later designated the capital of Korea under the Joseon dynasty. Seoul is surrounded by a mountainous and hilly landscape, with Bukhan Mountain located on the northern edge of the city. As with its long history, the Seoul Capital Area contains five UNESCO World Heritage Sites: Changdeok Palace, Hwaseong Fortress, Jongmyo Shrine, Namhansanseong and the Royal Tombs of the Joseon Dynasty. More recently, Seoul has been a major site of modern architectural construction – major modern landmarks include the N Seoul Tower, the 63 Building, the Lotte World Tower, the Dongdaemun Design Plaza, Lotte World, Trade Tower, COEX, and the Parc1 Tower. Seoul was named the 2010 World Design Capital. As the birthplace of K-pop and the Korean Wave, Seoul received over 10 million international visitors in 2014, making it the world's 9th most visited city and 4th largest earner in tourism.
